

Section & Page	Question
<p>Attachment B County Standard Contract Pg. 5</p>	<p>23. Prevailing Wages. The hourly minimum rate of wage which may be paid to laborers, workers or mechanics in each trade or occupation to be employed in the performance of this Agreement shall not be less than such specified hourly minimum rate of wage in the performance of this Agreement as required by law.</p> <p>Will the County please provide the job classifications for the prevailing wages, RFP requirement Sec. 23? The Davis-Bacon Act is not applicable to this contract, and therefore the “prevailing wages” clause is inapplicable and should be stricken from the contract. The only minimum wage would be that required by the Fair Labor Standards Act.</p>
<p>Attachment A Technical Specifications Section 10.1.1.E Pg. 10-1</p>	<p>E. The County will perform the civil work and develop each of the tower sites including the following items: b. Site preparation work, grading, filling, compacting and leveling</p> <p>Will the County provide clearing of the guy anchor paths for the new towers under the County’s site preparation scope? Yes</p>
<p>Section 10.2A.g. Section 10.3.4 C Pg. 10-4,10-9</p>	<p>10.2.A. g. New drilled pier tower foundations</p> <p>10.3.4 C Cylinders shall be provided for each foundation pier, and shall be tested at 7 and 28 days after the concrete pour.</p> <p>Guy anchors are not referenced in either specification noted above. Please confirm that the County desires drilled pier foundations for the guyed tower base and anchor foundations. There is no preference for pier foundations for guyed towers.</p>
<p>Section 10.2.1 b Pg. 10-5</p>	<p>10.2.1.b. The existing foundation may be reused if it is of sufficient size and design to support the replacement generator.</p> <p>Does the customer desire the contractor to demo and remove the existing foundations if not re-used? Yes</p>
<p>Section 9.1.3.B Pg. 9-2</p>	<p>9.1.3 B Ancillary site equipment essential to continuous system operation, tower-top preamps and receiver multicouplers, GPS reference oscillators, etc. shall be powered by the -48 VDC power plant system wherever possible.</p> <p>We understand the RFP requirement to configure the Microwave for DC power plant and the P25 for AC power with UPS. Is it acceptable for vendors to propose that the receiver multicoupler, GPS, and other specified equipment be AC power on the UPS backup? Yes</p>
<p>Attachment C Proposal Pricing Sheets Pg.25</p>	<p>1.25 Local Government Control Station Radio Equipment</p> <p>A price page is provided for local government control stations but the quantity is 0. Can the County please confirm that no control stations are required for Local Government? 27</p>
