# GFOA Budget Award

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Bulloch County, Georgia, for its annual budget for the fiscal year beginning July 1, 2019. To receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, operations guide, financial plan, and communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished  
Budget Presentation  
Award*

PRESENTED TO

**Bulloch County Board of Commissioners**

**Georgia**

For the Fiscal Year Beginning

**July 1, 2019**

*Christopher P. Morill*

Executive Director

## Summary of the Budget

The Budget is a lengthy document which can be challenging to understand. Understanding how the Budget is organized will make it easier to comprehend. A Budget outline is found below:

### **Introduction and Overview (pages 8-59)**

- Brief description of the county and county staff
- Principles guiding the budget
- Major changes

### **Financial Structure, Policy, and Process (pages 60-78)**

- Fund descriptions
- Budget creation
- Financial policies

### **Financial Summaries (pages 79-93)**

- Overview of total revenues and expenditures
- Detailed financial summaries

### **Department and Fund Details (pages 94-345)**

- Description and financial summary for each department or fund
- Detailed line-item budgets for each department or fund

### **Debt Service (pages 346-357)**

### **Appendix (pages 358-410)**

- Statistics
- Informational studies
- FTE tables
- Acronym list and glossary
- Budget resolution

The majority of the budget details each fund and department budget. This section focuses on the General Fund, which includes over 40 departments. The purpose of the main section is to enable readers to gain a detailed understanding of each department's expenditures and revenues. The first few sections provide the reader with a basic understanding of the budget and an overview of County objectives. For ease of use in navigating the budget, please refer to the Table of Contents or Quick Reference Guide to direct you to specific areas of the budget.

# Quick Reference Guide

The quick reference guide is organized alphabetically by topic and will direct you to different sections according to the type of information you are seeking.

Information	Section (Page #)
Acronyms	Acronym (394)
Basis of Budgeting	Basis of Budgeting (69)
Budget Amendments	Budget Amendments (74)

# Reader's Guide

## Spreadsheet Guide

The budget contains many spreadsheets. This guide will help you interpret the spreadsheets and find the information you are looking for. The spreadsheets consist of two main parts: a summary sheet and detailed sheet.

## Summary Spreadsheet

The summary provides an overview of the department or fund. Key elements are circled below.

Fund Name	Department Name	Last Year's Budget		Current Year's Budget	
Fund 100	General Department - 15100	Finance Summary		Prior Year Projected Total	
Expenditures	2018 Actual	2019 Actual	2020 Budget	2020 Projected	2021 Budget
Personnel Services	390,683	425,470	477,984	484,820	475,680
Materials, Supplies & Services	136,645	156,420	170,170	200,265	228,530
Capital Outlay	68,578				
Other Financing Uses	69,533	69,533	69,534	69,540	69,540
<b>Total Expenditures</b>	<b>665,439</b>	<b>651,424</b>	<b>717,688</b>	<b>754,625</b>	<b>773,750</b>
Revenues	2018 Actual	2019 Actual	2020 Budget	2020 Projected	2021 Budget
Taxes	102,221	117,296	120,000	116,993	117,000
Charge for Services					
Investment	58,363	342,429	325,000	254,587	200,650
Miscellaneous Revenue	11,600	112,391	8,500	58,302	15,955
Other Financing Sources	183,690	175,690	276,340	276,340	190,000
<b>Total Revenues</b>	<b>355,874</b>	<b>747,806</b>	<b>729,840</b>	<b>706,222</b>	<b>523,605</b>
Personnel Summary (FTE)	2018 Actual	2019 Actual	2020 Budget	2020 Projected	2021 Budget
Full-time	6	6	6	6	6
<b>Total FTE</b>	<b>6</b>	<b>6</b>	<b>6</b>	<b>6</b>	<b>6</b>

The above budget example is from the Finance Department in the General Fund in FY 2021. There are three sections to the summary: expenditures, revenues, and personnel. Expenditures list the totals for four categories of spending: personnel; materials, supplies and services; capital outlay; and other financing uses. Personnel services are the cost of salaries, benefits, etc. related to employees. Capital outlay is money spent on long-term equipment or infrastructure, such as vehicles and computers. Debt Service is for payment on a loan used to purchase enterprise software. Materials, supplies, and services is a category for all other expenses. The revenue section lists all the sources of revenue. Lastly, the personnel summary contains how many full-time equivalents in each department.

# Detailed Spreadsheet

The detailed spreadsheet provides all the detail not found in the summary spreadsheet.

Same four expenditure categories  
found in the summary section

<b>Fund 100 – General Department – 15100 – Finance</b>					
<b>Personnel Services</b>	2018 Actual	2019 Actual	2020 Budget	2020 Projected	2021 Approved

Missing lines are common. These line items are not being used this year.

The detailed spreadsheet provides detail for the four expense categories found in the summary section. It also contains all the line item expenditures for the department's budget. All expenditures are within one of these line items. Totals are found at the bottom of each section.

# Vision, Mission and Objectives

---

## VISION

First in Safety and Service

## MISSION

Provide an exceptional quality of life, including cultural amenities, economic and educational opportunities and southern charm.

## COUNTY OBJECTIVES

1. Provide Quality Services
2. Improve Customer Service and Public Image
3. Provide Transparency and Accountability for County Funds
4. Promote Economic Development
5. Foster Community Involvement
6. Prioritize Safety for County Employees

Our objectives encompass what we want to accomplish as a County. We use these objectives to establish performance measures within departments. The performance measures are meant to capture what each department hopes to accomplish throughout the fiscal year and the current workload. These objectives will help us fulfill our mission as a County.

# County Profile

---

## History of Bulloch County

On March 17, 1758, an act passed by the Georgia Legislature divided the Province of Georgia into eight parishes. The eight parishes of colonial Georgia were St. Paul's, St. George's, St. Matthew's, Christ Church's, St. Philip's, St. John's, St. Andrew's and St. James. In February of 1776, the Georgia Legislature created a county from St. Philip's parish, called Bulloch County.

In the late 1750s, a South Carolina native, Archibald Bulloch, came to Georgia and acquired a plantation along the Savannah River. Mr. Bulloch was a revolutionary leader who opposed the authoritative rule of the British Parliament. Due to his bravery and selfless acts, on January 20, 1776, Archibald Bulloch was elected President of the Executive Council of Georgia. Days later he was elected to the esteemed position of Provincial Governor.

On August 10, 1776, seven months after being elected Governor, Archibald Bulloch read a copy of the Declaration of Independence to the council members of Savannah, Georgia. Afterward, he read the Declaration to an audience at the public square. After reading it for a third time at the Liberty Pole, the Declaration of Independence was praised for its importance by thirteen thunderous rounds from a canon.

On February 8, 1796, Bulloch County was created by the Georgia Legislature from parts of Screven and Bryan County. On May 6, 1873, the very first commissioners' court met. The purpose of the commissioners' court was to appoint different people to the Road Commission from their respected districts in Bulloch County. The first commissioners were Chairman John L. Denmark, Algeverre Scarborough, and Solomon Hagin. On August 11, 1924, an Act created the Board of Commissioners for Bulloch County. The Act established a seven-member commission, one the chairperson, and one the vice-chairperson. Each member, including the Chairman, would be directly elected from the citizenry.

## Bulloch County Today

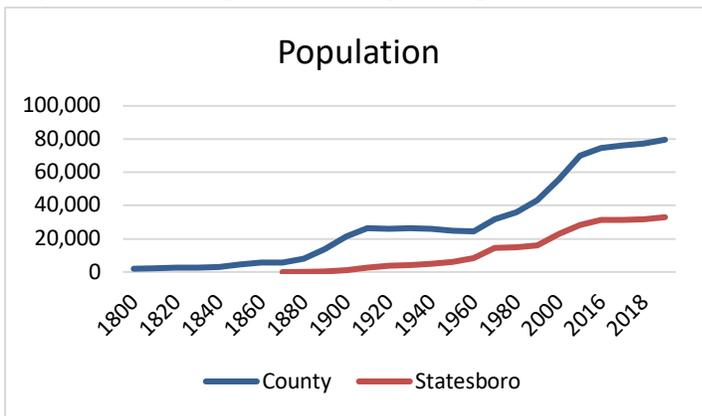

While traditionally an agricultural community hosting a small teacher's college, everything changed when a man named "Erk (short for Erskine)" Russell came to town to coach football at Georgia Southern College in 1982. After his arrival, Statesboro and Bulloch County were never the same. County residents are proud to be the home of Georgia Southern University, the flagship post-secondary institution of South Georgia with an enrollment approaching 20,500 students. The impact of Georgia Southern University is significant for Statesboro, Bulloch County, and the region. A study has estimated the regional impact of the University for Bulloch and surrounding counties to be over \$748 million and is responsible for creating over 10,000 jobs above its direct employment base of over 1,800 workers.

Bulloch County and its county seat of Statesboro has positioned itself to provide an exceptional

quality of life that includes abundant cultural amenities and ample economic and educational opportunities to its citizenry, a southern charm to its visitors, and a progressive, yet, conservative county government. It is also one of the largest counties geographically in the state having 682 square miles, supporting a rich legacy of agriculture, forestry, and precious natural resources.

Bulloch County, located on the fringe of the expanding Savannah metro area, is now home to approximately 76,149 residents, thus nearly doubling its population since 1980. Bulloch County is the Coastal Region’s third fastest-growing county behind Bryan and Effingham and is the third most populous behind Chatham and Glynn. Its annual growth rate is twice as fast that of the region as a whole and outpaces the state’s overall growth rate. Bulloch County also ranks in the top 20% of Georgia’s fastest-growing counties. An estimated 45,000 persons reside within three

miles of the very center of the City of Statesboro. According to current census data, Statesboro’s population is now estimated to be over 31,379. The estimated population poses the likelihood that Statesboro and adjoining areas may reach the status of a small metropolitan statistical area (MSA) in the coming years. MSA status would bring a mix of new opportunities and responsibilities.

The Board of Commissioners, as the policy-making governing body of the County, consists of a part-time Chairperson (elected at large) and six part-time district commissioners elected from two districts (two from District 1 and four from District 2) for four-year, staggered terms. A Vice-Chairman position is filled each year for a one-year term in succession as described in local legislation. They hold regular meetings on the first and third Tuesday of each month, and hold special called meetings, as required. They are responsible for both executive and legislative functions, including establishing ordinances, passing resolutions, setting the annual budget and tax rates, property control, and other internal and external policy.

In addition to the Board of Commissioners, The Georgia Constitution provides for each county to have four elected officers with certain special powers: Sheriff, Tax Commissioner, Clerk of the Superior Court and Judge of the Probate Court. The Board of Commissioners may set annual appropriations for each official, but, does not have operating authority over their affairs, except for those offices where employees are governed under county personnel rules and to provide annual appropriations. There are also various other elected or appointed officials in the judiciary where they are treated similarly by the Board.

As the form of government is a Commission-Manager model (which corresponds to a municipal

council-manager form), Bulloch County citizens can boast of their professionally run county government. This allows the Commission to transfer the day-to-day executive functions and implementation of Board policies to a trained and qualified expert. Starting under the leadership of Chairman Robert Cox, in 1991, the County hired its first county manager, Scott Wood, who immediately began building a cadre of professional administrators that included initially a County Engineer, County Planner, and Staff Attorney. He was further tasked with building an organizational structure from the ground up. After serving for 13 years, Tom Couch took over the helm as County Manager in 2004.

During both manager tenures, the County has enhanced its administrative capacity and workforce consistent with the growth of the community by hiring highly educated and experienced professionals to fill key positions. The County executive staff has no less than six people with advanced degrees in public or business administration and law, and virtually all department heads have bachelor's degrees that include disciplines such as accounting, civil engineering, urban planning, building construction, recreation, and criminal justice. The average tenure of mid-to-high level management is around fifteen-years with the county. Under Couch's tenure, the County established its first positions for Human Resources Director, Chief Financial Officer, and Special Projects Manager.

In addition to its strong tradition of providing excellent county-based systems for transportation, law enforcement, criminal justice, and public health and welfare, the County during its growth boom has added several governmental services for an urbanizing population. The County now offers services for E-911, animal control, solid waste recycling, Geographic Information Systems (GIS), planning and zoning, recreation and EMS-rescue, among others.

Financially, Bulloch County's annual budget is now over \$84 million, and the County manages assets of over \$85 million. The County has among the lowest base ad valorem tax rates for county services in Georgia at 12.34 mills. Including constitutional offices, there are 416 full time-employees budgeted. However, the reliance on part-time employees in recreation and solid waste increases the full-time equivalent to 571. Add the unpaid labor factor of inmates from the County Correctional Institute, and the number goes to over 695.

Structurally, the Board of Commissioners and the County Manager directly oversee five operational divisions that include public safety (animal control, E-911, EMS-Rescue, Correctional Institute, adult probation and rural fire), public works (roads, solid waste and fleet management), community services (recreation, health and human services), development services (planning and zoning, building inspections and economic development).

There are also traditional state-based services delivered at the county level including elections, tax assessment and collections, the Sheriff and Jail, the criminal justice system at a circuit level which includes, Effingham, Jenkins and Screven Counties, cooperative extension services, family and children services, and a county health department. The County also funds services at the regional level including a library, dial-a-ride transit services, aging services and more.

Improving public safety services has taken a front seat during the past decade, as the County has had to furnish a higher level of service with the population growth. The \$12 million addition to

the Akins Public Safety Complex (named after long-time Sheriff Arnold Akins) in 2008 added 220 beds to the jail and also a new E-911 and Emergency Operations Center. Both facilities are state of the art in terms of functionality and technology. The E-911/EOC serves as both a local and regional facility as Bulloch's E-911 serves Candler and Evans County. Bulloch County also boasts a state of the art 800 MHz communications system and received over a \$1 million grant award to implement communications interoperability with surrounding jurisdictions. In 2010, the County also constructed a new Animal Shelter. The County has also spent several hundred thousand dollars in courthouse security upgrades and additional personnel. In 2019-2020, the County will deploy an additional ten full-time employees to build rural fire capability which will enable better response and lower hazard insurance rates for many rural residents.

Bulloch County has progressively become a leader in southeast Georgia and statewide in environmental management and solid waste recycling. In 2009, the County was awarded a \$380,000 grant from the Georgia Department of Community Affairs to become a regional recycling hub for surrounding communities. In addition to twenty convenience centers located county-wide, the County has a recycling processing center that diverts approximately 5,000 tons per year annually. The County now has only a handful of "green box" dumpsters serving the most remote areas, which is a far cry from the former 450 dumpsters serving the entire county in the 1970s.

Surface transportation and road improvements have always been a critical challenge in Bulloch County given its 1,200-mile road system. The road network overall is very functional and well maintained. Interstate 16 has become a significant economic and travel corridor since its construction in 1972. Both U.S. 301 and State Route 67 offer quick access to Statesboro. Veterans Memorial Parkway, a four-lane perimeter road with a divided median encircling most of Statesboro, opened in 1994. The Parkway extends south from Highway 80 West then circles north to Highway 301 North. This Parkway is becoming Bulloch County's major corridor providing not only a means to divert large truck traffic from downtown Statesboro but allows quick access to GSU, the local airport and the city's emerging commercial and industrial areas.

While Bulloch County is among others owning the most paved roads of any county in the state, it also has the most dirt road mileage of any other county in Georgia. Therefore, the County has invested significant funds in road maintenance and construction equipment. Since County forces can construct roads to pavement ready status, this brings substantial cost savings for local road improvement projects.

As a part of its master greenway plan, a major transportation project was the initial \$2 million, 3.1-mile phase, of the S & S Greenway, an eight-mile multi-use vehicle-pedestrian corridor between Statesboro and the town of Brooklet. This project connects to Statesboro's multi-use pedestrian trail, and eventually a multi-use trail being developed by GSU.

The airport, located just north of Statesboro, has emerged as an important transportation and economic development element. The airport now handles over 22,000 aviation operations annually. It is progressively becoming one of Georgia's best Level III general aviation public airports. An aggressive expansion program began in the mid-1990s which included modern navigation systems, several new hangars (including a corporate hanger), taxi-lanes and runway

improvements, and on-going terminal improvements. In the last decade, these multi-million dollar investments have helped to make its operations self-funding through increased fuel sales, landing fees, and hangar rentals.

Recreation and leisure opportunities are abundant in Bulloch County. The Parks and Recreation Department is one of the oldest and most prestigious recreation organizations in the state. Bulloch County takes pride in providing various recreational activities to its citizenry. The department maintains and operates eight recreation areas encompassing more than 240 acres. The department also oversees 30 buildings on these parks. Along with these facilities, the department has a good relationship with both the Board of Education and Georgia Southern University, thus allowing the department joint-use of facilities at non-peak times. Included in these parks are 38 athletic fields, ten tennis courts, two swimming pools, 11 outdoor basketball courts, walking trails, picnic areas, playgrounds, and picnic pavilions.

Mill Creek Regional Park, opened in 1993, is a state-of-the-art recreational 223-acre complex funded through a 1% Special Purpose Local Option Sales Tax. Mill Creek has hosted hundreds of softball and baseball tournaments including multiple national tournaments. The facility has also hosted the Georgia State Special Olympics. It also hosts the annual GSU International Festival and Fourth of July Firecracker Festival. It is not uncommon for attendance to run as high as 20,000 daily for these events. In late 2011, Mill Creek added a 10-court lighted tennis center that includes spectator and changing facilities and concessions.

Mill Creek also features SPLASH in the 'Boro, its marquee attraction. Splash in the 'Boro Family Aquatic Center, Splash, was built in 2004 with an initial investment of \$5.4. At the time, the Board of Commissioners hoped it would at least break even. It currently consists of an 800-foot long lazy river, a 7,000 square foot play pool with a maximum depth of 18 inches and with spray features; a leisure pool six feet deep at the deepest; three water slides, concessions facilities, and shade structures. There are also lap pools and a therapy pool. In 2007, another major expansion added features including a new tot slide and spray ground in the existing island area of the leisure pool. The river area was expanded on the west side of the park to add a zero beach entry and sunning area. Additionally, a new four-lane mat racer slide and a simulation "surf-rider" was installed which will provide extreme thrill rides for the teen market. The expansion cost approximately \$4 million and was finished in 2009. The expansion was funded by debt service to be paid from generated revenues. In 2017, a wave pool, expanded entrance, and other features were added.

Bulloch County's vast geography guarantees its place as a leader in agribusiness in Georgia, even if Statesboro and southern Bulloch County evolve as a small metropolitan area. The County is ranked 3<sup>rd</sup> highest in the state in total farm acreage with over 206,000 acres and ranks 8<sup>th</sup> in farm gate value for timber and forestry products. The County's farms provide a venerable mix of row

crops, livestock, and poultry. New products have also been introduced in the last generation, including sweet carrots and onions.

As horses have become a leading form of livestock in the County and the region, interest has been generated in proceeding with successive phase development for the Center for Agriculture located just south of Statesboro. Completion of the first of successive phases of a long-term development plan of the 50-acre tract

provided a \$2 million, 30,000 square-foot office and professional center for local, state, and federal agencies serving agribusiness in the area that includes county extension offices, USDA and the NRCS. A second phase, including a covered arena, practice arena, and stalls, opened in May 2019. Several studies have indicated that this venue, while serving multiple uses, would be best supported financially for statewide and regional equestrian events.

## County Manager's Executive Summary

### Recommended FY 2021 Budget

**To: The Bulloch County Board of Commissioners  
All County Elected and Appointed Officials  
All County Peripheral Service Agencies and Component Units  
The Citizens of Bulloch County**

#### **Introduction**

As the County's Chief Budget Officer, I am pleased to present the recommended Fiscal Year (FY) 2021 Budget. After rigorous review and assessment by our Budget Review Team, we have determined that the budget will enable the County to accomplish the following key priorities.

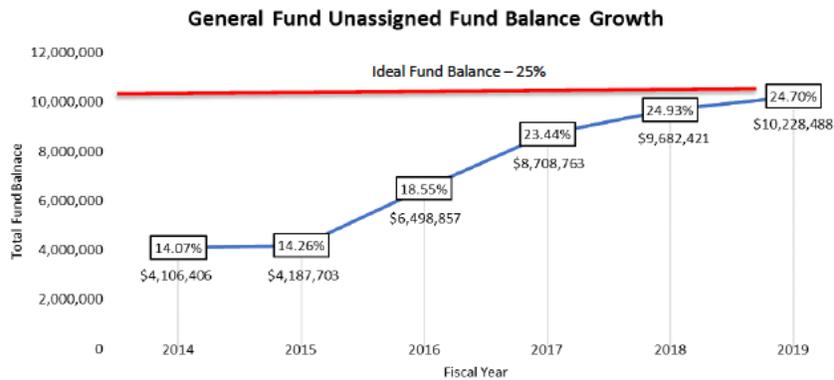

- Preserve the operating position of the County using conservative fiscal practices.
- Increase and maintain the levels of service consistent with the growth of the community while ensuring peak operational performance and efficiency.
- Implement capital projects approved in the Special Purpose Local Option Sales Tax and Transportation Special Purpose Local Option Sales Tax referendum.
- Continue to implement various master planning strategies.
- Facilitate local and regional economic growth.

These priorities are targeting toward expanding the tax base and minimizing property tax burdens on residents, while at the same time lowering the future operating costs of government. Ultimately, we must do these things within the scope of providing superior customer-oriented service for the taxpayers.

The FY 2021 Budget provides over \$79 million across 35 different funds. The following sections of the executive summary will explain the recent accomplishments, economic and financial assumptions, fiscal warrants, and recommended action strategies to carry out the work plan.

#### **Major Accomplishments for Fiscal Year 2020**

**Fiscal Management:** At that close of Fiscal Year 2019, the County met a key goal in our 2016 five-year plan for a sufficient level of rainy-day funds that allows us to maintain liquidity, gives us the ability to weather emergencies, and improves our credit-worthiness when we need to acquire inexpensive financing with committed funding streams. Our financial management provides strong oversight. We have received our first Distinguished Budget Presentation Award, and we anticipate earning a similar award for Excellence in Financial Reporting.

Additionally, the renewal of the Special Purpose Local Option Sales Tax and the passage Transportation Special Purpose Local Option Sales Tax in 2018 now provide the County and its cities sustainable funding for capital projects for several years ahead, without dependence on property taxes. At the same time, our internal governance has produced a new employee compensation plan that helps us compete to attract and retain the best and brightest workers. We have updated our personnel and financial policies to reflect best practices. We have also invested in enterprise resource planning software to help identify and implement efficiency and accountability.

**Judiciary:** Our judicial system is operated effectively by responsible judges, clerks, and attorneys whose number one priority is fair and responsive justice. Sharing resources with Effingham, Jenkins, and Screven Counties, we have added two new part-time juvenile court judges to fill a serious void. We also expanded a previously local mental health accountability court and regionalized the scope to add felony drug clients. These initiatives were achieved at little cost and will help keep people out of our County Jail in the future.

**Public Safety:** Public safety exceeds half of the County budget. Public Safety needs span across law enforcement, corrections, emergency medical services, fire suppression, animal services, and emergency communications. The County has initiated several improvements creating minimal financial impact.

Working cooperatively with the City of Statesboro, insurance hazard ratings for the Statesboro Fire District were improved, which includes an area with a significant population just outside of Statesboro and is served by the City. The County has also entered into a five-year agreement with Statesboro to continue providing the service to ensure continuity. Meanwhile, an important decision was made by the Board of Commissioners to apply a tax millage for the Rural Fire District enabling a funding stream to create a combined force of paid firefighters to work along-side volunteers. A five-year strategic plan developed last year for the Rural Fire District provided goals for improving insurance hazard ratings and fire suppression capabilities by adding human resources and replacing obsolete equipment. The work is now underway according to the objectives of the plan.

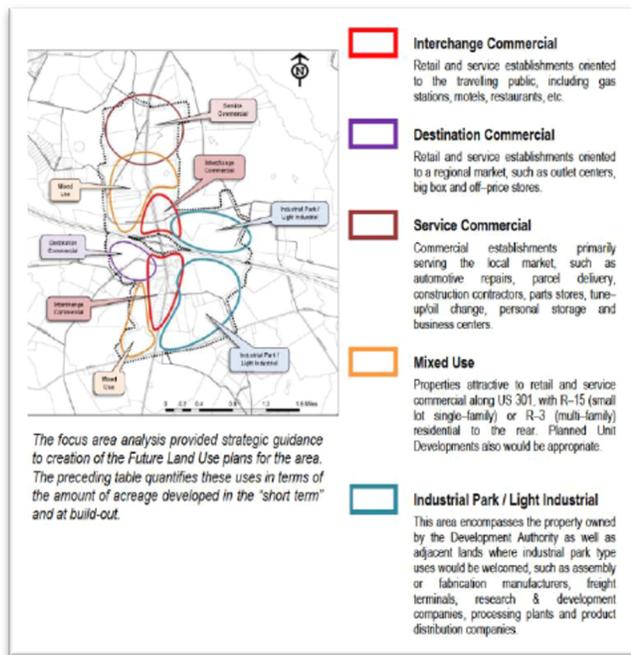

The Board of Commissioners continues to work with the Sheriff's Department and the Bulloch County Board of Education along a path of expanding school resource officers that improves school security while teaching and mentoring responsible behavior. We have been successful in adding a new officer for each of the last three fiscal years toward the goal of having a presence of at least one officer in every school. We have also worked cooperatively with the Board of Education to fund the positions equitably. When school is not in session, these deputies supplement other law enforcement activities.

Three years ago, as the result of community advocates reaching out to the Board of Commissioners, the County chose to develop a new model for animal control and sheltering services. With the implementation of a "no-kill" goal, our adoption rates have soared, and the use of euthanasia to reduce an unwanted domesticated animal population drastically declined. During this period, we appointed an animal control advisory committee that continues to work with an enthusiastic staff contributing to these positive results. We are progressively approaching our goal of a 90% adoption rate.

**Planning:** At the close of Fiscal Year 2019, the Board of Commissioners adopted an updated Comprehensive Plan – *Smart Bulloch 2040*. This plan is strategic in scope and will guide us in the areas of economic development, broadband availability, transportation, and land use. Thematically, it's a plan that intends for Bulloch County to use its smart citizens to become a technological and sustainable "smart community" while meeting SMART goals that are specific, measurable, achievable, relevant, and time-bound.

**Culture and Recreation:** Parks and recreation opportunities have long been a source of pride in our community. In March of 2019, we opened our long-awaited mixed-use agricultural complex, which provided a tourism boost prior to COVID-19. The County also received its first phase of federal funding to design the expansion of the S & S Greenway Trail from the Five Points Roundabout Trailhead to Downtown Brooklet. In January 2020, the County completed construction of a new Senior Citizen's Center on a portion of former Bulloch Memorial Hospital property with financial aid from a federal grant.

**Economic Development:** Public-private and public-public partnerships have laid the groundwork for future economic growth. Three tax allocation districts, a relatively new tool in the toolbox for Bulloch County, have been established to stimulate economic opportunity and community improvement. The Interstate Gateway District at I-16, along with Statesboro's Blue Mile and Old Register Districts have been formed since 2012, and all are in various stages of investment and development. The Interstate Gateway District has a combined state and local investment of \$17 million in infrastructure featuring a 200-acre industrial park that is now open for business. The Blue Mile District is showing new development and private reinvestment, while the Old Register District

has specific private investment engaged for future retail and entertainment opportunities. Thanks to the presence of Georgia Southern University and private investment by Bulloch Telephone Cooperative, most of Bulloch County is supported by state-of-the-art broadband capability built around its underground fiber-optic network. To create jobs and improve education, health care, and social services, we need to seek partnerships with providers and state agencies to fund any last-mile or last-yard connections to ensure all our residents and businesses have affordable broadband access.

**Major Budget and Financial Assumptions**

The following represents the major underlying assumptions considered in preparing and adopting the FY 2021 Budget. The economic assessment below reflects the baseline budget assumptions used by the Budget Review Team.

**Performance of the Economy:** The overall economic outlook for FY 2021 is expected to be negative at the local, state, and national level due to the COVID-19 pandemic. Economic growth is dependent on the avoidance of negative or unforeseen macro-economic influences. Under the current environment, it is difficult to accurately forecast economic performance. The following observations generally summarize consensus economic forecasts.

Prior to the pandemic, macro-economic level growth and output statewide and nationwide was expected to increase at a slower pace through the end of Calendar Year (CY) 2020 and throughout FY 2021, than in the previous fiscal planning period. However, due to COVID-19, the County is already in the midst of an unprecedented recession. The length and magnitude are unknown at this time. The State of Georgia's FY 2021 budget will be negatively impacted and it is uncertain how state funding will affect state-funded county operations. Meanwhile, unemployment in Bulloch County has reached 11.4%, and Georgia's rate has soared to over 14%, as of April 2020. Much of the impact across all geographies has been felt primarily by service-related businesses such as personal services, restaurants, lodging and amusement and entertainment.

The federal government has attempted to stimulate economic activity in recent months to address the pandemic's effects. Such measures have included credit easing, increased unemployment payments, forgivable loans to small businesses and recovery aid to state and local governments. It is still uncertain whether local governments in Georgia will receive stimulus aid through the CARES Act, though some recovery is available through the Federal Emergency Management Agency for emergency protective measures. Any aid is likely to be subject to specific COVID-19 related activities rather than direct aid to relieve any budget shortfalls.

Bulloch County uses three primary local indicators to measure economic performance: residential housing starts, sales tax receipts, and unemployment. The following projections summarize the Budget Review Team's best estimate of short-term future performance.

- Single-family residential housing starts are projected to decline by approximately 10% in FY 2021 from 320 for the last fiscal year to 290. To compensate for expected pandemic related economic impacts, new construction is expected to taper off considerably beginning in the second half of the fiscal year. Prospects for continuing commercial and industrial development are uncertain given the pandemic.
- Bulloch County's annual unemployment rate rose significantly due to the impact of COVID-19 from 3.2% in February 2020 to 11.4% in April 2020. When the data is segregated from the City of Statesboro where there is a greater concentration of unemployed residents, the balance of Bulloch County has a current unemployment rate that is below regional, state and national rates at 9.6%. Congressional Budget Office projections in May 2020 state that the national unemployment rate will be 15.8 percent in the third quarter of this year. After that, labor market conditions will gradually stabilize and begin to improve provided COVID-19 subsides.
- Sales tax receipts are projected to decrease by 10%-15%. To compensate for expected pandemic related economic impacts, spending is expected to taper off considerably beginning in the second half of the fiscal year unless employment levels recover, or new direct stimulus payments reach consumers.

An important aspect of local recovery will depend on the type of re-entry of college students at Georgia Southern University and Ogeechee Technical College. However, the re-emergence of COVID-19 locally could negatively impact the economy.

***Impact on the General Fund:*** Bulloch County's revenue growth benefits from robust population and economic growth when it occurs. The County's budget and financial position became strained with the emergence of the pandemic which is projected to cause some revenue erosion and increasing costs.

Before a general tax rate increase in 2015, the Board of Commissioners had used over \$3 million of General Fund reserves (rainy-day funds) to balance prior year budgets, rather than raising the millage rate to weather the effects of The Great Recession. Consequently, the County's financial position needed to improve to avoid using its reserves to fund operations. Maintaining that strategy risked lowering the County's credit ratings and would affect cash flow and increase costs by creating the need to borrow in anticipation of property tax receipts. The five-year financial

plan created in FY 2016 called for annual targets between \$500,000-\$600,000 to restore fund reserves to an ideal level. Prior to FY 2020, this goal had been achieved. The FY 2020 financial position impacted by COVID-19 is expected to cause a decrease in fund balance of at least \$1 million. The FY 2021 fund reserve will decrease by another \$1.2 million due to the impact of COVID-19, which will approach 21.0% of current expenditures, which is a little lower than the ideal minimum ratio typically recommended for local governments of 25%. The County should maintain at a minimum level, even under duress, no less than an 18%-20% fund balance to avoid the need to borrow money for cash flow, and to sustain acceptable creditworthiness.

For FY 2021, overall General Fund revenues are projected to decrease by 2.7%, due to the impact of COVID-19. Real property taxes account for half of the General Fund revenues and are projected to increase in FY 2021, thus stunting some of the pandemic impact. However, persistence of the pandemic may cause non-property tax revenues to fall requiring an adjustment in expenditure strategies.

The Budget Review Team has projected budget scenarios based on elastic revenue erosion in 5% increments up to 20%. The majority of elastic revenues sources are expected to decrease in FY 2021 due to the impact of COVID-19 by 10%. However, the 10% scenario could be negatively impacted if there is not the hoped-for level of economic recovery beginning in the first quarter of Calendar Year 2021. At this time, the Budget Review Team has selected the scenario that mimics The Great Recession. Proposed expenditure countermeasures do not include draconian cuts, but instead maintain a minimum level of service. Any adverse change during FY 2021 may invoke additional service or personnel related cuts to the expenditure budget, either this year or for FY 2022.

Broader inflation indices are expected to remain low for most goods and services. Significant cost increases that occurred in prior years for various commodities have subsided, but consumption and usage by County employees and facilities have remained steady – resulting in stable expenditures in these areas. The County will continue to be vigilant by monitoring such costs, and vigorous with competitive bidding. Most cost increases in recent years for the County have resulted from the five-year plan to add additional personnel. However, the ratio of non-personnel costs remains proportional.

**Major Special Revenue and Enterprise Funds:** Special revenue, internal service, and enterprise funds will have sufficient operating proceeds or cash reserves (planned deficit) to balance budgets – but, there are areas to watch. Major special revenue funds including the Statesboro-Bulloch County Airport, the Rural Fire Fund and E-911 Communications should remain financially stable and, as applicable, self-sufficient to which there is no impact expected on the General Fund. Due to the pandemic, a decision has been made to close the summer season for Splash in the 'Boro in CY 2020. The impact of this decision will require an interfund loan, most likely from the General Fund, to support the annual debt payment of over \$600,000 for previous facility expansions and debt refunding. Meanwhile, an operational review will be conducted in anticipation of opening for the CY 2021 summer season.

**Capital Projects Initiatives:** The County will continue leveraging sales tax revenue for capital outlays according to its CIP. The 2019 SPLOST capital projects fund will provide nearly \$6.5 million

for capital spending during FY 2021 for Bulloch County. Bulloch County voters also approved in May of 2018 a Transportation Special Purpose Local Option Sales Tax (TSPLOST) which will collect between \$48 million and \$60 million over five years, beginning in November 2018. At this time, TSPLOST funding is tracking at a \$55 million rate for the referendum period and should fund approximately \$6.1 million in County projects for the upcoming year. Some TSPLOST funds will be used to assist in capital maintenance such as equipment replacement, drainage projects serving local roads and vegetation management.

**Grants and Outside Funding:** Approximately \$3.17 million in major outside grant funding is anticipated, or has been awarded, by various funding agencies largely for capital outlays, which have been incorporated into the FY 2021 Budget. Of significant note are the following:

- \$1,660,000 from the FY 2021 Georgia Department of Transportation for the Local Maintenance Improvement Program, which will be used for road resurfacing and major repairs.
- \$36,000 from the FY 2018 Georgia Department of Transportation grant from the Roadside Enhancement and Beautification Program, which will be used for landscaping at US 301 and I-16.
- \$350,000 from the FY 2020 Georgia Department of Transportation from the Local Maintenance Improvement Program, which will be used for installing turn lanes and traffic controls at Cypress lake Road and Veterans Memorial Parkway (Southwest Statesboro Bypass).
- \$823,250 from the FY 2021 Georgia Department of Transportation state and Federal Aviation Administration allocation for airport improvements including a T-Hangar building and parallel taxiway design.
- \$300,000 from the FHWA Transportation Alternatives Program grant for the design of the next phase of the S&S Greenway connecting to the Town of Brooklet.

Meanwhile, the County has applied for nearly \$2 million in funding (but, has not yet budgeted) to support the Rural Fire Department including:

- \$986,481 from FEMA under the Staffing for Adequate Fire and Emergency Response to fund six additional fire-fighters for three years.
- \$994,500 from FEMA under the Assistance to Firefighters Grant for personnel protective gear.

The County also anticipates applying for yet to be determined funding, including the following targeted opportunities:

- COVID-19 recovery funding from the Federal Emergency Management Agency for emergency protective measures.
- COVID-19 recovery funding from the State of Georgia local government allocation for the Coronavirus Aid, Relief, and Economic Security (CARES) Act.
- Georgia Outdoor Stewardship Program grant from the Georgia Department of Natural Resources to supplement funding for the S&S Greenway expansion project.

- Land and Water Conservation Program grant from the U.S. Department of the Interior to provide supplemental funding for the S&S Greenway expansion project, or for other eligible recreational programs.
- Georgia Transportation Infrastructure Bank grant/loan from the Georgia State Road and Tollway Authority for eligible transportation projects.
- One Georgia Fund grant from the Georgia Department of Community Affairs for eligible economic development projects.
- Public Works Assistance grant from the U.S. Economic Development Administration for eligible economic development projects.

**Compensation and Benefits:** Proposed compensation adjustments will be suspended for FY 2021. In FY 2019, implementation of a proposed compensation and classification plan adjustment for full-time employees resulted in 40% of classified positions being raised to the minimum of the new pay ranges. In FY 2020, the second phase of the compensation and classification plan was implemented to relieve wage compression resulting from bringing employees to the minimum of their pay range. Employee health care costs in plan administration and design are accelerating due to two negative years of high claims upon the insurance plan's stop loss limits. The Budget Review Team has recommended not increasing costs for employee insurance premiums and co-pays, but the possibility may exist for the next fiscal year if claims do not trend more positively. The County's grandfathered self-funded status allows more flexibility to control costs and follows the Patient Affordability Care Act.

### **FY 2021 Major Fiscal Impacts**

#### *Compensation and Benefits:*

- Constitutional Officer salary increases of 5% of their base will be implemented according to the state compensation act approved in the 2019 Georgia General Assembly session and signed into law by the Governor.
- No across the board increases nor merit increases will be implemented due to the budgetary impact of COVID-19.
- No annual leave cash outs will be implemented due to the budgetary impact of COVID-19
- There will be no employee health care premium increases.

#### *Additional Personnel:*

##### General Fund:

- No additional personnel will be added in FY 2021.
- Reduction-In-Force of 35 part-time Solid Waste Collection Center Attendants because of COVID-19 health risks.

##### Special Revenue Funds:

- No additional personnel will be added in FY 2021.

### *Non-Personnel Operating Expenditures:*

- Travel and Training: Travel has been decreased by 50% and training has been reduced by 33%.
- Risk Management: Increase in property/liability insurance due to the addition of the new radio system and public safety facilities.
- Government Buildings and Plant: Higher maintenance costs from project deferrals and price inflation of goods and services
- Ogeechee Judicial Circuit: Addition of Superior Court Judge.
- Commodities: While budgeted costs are static, there is expected to be a 10% decline in gasoline costs due to the COVID-19 impact upon gasoline prices.
- Radio System Maintenance: There will be a \$268,070 impact based on the implementation of the new P-25 public safety radio system.

### *Contingency and Reserve:*

- Due to COVID-19 impact, additional use of fund balance or “rainy-day” funds is expected. The is expected to be a planned General Fund deficit of \$1,020,210 in FY 2021. In FY 2022, there will be an additional \$1,100,000 reduction projected. There are no contingency funds budgeted.

### *Major Capital Expenditures:*

- Dirt road paving for Miller Street Extension/Colfax Station subdivision, Highpoint Circle, Hood Road, and new entrance to the Public Works building.
- Traffic light and turn lane improvements at Veterans Memorial Parkway and Cypress Lake Road.
- Planning and design for a roundabout intersection at Langston Chapel and Lanier Drive.
- 13-15 miles of network and neighborhood road resurfacing.
- Road striping for one-sixth of County paved roads.
- Planning and design for a pedestrian trail at Fletcher Park in North Statesboro.
- Planning and design for the S&S Greenway Trail.
- Planning and design for a parallel taxiway and T-Hangar at the Statesboro-Bulloch County Airport.
- An ambulance replacement and various medical equipment for EMS to improve emergency patient care and transport.
- Vehicle, apparatus or heavy equipment replacement for the Sheriff’s Department, Animal Services, Rural Fire, Magistrate Court, Transportation and Solid Waste to retire the aging fleet and reduce maintenance costs.
- Personal protective equipment for the Fire Department.
- Various HVAC replacements at county facilities.
- Various technology improvements in facilities (computers, multi-function devices and telephones) to retire aging equipment and reduce maintenance costs.
- Various parks improvements and upgrades at all existing recreation complexes countywide.
- Equipment and facility upgrades to Splash in the ‘Boro and the Mixed-Use Ag Arena.
- Complete bond financed Sheriff-Jail renovation/additions.

### **Forward Concerns**

COVID-19 poses a threat to the County's present financial condition. A modicum of fiscal discipline and flexibility is required with headwinds of a recession that has begun. However, Bulloch County has many incredible assets and opportunities. However, the challenges of society today demand that we maintain a competitive advantage by addressing our forward concerns.

The FY 2021 Budget provides a sound strategy of service delivery for the current year. The passage of a TSPLOST and SPLOST referendum have stabilized capital needs for the next three to five years. However, forward operating budgets after FY 2021 will require an even more disciplined approach based on the following factors.

**Revenue Development:** Because taxpayers have a low tolerance for tax increases, the County should review all discretionary fees or user revenues for possible increases to cover the full cost of user-related activities that the property tax does not cover. This should be done immediately during this fiscal year to balance costs related to demand-supply effects. The County will also need to be aggressive in seeking any available COVID-19 recovery funding.

**Unfunded Mandates:** High levels of government at the state and federal level continue to reduce cost-sharing obligation, or create new rules, policies or laws that lower intergovernmental revenues or increase costs to the local taxpayer. Nearly one-half of the local resources in the County budget is for state-mandated services that include the justice system, elections, social services, and more. The Governor of Georgia has recently ordered cuts in various state agencies outside of education due to legislation last year that lowered state income tax revenues. *Bulloch County is not in a position to sacrifice its financial position to assume the shifting of costs or funding that its state-based agencies receive locally.* In the meantime, we must maintain our current level of services and funding to avoid budget imbalances that threaten our financial position. The 2020 general election cycle will put democracy at work at the local, state, and federal levels. Strong voter turnout and flawless vote-counting is always a primary goal. Georgia's new voting equipment will be used for the first time in the May primary election but brings some uncertainty. The Board of Commissioners and the Board of Elections share concerns about implementation and costs, yet we are committed to providing resources necessary to conduct a successful local election effort. The Georgia Secretary of State's Office should do the same.

**Economic Development Incentives:** Should the local economy recover from the COVID-19 pandemic, many long-term challenges remain. Our Smart Bulloch 2040 Plan research revealed distinct geographic pockets in the County with persistently high poverty rates and lower income levels compared to many of our neighbors. There is also a prosperity "fault-line" along the US 301 corridor where income levels on the western side of the County are lower than on the east side. In 2015, for the first time, more working residents began commute to work outside of the County rather than in it. To mitigate this issue, more goods-producing jobs in manufacturing are needed. We must redevelop declining business districts and reduce the "Pooler effect" in our retail sector. We also need to strengthen our community partnerships and unleash our creative class available in our labor force. Our community must inspire Georgia Southern University to continue their investment in facilities and preserve enrollment on the Statesboro Campus. Finally, the County needs to review strategies for incentives to attract and retain business and

commerce. Deliberation and due diligence must be performed before offering incentives including, cost-benefit and fiscal impact analyses that show favorable economic and fiscal advantages to the community and revenue base.

**Workforce Development:** The full implementation of the Classification and Compensation Plan places the County in a competitive position for labor. Recruiting competent new employees and retaining our good employees is key to higher productivity and fomenting a positive organizational culture that the community can take pride in.

**Facilities Expansion:** During the next five years, Bulloch County will need to address and plan facility expansion for detention and justice services. Jail overcrowding is present and persisting, and judicial facilities are both aging, dispersed, and space deficient. Some limited measures are available to minimize the challenges in the short-term. However, the critical issue will be how to pay for these new facilities and keep their operational costs affordable. Also, deciding what to do with any abandoned judicial space should be considered. The County will likely have to devote a considerable share of future Special Purpose Local Option Sales Tax proceeds to these facilities without alternative resources.

**Rural Fire Services:** The Rural Fire Department needs to become aggressive in its implementation of full-staffing, shoring up capital needs and preparing for improved ISO ratings to lower homeowner fire hazard ratings. Operational studies authorized by the Board of Commissioners by top fire-service consulting firms are expected to be finished early in the fiscal year which will facilitate quick implementation to optimize results.

**Rural Road Maintenance:** We must consider shifting resources to dirt-road maintenance. With over 750 miles of dirt roads, we continually face multiple challenges such as finding and keeping qualified machine operators, and increased maintenance demands due to more significant road traffic and adverse weather. We will transfer the use of personnel and machinery from internal special construction projects such as off-road site work and road building, to more intensive maintenance until these challenges abate.

**Solid Waste:** Sustainable solid-waste strategies are needed and there are three key issues that need to be addressed. The first is China's refusal of recyclables. Chinese policy significantly impacted the global recycling market, including Bulloch County's recycling efforts. Meanwhile, COVID-19 has deadened remaining market activity where no one is accepting our traditional stream of products, and we are unable to collect them. We must find creative ways to work around the marketplace to maximize our sustainable resources. The second issue is contaminated material. While interest in recycling remains, the contamination of the recyclable material substantially affects the long-term sustainability of recycling in Bulloch County. When recycling markets resume, the County needs to educate ourselves and the public regarding how and what to recycle. The third issue is the need to shift our service model. Because of COVID-19 health risks, we will pursue a reduction-in-force of 35 solid waste attendants and experiment with unmanned centers. The County has begun installing security cameras, automatic gates and

additional visual signage at its collection centers. Because the Convenience Center traffic varies significantly throughout the County (20 to 350 vehicles per day), a re-alignment of personnel, hours and days of operation, and recycling containers are needed to ensure the long-term sustainability of recycling.

***Parks and Recreation:*** Bulloch County is fortunate to possess many outdoor facilities and programs. While having cooperative use relationships with community partners like the Board of Education, the time has come to plan for indoor recreation facilities. We need to fill voids for indoor recreational programming that cannot be offered by the Board of Education, the local YMCA, or the Boys and Girls Club. Meanwhile, we must maintain our existing assets and provide a new generation of programming. Bulloch County now operates and maintains two major retail facilities in Splash in the 'Boro and the Mixed-Use Agricultural Arena, in addition to over 240 acres of parks. To keep assets and programming fresh and interesting, we must reach out with unusual zeal to existing and potential users to guide future improvements.

***Planning and Community Development:*** Finally, our planning and development services capabilities needs to catch-up with demand. Current construction and development are occurring at a pace which existing personnel and other resources cannot keep up. Our development ordinances must be updated for consistent application of our comprehensive plan and so that we can reduce confusion caused by the overuse of conditions in zoning decisions.

### **Concluding Remarks**

The Board of Commissioners is always faced with making difficult choices to maintain a structurally balanced budget and a positive financial operating condition. The major fiscal objectives for the upcoming year will be to increase the existing level of service consistent with our five-year financial plan while implementing strategic cost control to maintain the County's long-term financial operating position.

The recommendation for the FY 2021 General Fund budget is based on a proposal to maintain the general property tax rate or millage at 11.833 mills, where one (1.0) mill generates approximately \$1.8 million in revenue. The Board of Commissioners must set the rate before the tax digest is adopted by the Georgia Department of Revenue. This tax rate assumes a collection rate of 97.5% and will produce nearly \$22,977,000 in ad valorem property tax revenues needed to structurally balance the General Fund budget.

This year's budget plan pursues the goal of promoting fiscal responsibility and keeping general property taxes at the lowest feasible rate. Should the proposed revenue measures, combined with planned cost-efficiency and productivity gains occur as desired, the County's fiscal stability will continue to improve. Unfortunately, there is not enough funding to meet all needs and requests. However, great care was taken to assess where to apply additional resources equitably.

Heretofore, I present the FY 2021 Budget to the Bulloch County Board of Commissioners for your consideration. As always, I owe great thanks to the governing body, other elected county officials, the County staff, and the citizens in exercising patience and due diligence during the budget

preparation process. In particular, I owe gratitude to the Budget Review Team who exerted strenuous effort and excellent analysis forming this annual work plan.

**Thomas M. Couch, ICMA-CM, AICP**

# Budget Message

---

## Chairman's Budget Message

**To: The Bulloch County Board of Commissioners  
All County Elected and Appointed Officials  
All County Peripheral Service Agencies and Component Units  
The Citizens of Bulloch County**

Dear Commissioners, Citizens, and Personnel of Bulloch County,

It is a pleasure to present the Fiscal Year 2021 (July 1, 2020 – June 30, 2021) Budget as a document that will be utilized to guide the growth and success of Bulloch County.

The Budget is one of the most important documents the County prepares each year. In pursuit of providing an appropriate amount and variety of County services, we must also exercise fiscal restraint. This budget document is how we can most efficiently communicate the way to strike that balance. With only a modest investment of time, this document will allow the reader to understand the financial resources required to fund each department and function. This Budget was created to ensure County resources are managed responsibly, enable the County to identify the quality services it provides residents, and allocate the funding necessary for the continued existence of services as the County grows.

With each new FY budget, we aim to improve fiscal policies, create a financial plan for the County's future, establish an operational guide for present use, and communicate how financial resources are spent.

A Budget is a vital tool for maintaining a high standard of transparency, financial responsibility, and efficiency. In preparing the Budget, we have sought to implement the criteria of the Government Financial Officers Association (GFOA) and will submit the document for consideration for GFOA's Distinguished Budget Award. By integrating GFOA standards into the County's budgetary process, we can benchmark our performance against other counties and continually improve our quality of service and the standard of living in Bulloch County.

In the following budget message, you will find a brief overview of (1) principal issues facing the County in developing the FY 2020-21 budget; (2) actions the County will take to address these issues; and (3) a description of priorities that have guided budget development. Also included is a document with a description of our Five-Year Capital Improvement Plan.

## Principal Issues in Budget Development

As Bulloch County navigated the budget process, it experienced some challenges primarily associated with the growth of the County. These issues include:

- Impact of COVID-19 on the local economy and annual budget;
- Increasing needs for the development of infrastructure brought on by development;
- Maintaining or improving employee efficiency and service levels, while development continues to stretch resources;
- Funding capital improvements, specifically to repair aging roads, pave dirt roads, improve park and open space areas, and improve public safety services;
- Ensuring that financial reserves remain adequate for future needs.

Each issue is related to expected (or desired) increases or decreases in growth – whether population or economic – and is sensitive to the demands of residents and private commercial needs.

## Addressing Principal Challenges and Issues

We have used several tools to address these principal challenges and avoid potential pitfalls that may otherwise result from fiscal neglect. These guiding restraints and provisions include:

### **Improving Revenue Collections**

Bulloch County is one of seven Counties in Georgia that does not receive the Local Option Sales Tax (LOST), which limits revenue growth from an improving economy. Therefore, the County must be diligent in collecting property taxes and charging an appropriate cost for services provided to citizens.

### **Investing in Strategic Assets**

As the Special Purpose Local Option Sales Tax is the primary source for capital improvements and growth has been mostly flat for several years, the County must invest in high priority capital improvements and in technology that will lower operating costs. In May 2018, voters approved a new transportation sales tax (TSPLOST) to help maintain transportation systems in the County, which was followed later with a six-year continuation of the Special Purpose Local Option Sales Tax.

### **Providing for Economic Development**

Bulloch County needs to actively market industrial park development and encourage commercial development to boost revenue streams and thereby increase the quality of life for its residents.

### **Planning for the Future**

As the national economy has slowly recovered from the effects of the Great Recession, Bulloch County was nearing growth rates similar to pre-recession levels. However, the impact of COVID-19 on the local economy and budget are still unknown. To best prepare for uncertain conditions, the County has taken a proactive approach to prevent increasing long-term operational expenses through investments in preventative maintenance. Nowhere is this more apparent than in our investment in our roads.

### **Maintaining Service Levels**

One facet of future planning involves the service levels Bulloch County is capable of providing. The County carefully considers and evaluates the staffing levels of each department and

determines how to allocate departmental workload best. As growth continues, Bulloch County uses short-term historical growth figures along with short and intermediate-term growth projections to estimate staffing needs. We seek to meet all increased needs through the most effective means available. Both contract services and internal employment are considered in our pursuit of maintaining high quality and cost-effective services in the face of growth and uncertainty.

## Priorities and Goals in Budget Development

The budget process greatly influences and affects the level of services and development the County provides. Each year, the County Commission appropriates funds for the upcoming fiscal year; at the end of the budget year, all appropriations lapse, and the budget process begins anew. The County's purpose is to meet the needs of Bulloch County residents. For this reason, Bulloch County strives to maintain and improve services in an effort to improve the quality of life for residents.

In order to more comprehensively improve, Bulloch County has expanded its county-wide objectives. Objectives, goals, and performance measures for Bulloch County and its operating departments are developed each year. This is done to ensure a common direction, effectively link efforts and resources, and identify future goals.

### County Objectives

1. Promote High Quality Services
2. Improve Customer Service and Public Image
3. Provide Transparency and Accountability for County Funds
4. Promote Economic Development
5. Foster Community Involvement
6. Prioritize Safety Measures for County Employees

In order to fulfill these objectives, Bulloch County has done the following in the FY 2021 Budget:

- Updated certain policies and practices in the budget document in order to provide greater transparency and clarity.
- Budgeted for expected growth, while ensuring Bulloch County has enough available resources.

We hope these changes enable Bulloch County to accomplish its stated goals and pursue both vision and mission.

## Long-term Planning

As is customary, departments and budget preparers consult existing planning and policy documents including, but not limited to the following Bulloch County plans:

- Comprehensive Plan
- Transportation Plan
- Capital Improvements Plan

- Master Greenways and Greenspace Plans
- Emergency Operations and Hazard Mitigation Plans
- Master Recreation Plan and Splash in the 'Boro Enterprise Plan
- Solid Waste Management Plan
- Other various operating plans and documents managed by individual departments

## Conclusion

Our growth and uncertainty related to COVID-19 will continue to present challenges for our budgeting process. In spite of these challenges, I believe our financial outlook is good. As the County matures as an organization, our staff has proven time and time again that we not only cope with challenges resulting from growth, we thrive under pressure. Strategic decision making, strong long-range planning, and strategic positioning are all strengths of our County Manager and department heads. These strengths enable Bulloch County to mitigate and absorb the impact of population growth on its operations while extending the benefits derived from associated increases in sales and property taxes. While property taxes have been increasing recently, and sales taxes are flat, we are mindful that economic trends are uncertain at this time, we must continue to operate under conservative budgeting principles. For this reason, we will focus on investing funds in capital projects which add value and equity into our County without drastically increasing long-term expenses.

### **Budget Overview**

We present a balanced budget for Fiscal Year 2020-21 that meets the standards of all legal requirements and accepted administrative practices. The total Budget for FY 2020-21 is \$79.5 million, with \$41.6 million for General Fund operations. There are no proposed increases in County taxes. Based on the Budget presented in this document, we are confident that services provided to residents will be maintained or increased at the current tax rate.

### **Budget Achievements**

After much consideration of revenue sources and forecasts for future revenues, I believe the budget expenditures will be funded within the scope of anticipated revenues and minimal use of reserve funds. The Budget as presented will continue to allow the County to provide the highest levels of services and meet the needs of citizens and visitors of Bulloch County while respecting current and potential fiscal constraints.

Respectfully submitted,

*Roy Thompson, Chairman*

# Five-Year County Plan

---

## Introduction

The five-year County plan is designed to provide a unified direction to the County staff as they fulfill the Board of Commissioner’s vision for an ever-improving Bulloch County. By creating future projections based on the County’s growth, we can prepare for issues related to COVID-19, transportation, industrial development, and overall growth.

## Methodology

To assess the financial future of Bulloch County, we have provided revenue and expenditure projections for each fund. We have focused primarily on the General Fund because it comprises most the County’s revenues and expenditures. Considering building permit trends, we project growth of three percent per year. To be fiscally conservative, we implanted a one to two percent yearly growth rate into our projections. We relied on five-year trends to determine future revenues and expenditures.

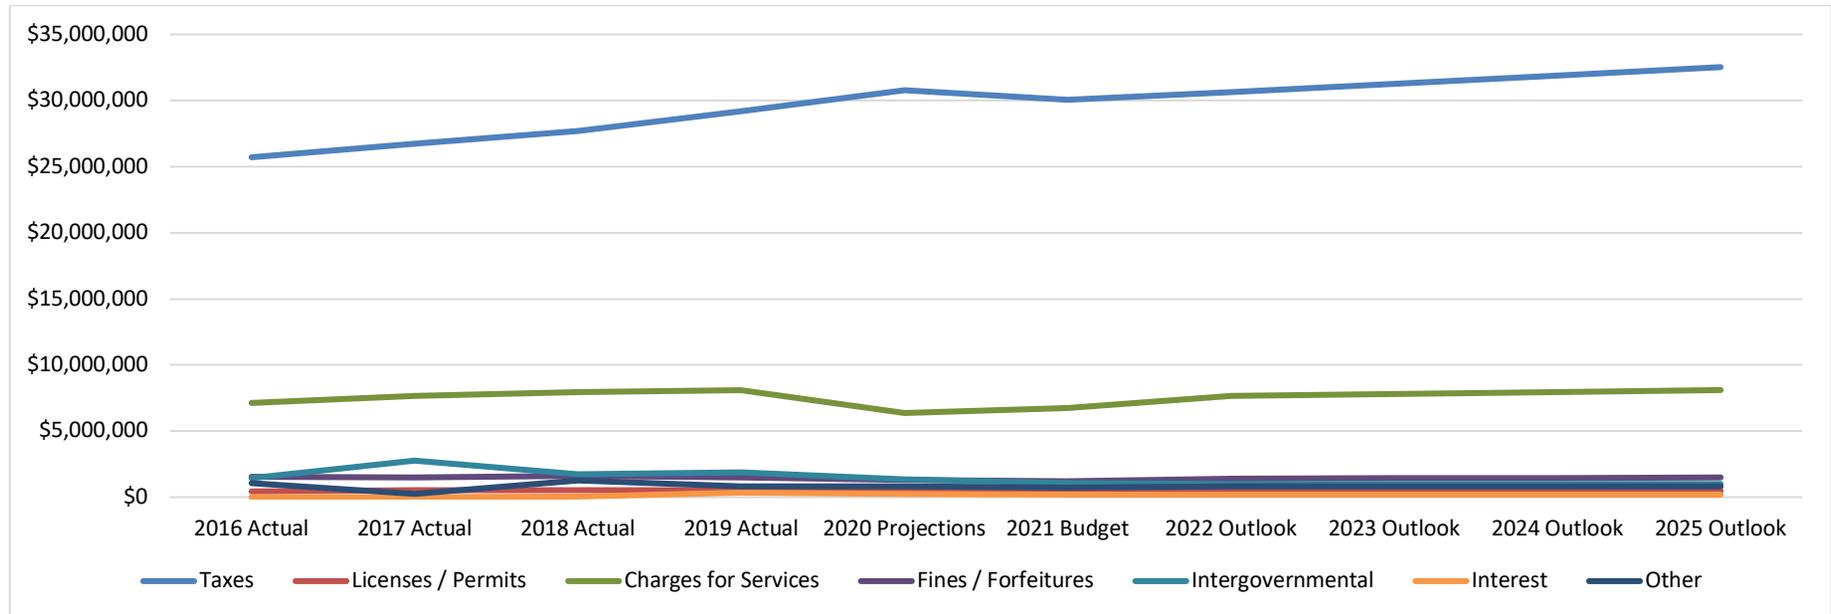

Aside from using estimated population growth, we worked with department heads to factor in anticipated changes in personnel and capital; we expect these two costs will have a significant impact on future expenditures.

The following are five-year revenue and expenditure projection charts and graphs for the County’s major funds. We feel the County is experiencing a relatively consistent pattern of growth (except for COVID-19) that can reasonably be expected to continue through the foreseeable future. To provide the most accurate projections, we will adjust our projected figures as we see changes in services required, population size, or other factors we have not yet anticipated.

Though these projections are not concrete, they provide a broad illustration for the County’s financial future that allows us to anticipate and prepare for future growth and all the costs that accompany it.

## Special Revenue Funds Revenue and Expenditures Comparison

# FY 2021: Major Factors

---

## Introduction

The following section examines economic, political, and administrative factors that have influenced the development of the budget. This section will focus on numerous issues affecting the previous and next year’s budget. Actions and strategies to address these issues have also been presented.

## Revenue Erosion and Unfunded Mandates

### *Issue*

The last two national and state recessions introduced irregular revenue growth over the last several years. While the County has realized marginal tax revenue growth, the growth in the county elastic (economy-influenced) revenue sources such as permits, fees, and fines have been uneven offsetting gains in tax revenues. Revenue erosion has been compounded by the increasing costs of unfunded or under-funded mandates by the state and the federal government to provide services at local expense. *The following are examples of such catalysts and their measurable impacts:*

- COVID-19 related service disruptions, including the need to cancel the 2020 SPLASH summer season, which will limit revenues to pay annual debt service (\$620,000). Another unknown impact will be on recreation services.
- Since FY 2009, it is estimated that the decline in the local economy will result in a loss of \$1,000,000 of elastic revenues sources tied primarily to the decline in real estate and construction. Real estate construction has increased in the past three to four years.
- In FY 2006, the Bulloch County Judiciary mandated additional court security, which costs an additional \$200,000+ annually.
- In FY 2005, Medicare-Medicaid reform has reduced insurance reimbursement rates to the County EMS-Rescue Units for ambulance calls. This represents a loss to Bulloch County of \$50,000 annually.
- Inmate reimbursements from the State remain at \$22 per day, per inmate for state prisoners at the County Jail and the Correctional Institute when the costs are typically \$45 per day. This represents a loss to Bulloch County of over \$200,000 annually.

Since 1998, the County assumed over \$1,000,000 annually in additional costs to replace funding by the City of Statesboro for the Library, Recreation, Airport, Animal Control, and the Development Authority after the County assumed these services under the Bulloch County Service Delivery Strategy.

### *Strategy*

Develop New Revenue Sources: Conduct the following initiatives:

- Continue periodic audits to ensure the full collection of unreported or underreported revenues.
- Review cash procedures for prompt deposits.
- Check status of grant receivables.
- Seek adoption of user fee adjustments for various services.
- Stiffening penalties for non-payment or late payment of fees, permits, and licenses.
- Sell surplus real property no longer used.

## Increasing Costs for Essential Goods and Services

### *Issue*

Escalating costs for basic goods and services along with unplanned and unfunded mandates by higher levels of government to meet service requirements can influence the County from hitting its initial annual budget targets. Over the past several years, uncontrollable and accelerating annual percentage cost increases for such items as:

- Radio equipment maintenance and replacement for Public Safety units.
- Various maintenance supplies and parts, largely driven by transport delivery costs.
- Outside building maintenance performed by contractors and increasing building materials costs.
- Utility costs resulting from a price versus consumption increases.

### *Strategy*

Strategic Cost Control: Continue to be aggressive in offsetting costs of essential goods and services with similar proactive measures already taken that have included:

- Control of authorized jobs or positions within operating budgets and departments.
- Centralizing the purchasing function.
- Monitoring capital projects with a project management approach.
- Monitoring overtime and travel.
- Institute improved risk management and safety program.
- Minimize the use of take-home vehicles.
- Monitor energy efficiency in County facilities and vehicle fleet.
- Improving productivity through technology.
- Continue to work with our state and federal legislative delegations to preserve home rule approaches to revenue development and to not shift the responsibility of higher levels of government to the local level.

## Financial Structure

### *Issue*

Structural budget deficits occurring from FY 2011 to FY 2014 previously damaged the County's operating position (i.e., fund balance or 'rainy-day' fund). Responsible financial policies, along with aggressive revenue enhancement and cost control strategies have been implemented to correct the County's operating position and maximize resource deployment. Bulloch County's ability to keep taxes low will be challenged in the coming years due to several critical needs resulting from increased population growth and service demands by more citizens. Due to the impact of COVID-19, the County anticipates a budget deficit in FY 2021 and a need to use its fund balance to cover operations.

### *Strategy*

Reserve Fund Stabilization Plan: As a part of the general property tax increase in FY 2016, the County developed a five-year reserve fund stabilization plan to rebuild its rainy-day fund to an ideal level, while at the same time improving service, through FY 2020. The County met this goal in FY 2018.

## Unmet Needs

### *Issue*

Annually, there is typically as much as \$2.5 million in recurring annual budget requests that are justifiable unmet needs for the operation of Bulloch County government largely resting in the need for new staffing or equipment to maintain a level of service consistent with population growth.

### *Strategy*

Annually Update Unmet Needs: Continue to examine and analyze future unmet needs of the organization and its assets.

## Asset Management

### *Issue*

While the County continually addresses building and facility issues related to space and storage constraints, on-going maintenance needs and security issues need to be further examined, too. Planning and scheduling for the on-going replenishment of exhaustible fixed assets, particularly fleet vehicles, computers, and telecommunication equipment, are also important.

### *Strategy*

Maintain a Long-Term Asset Replacement Plan: Continue to update and maintain asset inventories and adhere to replacement plans for key fixed exhaustible assets before they experience decline and begin to increase operating costs – while ensuring that disposal of under-utilized or unused assets are disposed of to recoup salvage costs and to take off of insurance rolls.

## Workforce Development

### *Issue*

Over ten years ago, the County made major changes by implementing new personnel and accountability policies and appointed a Human Resources Director. With those key instruments in place, labor market conditions demand that Bulloch County develop its existing and future workforce by providing adequate pay and training to be competitive for qualified and efficient workers.

### *Strategy*

Improve Capacity of Human Resources: Since this office was initiated, capacity building in terms of proper staffing and resources will take some time. However, the relevant actions that must be taken this year are to 1) revise job-descriptions as needed; 2) focus on improving county-wide employee morale through health and safety programs, coaching and team-building; and, 3) concentrate on ways to improve the retirement system.

## Planning for Levels of Service

### *Issue*

The increased service demands for a growing population (now at 76,149) have affected all operating departments who continue to make adjustments in the provision and levels of service to meet the needs of a growing population.

### *Strategy*

Annually Review Level of Service Requirements: Continue to assess the levels of services the citizens require in-lieu of steady population growth and measure their willingness and ability to pay for them.

## Infrastructure and Facilities

### *Issue*

Bulloch County's growing population will demand more infrastructure and community facilities, particularly roads, expanded criminal justice facilities, additional law enforcement, along with the expansion of emergency operations such as fire services and EMS-Rescue. The County should also work with its cities to economically extend their water and sewer utilities to intelligently service growth.

### *Strategy*

Annually Update the Capital Improvements Plan: Continue to annually update the five-year Capital Improvements Plan to ensure orderly planning of key infrastructure and facilities while ensuring a method for determining operating impacts.

## Land Use and Growth Management

### *Issue*

Effective code enforcement services are needed to accommodate the expected future population and commercial growth. The various master planning documents adopted in 2009 and 2019 serve as an effective tool for growth management. However, this needs to be followed by revisions in our development ordinances to respond to sprawling development patterns and new building technologies.

*Strategy*

Implement of Master Planning Documents: The County must carry out the process of implementing key planning documents to meet the needs of a growing population.

## Economic Development

*Issue*

Bulloch County's tax base is becoming more increasingly residential, thus increasing the cost of service faster than revenues received to support them. There is an urgent need to become aggressive in industrial and economic development. The long-term development of the local economy will be greatly influenced by the ability to attract new economic development to Statesboro and Bulloch County.

*Strategy*

Aggressively Attract New Industry. Assist the Development Authority of Bulloch County in attracting new industry and in retention and expansion of existing industry. Carry out existing plans to develop industrial land and the Tax Allocation District at the I-16/US 301 interchange.

## Environmental Protection

*Issue*

Bulloch County's growth puts its citizens in the position to be good stewards of the environment. It's highly likely that the State of Georgia, through the Coastal Georgia Regional Commission, will require us to increase our responsibilities in this area within the next several years.

*Strategy*

Proactively Prepare for Future Environmental Mandates: Prepare for increased environmental mandates that will be required in the Coastal Georgia Regional Master Plan and Water Management Plan, by being proactive in planning for measures to protect its most sensitive environments.

# Major Budget Changes

---

As with all previous fiscal years, as the County approached FY 2021, the County encountered difficult decisions regarding how to best appropriate funds to accomplish its goals and move forward on a fiscally conservative path. The County has sought to provide departments with the resources required to preserve adequate service levels while ensuring that current services, programs, and infrastructure are maintained. This section will provide a summary of major changes in budgeted expenditures from FY 2020, by fund type.

## Total Budget

- Increase of \$7,160,481 from FY 2020 projected.

## General Fund

- Decrease of \$334,955 from FY 2020 projected.

## Enterprise Fund

- Decrease of \$382,206 from FY 2020 projected.

## Special Revenue Fund

- Decrease of \$1,584,836 from FY 2020 projected.

## Capital Improvement Fund

- Increase of \$8,703,633 from FY 2020 projected.

## Internal Service Fund

- Increase of \$758,885 from FY 2020 projected.

# Goals and Objectives

---

## Economic Development

- Provide incentives to businesses for higher-paying jobs and capital investment based on positive cost-benefit analysis. (ED-08)
- Encourage the location of small-to-moderate scale business development near existing or future neighborhoods, small rural centers, or future mixed-use developments. (ED-09)
- Encourage the location of major commercial activity along suburban corridors or interstate-gateway character areas. (ED-10)
- Encourage the location of large businesses and industrial facilities at the employment, interstate-gateway, or airport character areas. (ED-11)
- Encourage mixed-use development at appropriate scales and in appropriate character areas. (ED-12)
- Leverage and promote resources available from local workforce organizations to improve resident workers skills training. (ED-13)
- Leverage and promote resources from local workforce organizations to improve resident workers access to finding higher-paying local jobs. (ED-14)
- Leverage and promote resources available from local technical assistance organizations to establish and sustain small businesses. (ED-15)
- Aggressively pursue leveraged funding opportunities that support infrastructure to expand economic development opportunities. (ED-16)

## Transportation

- Utilize technology and increase the frequency of service to improve dirt road drainage and maintenance. (TR-04)
- Develop qualifying criteria for new dirt road construction to maximize resources to construct 3.0 miles of roads annually. (TR-05)
- Improve existing dirt roads with asphalt resurfacing and pavement preservation techniques to maximize resources treating 20.0 miles of roads annually. (TR-06)
- Maintain all bridges to a good or excellent standard according to the state bridge inventory report. (TR-07)

- Continue to expand road infrastructure at the I-16 Tax Allocation District as development occurs according to the 2011 Redevelopment Plan. (TR-08)
- Develop programs or acquire specialized traffic devices to improve roadway safety and to reduce vehicle and pedestrian safety crashes, injuries, and fatalities. (TR-09)
- Improve intersection safety with enhanced geometrics, signalization, or with innovative designs such as roundabouts or RCUTS. (TR-10)
- Use traffic calming designs in new and existing subdivisions to reduce speeding in residential neighborhoods. (TR-11)
- Coordinate with local educational institutions on existing and future site development to minimize traffic congestion and pedestrian conflicts during peak periods. (TR-12)
- Develop a program to link the greenway system while providing bike and pedestrian amenities. (TR-13)
- Continue to provide leveraged funding support for the Airport to maintain its status as a Level III general aviation facility. (TR-14)
- Continue to support Coastal Regional Coaches demand-response paratransit service that can be coordinated with a future fixed-route/flex-route transit system serving the City of Statesboro. (TR-15)
- Continue to support existing policies requiring real estate developers to provide traffic impact studies when warranted and to install required improvements to serve such sites. (TR-16)
- Assess safety countermeasures at railroad crossings on local roads and implement measures. (TR-17)
- Utilize the Transportation Special Local Option Sales Tax for transportation maintenance and enhancements. (TR-18)

## Broadband

- Assess public safety interoperability and coordination. (BB-04)
- Construct and operate a P-25 public safety radio communication system county-wide. (BB-05)
- Monitor policy developments and legislation to align state goals with local initiatives. (BB-06)

## Land Use

- Enforce flood hazard, river corridor protection, and groundwater recharge protection ordinances. (LU-07)
- Pursue government purchase of environmentally sensitive lands to create wildlife areas, nature preserves, and public parks. (LU-08)
- Establish a land conservation program to create and promote conservation easements or similar tools that preserve important natural areas. (LU-09)
- Update the Countywide Greenways Master Plan and define priorities for development. (LU-10)
- Incorporate design principles into development ordinances or by zoning conditions. (LU-11)
- Encourage the use of planned unit developments (PUD's). (LU-12)
- Develop and promote incentives for amenities, aesthetics, and infill. (LU-13)
- Promote development in surrounding areas that is compatible with airport uses. (LU-14)
- Review rezoning requests to ensure compatibility with airport district character area and Federal Aviation Administration requirements. (LU-15)

## Intergovernmental

- Update the Service Delivery Strategy with all municipalities with every Comprehensive Plan update, or when needed. (IG-01)
- Coordinate planning and development efforts in the region with the Coastal Regional Commission. (IG-02)
- Coordinate and refer information on key land-use proposals and impacts with appropriate units of local government, school districts, and the Coastal Regional Commission, when appropriate. (IG-03)
- Coordinate the planning, development, and siting of schools with the Bulloch County Board of Education. (IG-04)
- Coordinate the planning, development, and construction of municipal utilities when appropriate. (IG-05)
- Coordinate with state agencies regarding legislation and regulatory issues, and identify funding sources for operating and capital projects. (IG-06)

- Coordinate with federal agencies regarding legislation and regulatory issues and identify funding sources for operating and capital projects. (IG-07)
- Utilize Community Development Block Grant (CDBG) and related HUD funding for infrastructure, economic development, housing, and innovative projects. (IG-08)

## Community Facilities

- Annually update the six-year capital improvements program and budget. (CF-01)
- Update specific master plans affecting community facilities including, but not limited to transportation, recreation, public safety, solid waste, redevelopment, land use, when needed. (CF-02)
- Optimize the use and availability of SPLOST and TSPLOST as a capital funding source for community facilities projects. (CF-03)
- Optimize the use and availability of private, state, and federal funding sources to leverage local funding sources for community facilities projects. (CF-04)
- Utilize existing Enterprise Resource Planning software to annually evaluate the need to restore, replenish, or add community facility assets. (CF-05)

# Fund Categories, Types and Descriptions

---

## Fund Description Overview

There are three categories of funds within government: governmental funds, proprietary funds and fiduciary funds. Governmental funds are where most governmental functions such as general administration, judicial, public safety, public works, transportation, health and welfare and culture and recreation are financed. Proprietary funds are those where business-type activities are budgeted from revenues for user fees and charges rather than general revenues such as taxes, fines, licenses or permits. Fiduciary funds are used when government is entrusted with resources for the benefit of private individuals, organizations or other governments.

Within these three fund categories are various fund types, each having its own unique purpose. Under governmental funds, there are the General fund, Special Revenue funds, Capital Projects funds, Debt Service funds and Permanent funds. Under proprietary funds, there are Enterprise funds and Internal Service funds. Under fiduciary funds, there are Agency funds, Investment Trust funds, Pension Trust funds and Private Purpose Trust funds. All County funds budgeted are on an annual basis and subject to appropriation by the Board of Commissioners, even though some projects may span multiple fiscal years. To the extent that the project revenues and expenditures can be assigned to a fiscal year, the budget amounts and documents reflect this. The exceptions are fiduciary funds held primarily by Constitutional Offices, and those belonging to component units of the County, such as the Bulloch County Board of Health and the Development Authority.

Further, a fund may be reported as a major fund or nonmajor fund, depending on whether the fund meets specific criteria. The reason for this distinction is to ensure that a government's most important funds are separately identified. One fund that is always reported as a major fund is the General fund. Other funds meeting the following criteria should also be separately identified as a major fund:

1. Total assets and deferred outflows of resources, total liabilities and deferred inflows of resources, revenues or expenditures/expenses of the individual fund are at least 10% of the corresponding totals of assets, liabilities, revenues or expenditures for all funds of that category or type, and
2. Total assets and deferred outflows of resources, total liabilities and deferred inflows of resources, revenues or expenditures/expenses of the individual fund are at least 5% of the corresponding total for all governmental and proprietary funds combined.

However, even if a fund does not meet the specific criteria above, a fund may be permitted to be reported as major if governing officials believe the fund is particularly important.

Bulloch County utilizes most of these fund types. The following section provides a broad overview of how the County utilizes the fund types and identifies the percentage of expenses or expenditures for that fund type to total expenses or expenditures for all funds. A more detailed explanation is found in corresponding fund sections throughout this budget document. Note that percentage of expenditures values are rounded up to the nearest whole number.

## County Fund Types

### 1. GENERAL FUND (52% of expenditures)

The General Fund is the County's primary operating fund. It accounts for the majority of the County's activities; it derives a large portion of its revenues from property tax and charges for services, and spends resources on most County departments, chief among them are the Sheriff, Emergency Medical Services, Public Works, Culture and Recreation, Planning and the Courts.

The criteria for determining whether an activity is accounted for in the General Fund is simply that the activity is not required to be accounted for and reported under any other fund. Thus, the General Fund acts as a catch-all for any activity that cannot be placed in a different fund. Additionally, Georgia state law requires the County to maintain a balanced budget for the General Fund and therefore, the General Fund is subject to annual appropriation by the governing body.

Since the resources of the General Fund are not typically restricted to specific purposes like the resources of Special Revenue, Capital Projects, or Fiduciary funds, they may be accumulated in the form of a fund balance (assets exceeding liabilities) for "rainy day" events such as emergencies, catastrophes, or other unforeseen demands. The County's fiscal policy is to maintain a healthy fund balance whereby citizens are guarded against the financial strains of fluctuating revenues caused by changes in economic conditions, unexpected service needs or disruption in the event of unexpected natural or man-made disasters.

### 2. SPECIAL REVENUE FUNDS (7% of expenditures)

The Special Revenue Funds are those whose revenue sources are legally restricted or committed to expenditure for specific purposes, other than debt service or capital projects. In Georgia, local governments are legally required to establish special funds for E-911 activities. Other Special Revenue Funds maintained by Bulloch County include the Airport, Statesboro Fire District, Rural Fire, Drug Education, Jail Add-on Fee, Juvenile Services, Street Lighting District, Tourism and Grants. Additionally, the Sheriff and Correctional Institute have discretionary funds such as Inmate Phone funds, Commissary funds, Forfeiture, Seized Assets, and Employee Benefit funds.

### 3. CAPITAL PROJECTS FUNDS (29% of expenditures)

Capital Projects Funds must be used when resources are legally mandated or otherwise restricted, committed or assigned by regulations or covenants to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets but exclude those outlays that are financed by proprietary funds or for assets held in trust under fiduciary funds. For more information on the definition of a capital asset, see the glossary in this document.

Bulloch County's primary funding source for the acquisition and construction of capital facilities and assets for numerous years has been the Special Purpose Local Option Sales Tax (SPLOST), which has been approved by its citizens since 1997, though they also approved the issuance of general obligation bonds in 2012. Citizens most recently approved an additional sales tax specifically for Transportation, or T-SPLOST, in May 2018. The Capital Projects section of this

budget shows some of the projects scheduled for this fiscal year. When comparing expenditures between years, figures vary greatly due to the number and timing of projects appropriated.

#### 4. ENTERPRISE FUND (2% of expenditures)

Enterprise Funds are used to account for business-type activities of the government whereby goods or services are provided to customers external to the government, and where the activity is financed with debt that is secured solely from the revenues of the activity or where the user fees and charges are sufficient to cover the costs of providing the goods or services, including related capital costs such as depreciation or debt service. In other words, the activity is to be self-supporting.

While other governments may have Enterprise Funds for water, gas, and electricity, the County's sole Enterprise Fund is for Splash in the 'Boro Water Park. Revenues in this fund consist of user's admission to the water park, rental of facilities or equipment not included in the cost of admission, retail goods from the gift shop such as personal protective products like sunscreen, lip balm or sunglasses, and concessions.

In the past, SPLASH revenues have been sufficient to cover all capital and operating costs, including depreciation and debt service, and to accumulate a fund balance. However, in recent years, due to much larger facility expansion and consequently, increased debt service and depreciation expense of the new assets, revenues have not covered all costs. Due to COVID-19 concerns, SPLASH will not be opened for the 2020 summer season. Although depreciation is not an expense for which cash must be paid, it is still included in the budget for this fund to aid staff in long term planning. It is the County's hope that patron attendance will continue to increase, thus boosting revenues once again to a level sufficient to cover all costs. However, if this does not happen, the County may need to borrow funds in the future to replace depreciated assets.

#### 5. INTERNAL SERVICE FUNDS (10% of expenditures)

Internal Service Funds are used to account for business-type activities of the government whereby goods or services are provided to customers internal to the government, such as other funds, departments or agencies of the government on a cost-reimbursement basis. In other words, the goal of the fund over time is to generate revenues in the form of user fees and charges that are sufficient to cover the costs of providing the goods or services to break-even, but not make a profit.

The County has three Internal Service Funds to accumulate revenue and expenditures relating to Employee Health Insurance, Food Service and a newly created Radio Fund. The charges associated with these funds are assessed based upon the usage of the Insurance, Food Services and Radio units that each fund, department or agency uses. Since the General Fund accounts for the majority of the County's personnel costs, most of the incoming revenue for the Employee Health Insurance fund is from the General Fund. Similarly, since the County Jail and the Correctional Institute are accounted for in the General Fund, the only revenue into the Food Service fund is from the General Fund. The Radio Fund is a multi-jurisdictional system that will be funded from user fees from State, Educational and other local governments.

# Basis of Budgeting

---

## Budgetary Basis of Accounting

Basis of accounting refers to revenues and expenditures or expenses recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The County uses the current financial resources measurement focus and the modified accrual basis of accounting for financial reporting for all governmental and agency funds. Under the modified accrual basis of accounting, revenues are recorded when they are both measurable and available. The term “available” is defined as collectible within the current period or soon enough after that to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

All proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred, regardless of the timing of related cash flows.

## Relationship between Budgetary and GAAP Basis

Budget adoption is consistent with generally accepted accounting principles (GAAP) except for specific items adjusted on the County’s accounting system at fiscal year-end. During the year, the County’s accounting system is maintained on the same basis as the adopted budget. This enables budget units to monitor their budgets monthly through reports generated by the accounting system. The differences between the budgetary basis and GAAP are as follows:

- Certain expenditures, such as compensated absences, are not recognized for budgetary purposes but are accrued within the Proprietary Funds.
- Principal payments on long-term debt within the Proprietary Funds are applied to the outstanding liability on a GAAP basis, as opposed to being expended on a budget basis.
- Capital outlays within the Proprietary Funds are capitalized as assets on a GAAP basis; however, they are treated as expenditures on a budget basis.
- Bond and lease purchase proceeds in the Proprietary Funds are recognized as liabilities on a GAAP basis but are treated as revenues for budget purposes.

# Budget Process

---

## Preparation

Preparation of the FY 2020-2021 Budget represents the culmination of a yearlong process that integrates financial planning, trend analysis, accounting enhancements, goals and objectives, and strategic planning into service delivery. In so doing, the Bulloch County’s Budget continues its conformance with the four essential criteria established by the Government Finance Officers Association.

### Policy Document

The County’s Budget process is conducted within the framework of the Strategic Plan, Comprehensive Plan, and a comprehensive set of financial management policies, financial trends, and fiscal forecasts. The information contained in these documents allows the policymakers an opportunity to review policies and goals that address long-term concerns and issues of the County and evaluate County services.

### Operations Guide

The Budget describes activities, services, and functions carried out through departmental goals and objectives and continuation/enhancement of performance indicators. The document includes an organizational layout for the County and a three-year analysis on the levels of staffing.

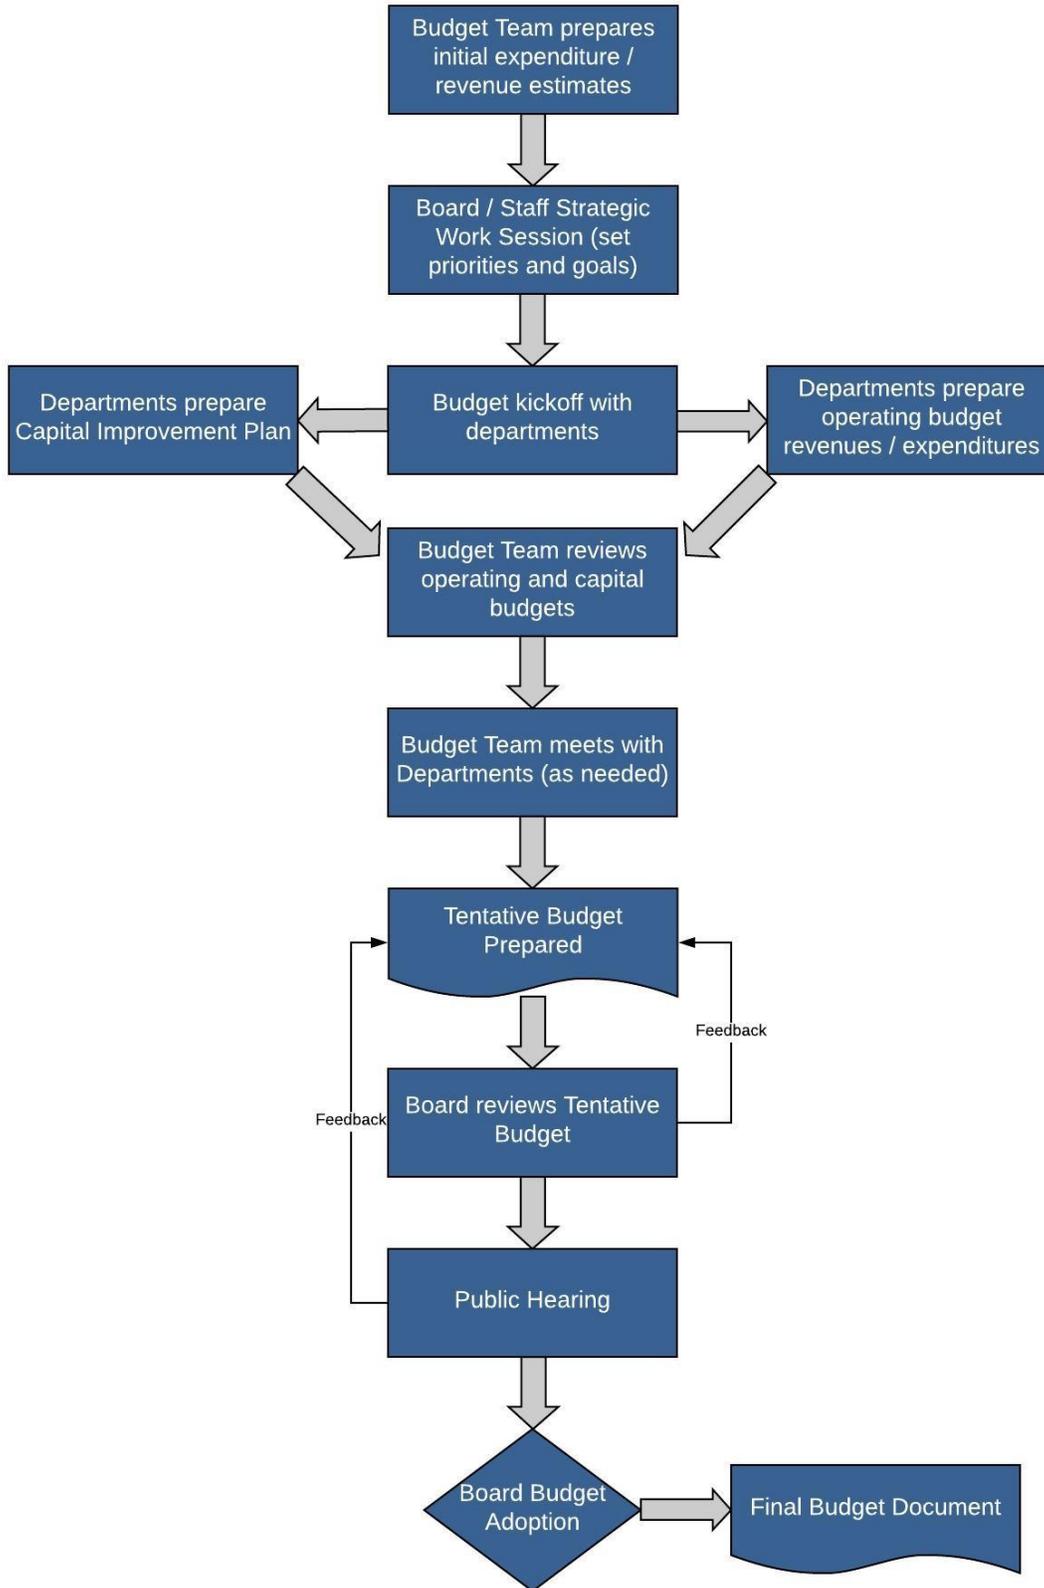

### Financial Plan

The Budget presents the County’s fiscal resources through a process of needs analysis, service delivery priorities, and contingency planning. The document includes the current and long-term debt obligations, list of major projects (including a capital improvement plan) and the basis of budgeting for all funds.

### Communications Device

The Budget seeks to communicate summary information, including an overview of significant budgetary issues, trends, and resource choices to a diverse audience. It describes the process for preparing, reviewing, and adopting the Budget for the ensuing fiscal year. The documents format focuses on ease of understanding and access.

# Budget Process Steps

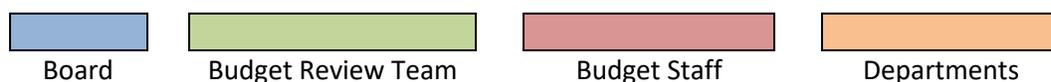

## Budget Calendar

Date	Action
January 15, 2020	Staff trained on and begin capital planning process
January 29, 2020	Budget Review Team reviews proposed Capital Improvement Plan
February 2020	Staff develop proposed major revenue and expenditure assumptions
March 9, 2020	Training on budget expectations and preparation guidelines
March 13, 2020	Departments begin inputting budget proposals into budget software
April 3, 2020	Departments complete budget input into budget software
April 10, 2020	Budget Review Team reviews department submissions
April 24-30, 2020	Budget Review Team meet with departments
May 15, 2020	Departments complete budget submissions (goals, performance measures)
June 11, 2020	Capital and debt overviews distributed to Board
June 11, 2020	Tentative budget delivered to Board and available for public inspection
June 16, 2020	Staff present operating budget proposal to the Board
June 23, 2020	Public hearing on budget
June 30, 2020	Board approves Budget Document
August 18, 2020	Board approves Tax Digest

## Budget Development Schedule

Task	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug
Budget kickoff (revenue/expenditure estimates)								
Develop and review Capital Improvement Plan								
Provide budget training								
Departments develop budgets								
Reviews budget submissions								
Develop final budget document								
Board reviews budget								
Public hearing on proposed budget								
Budget adoption								
Budget document distributed								
Approve Tax Digest								

## Funding Priority

The Board of Commissioners, along with the budget review team, are responsible for determining priorities, targets, and other guidelines consistent with good budgeting practices each year. These factors are balanced against the opportunities and challenges facing the County in the pending fiscal year planning period. Each operating department and Budget unit receives specific instructions and guidelines for preparing the Budget. Each Budget submission is evaluated and reconciled according to these criteria. Funding priorities are measured in two contexts.

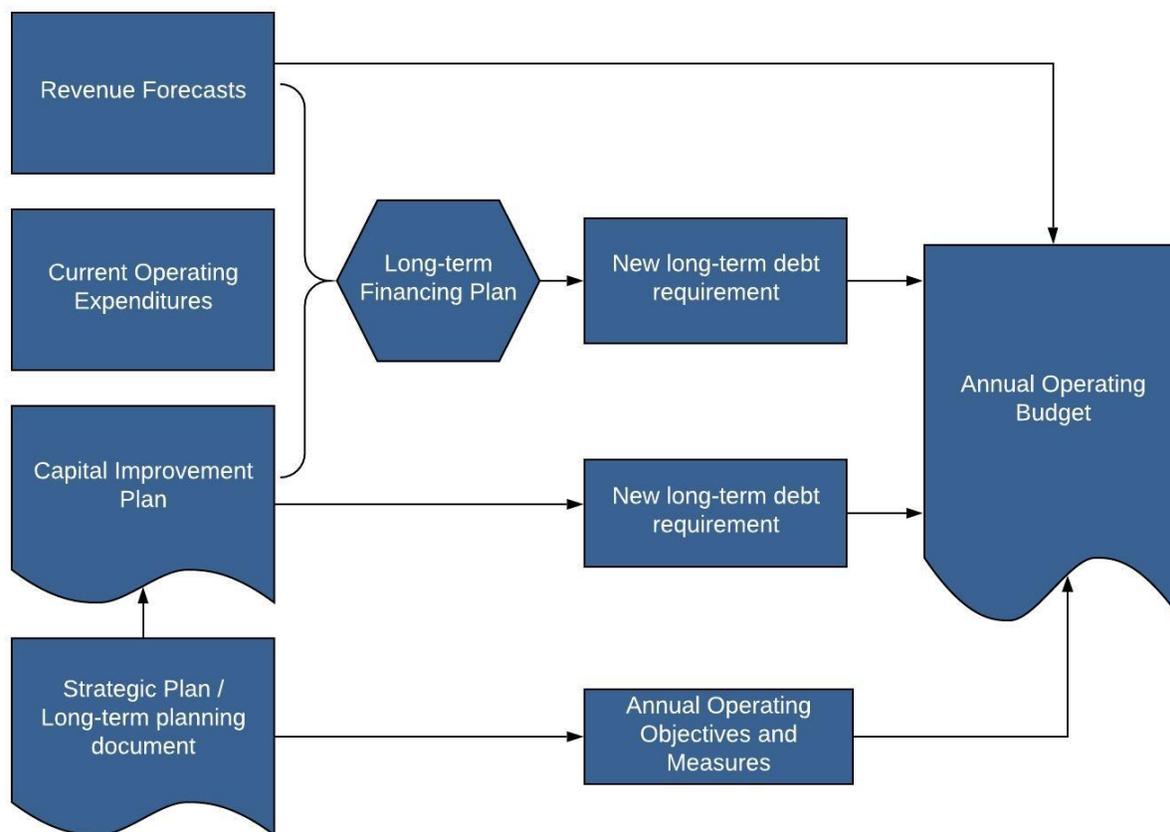

The Board of Commissioners determines priority-funding considerations for service functions for FY 2021 in the following rank-ordered context:

- Public Safety
- Public Works
- Judicial
- Health and Welfare
- Community and Economic Development
- General Government
- Libraries and Recreation

Priority funding considerations for departmental activities are determined by the budget review team and are submitted to internal departments and outside agencies in the following rank-ordered context:

- Mandated program requirements
- Non-mandated, but essential agreements and contracts
- Critical facility needs
- Critical vehicle and equipment need
- Service improvements or new programs
- Compensation adjustments and additional personnel
- Ordinary costs
- Contingency

## Relationship Between the Budget Process and Long-Range Planning

### Monitoring and Reporting Process

As the budget year progresses, department directors have the responsibility of monitoring and tracking the status of expenditures against their budgets. This responsibility includes informing the County Manager of any significant departures from the plans approved in the Operating Budget.

Reports used in both the monitoring and reporting process include the use of budget status reports, which compare budgeted amounts on a line item by line item basis with actual expenditures throughout the year. The Budget Office prepares monthly reports to assist the departments with monitoring their budgets. The online monthly expenditure reports show budget vs. actual for each fund by category, compared to spending at that time of year for the previous budget cycles.

### Amendments

Following the adoption of the final Budget, the County Commission can make amendments, as allowed under Georgia law. As projects are deemed necessary by the County Commission, the bidding/quote process, in conjunction with the County's purchasing policy, may result in the need to appropriate more funding to complete the projects. Once the bid/purchase is awarded by the

Commissioners, and it results in the need to appropriate more funding, Finance staff will bring an amendment to a subsequent County Commission meeting for approval.

# Financial Policies

---

## Purpose of Budgetary and Financial Policies

Entity-wide, long-term budgetary, and financial policies guide Budget construction. These policies guide the County in preparing, adopting, and executing the Budget. Adhering to these policies provides several benefits to the County, including:

- Assisting the Chairman and Commissioners in the financial management of the County
- Saving time and energy by regulating the discussion of financial matters
- Engendering public confidence in fiscal decisions made by the County
- Providing continuity over time as elected officials and personnel changes occur

Also, the County’s budgetary and financial policies act as a guard to ensure a balanced budget. A budget is deemed “balanced” when approved expenditures and planned use of reserves do not exceed projected revenues. The over-arching policies surrounding the Budget, development of financial forecasts, and fiscal responsibility are summarized below.

## Adopting / Amending Financial Policies

The County periodically reviews the financial policies to ensure that they reflect current best practices. The Board of Commissioners has the authority to amend policies at a Commissioner meeting. The County’s established budgetary and financial policies govern the general Budget, revenues, expenditures, fund balance, debt, investment, capital facilities, reporting, and accounting.

## General Budget Policies

As a part of the General Budgeting Policies, the County will:

- **Receive citizen input** to meet both the existing and future needs of residents.
- **Pursue economy and efficiency** in providing essential services. County services should not cost more than similar services offered by private industry.
- **Adopt a balanced budget** in the General Fund per the requirements of Georgia Law.
- **Maintain a stable property tax rate.** The Commissioners will generally not increase property taxes unless: (a) inflation forces operating costs upward faster than tax growth, or (b) essential services need more adequate funding.
- **Improve the productivity** of its programs and employees.
- **Reassess services** and service levels during and budget process.
- **Review annually** fees and charges for uses, future capital facilities, licenses, and permits on County services and facilities.
- **Set fees and charges** to cover the cost of services or slightly subsidize services provided for unique or narrow segments of the community.
- **Maintain financial reserves** to guard its citizens against service disruption in the event of unexpected natural or human-made disasters; to provide additional funds for limited unforeseen service needs; and to smooth fluctuations in revenues caused by changes in economic conditions.
- **Maintain and replace** equipment and capital improvements.

- **Maintain market rates of pay** to employees, which include both salary and benefits.
- **Charge Enterprise fund** for services provided by the General Fund.

## Revenue Policies

As a part of the Revenue Policies, the County will:

- **Base revenue forecasts** upon the best information available. In general, revenue forecasts will be slightly conservative. During economic downturns, which result in revenue shortfalls, the County will adjust anticipated expenditures to compensate.
- **Amend the Budget so that expenses will be reduced to conform to revenue.** Inter-fund loans are permissible to cover temporary gaps in cash flow, but only when supported by a well-defined repayment schedule of short duration.
- **Vigilantly pursue payments** due to the extent consistent with the marginal costs of collection.
- **Create a diversified and stable revenue base** to protect County provided services from short-term fluctuations in any one revenue source. The use of one-time revenues to fund ongoing expenditures is discouraged.

## Expenditure Policies

As part of the Expenditure Policies, the County will:

- **Prioritize expenditures that will reduce future operating costs**, such as increased utilization of technology, equipment, and proven business methods.
- **Maintain annual expenditures at a conservative growth rate.** Increases in expenditures, as much as possible, should be limited to the amount it costs the County to provide the same level of services.

## Fund Balance Policies

As a part of the Fund Balance Policies, the County will:

- **Define fund reserve classifications** so that users of financial information understand the County's varying resources as promulgated by the Governmental Accounting Standards Board.
- **Establish the expectation of fund reserves by fund type** to guide the County's leadership in making financial decisions.
- **Maintain adequate fund reserves** so that the County has resources to meet daily operations, unforeseen expenditures, offset unanticipated revenue fluctuations, remain liquid during prolonged periods of revenue shortfalls and to reinforce the County's overall financial health and creditworthiness.

## Debt Policies

As a part of the Debt Policies, the County will:

- **Pay monetary liabilities when due** so that County financial obligations shall be considered first when allocating funds.
- **Plan the use of debt** so that debt service payments will be predictable and manageable part of the Operating Budget. Debt service payments are not extended beyond the estimated useful life of the project being financed.
- **Maintain good communications** with bond rating agencies concerning the County's financial condition. Seek to improve the County's bond rating.

## Investment Policies

As a part of the Investment Policies, the County will:

- **Comply with all Federal, State, and other legal requirements** so that the County invests in a manner consistent with instruments allowed by regulatory bodies.
- **Apply the “prudent investor” standard** so that the County’s investments will be made with judgment, care, discretion, and intelligence while considering the probable safety of the capital and the income to be derived.
- **Ensure the diversification of investments** across issuers and maturities so that the risks of investing, such as Credit Risk and Interest Rate Risk, are mitigated, and safety of the capital is preserved while meeting cash flow requirements.
- **Maintain internal control and oversight** so that County funds are protected from loss, theft, or misuse.

## Capital Improvement Policies

As part of the Capital Improvement Policies, the County will:

- **Maintain a Capital Improvement Plan** and update it periodically. Operating Budgets are funded to operate and maintain new capital improvements adequately.
- **Begin an Economic Analysis Study** and update it annually so that the funding of Capital Improvements keeps pace with inflation and development.

## Reporting Policies

As part of the Reporting Policies, the County will:

- **Prepare and deliver semi-annual detailed financial reports** to the County officials so that budgeted revenue projections and departmental expenditure control are monitored.
- **Prepare and submit financial reports required by the State** on time.

## Accounting Policies

As a part of the Accounting Policies, the County will:

- **Establish and maintain a high degree of accounting practices** so that accounting systems will conform to accepted principles of standards of the Government Finance Officers Association.
- **Apply to the Government Finance Officers Association (GFOA)** for its certificate and awards for financial documents.
- **Prepare audit by an independent public accounting firm.**

# Personnel Summaries

## FY 2021 Staffing Overview

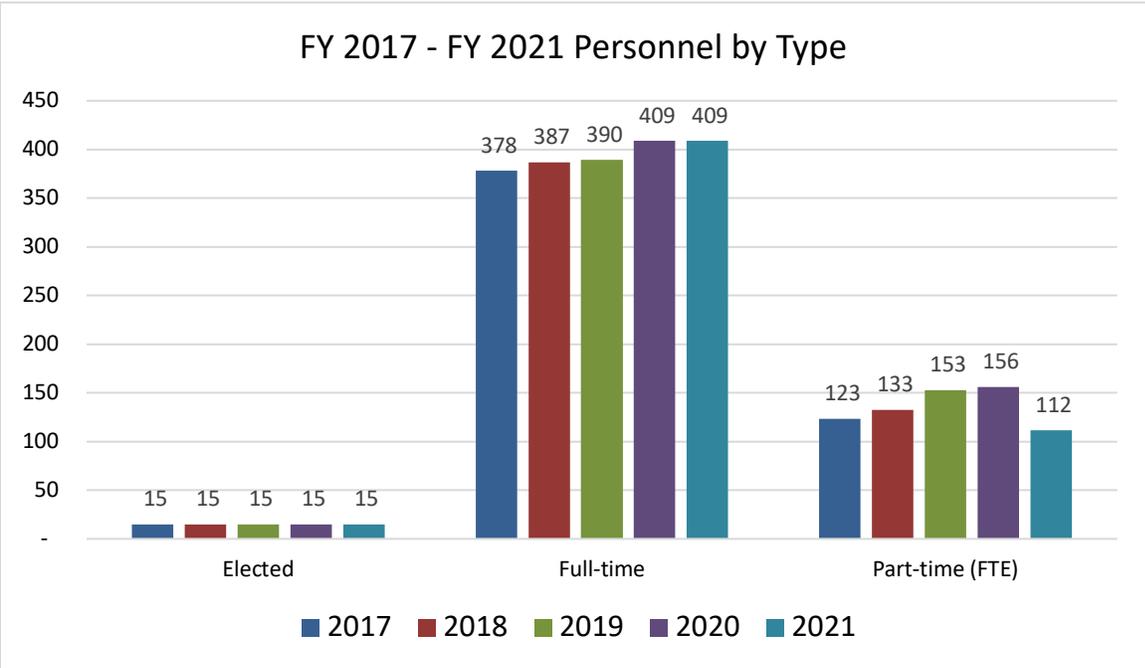

Funding for personnel costs within the County decreased this fiscal year due to COVID-19 service adjustments. Full-time equivalents (FTE's) decreased this fiscal year. The County continues to experience growth but has not increased positions due to the impact of COVID-19 on revenues.

## Personnel Trends

The County workforce will decrease by 44.1 FTEs overall in FY 2021. The General Fund experienced no additional full-time increases; however, several full-time employees were assigned to other departments. Due to the impact of COVID-19, the Enterprise Fund (SPLASH) will decrease by 12.7 FTEs. The Special Revenue Fund will decrease by .5 FTEs in FY 2021, while the Internal Service Fund will not have any FTEs in FY2021. Specific changes will be detailed on the following page.

## Personnel Summary

Bulloch County has 49 departments with the majority falling within the General Fund (43). In addition, the General Fund is where most of the full-time employees (370) are funded. The County also has 15 elected positions, some are full-time (Tax Commissioner, Clerk of Court, State Court Judge, Solicitor, Magistrate Court Judge, Probate Court Judge and Sheriff), while others are part-time (County Commissioners and Coroner).

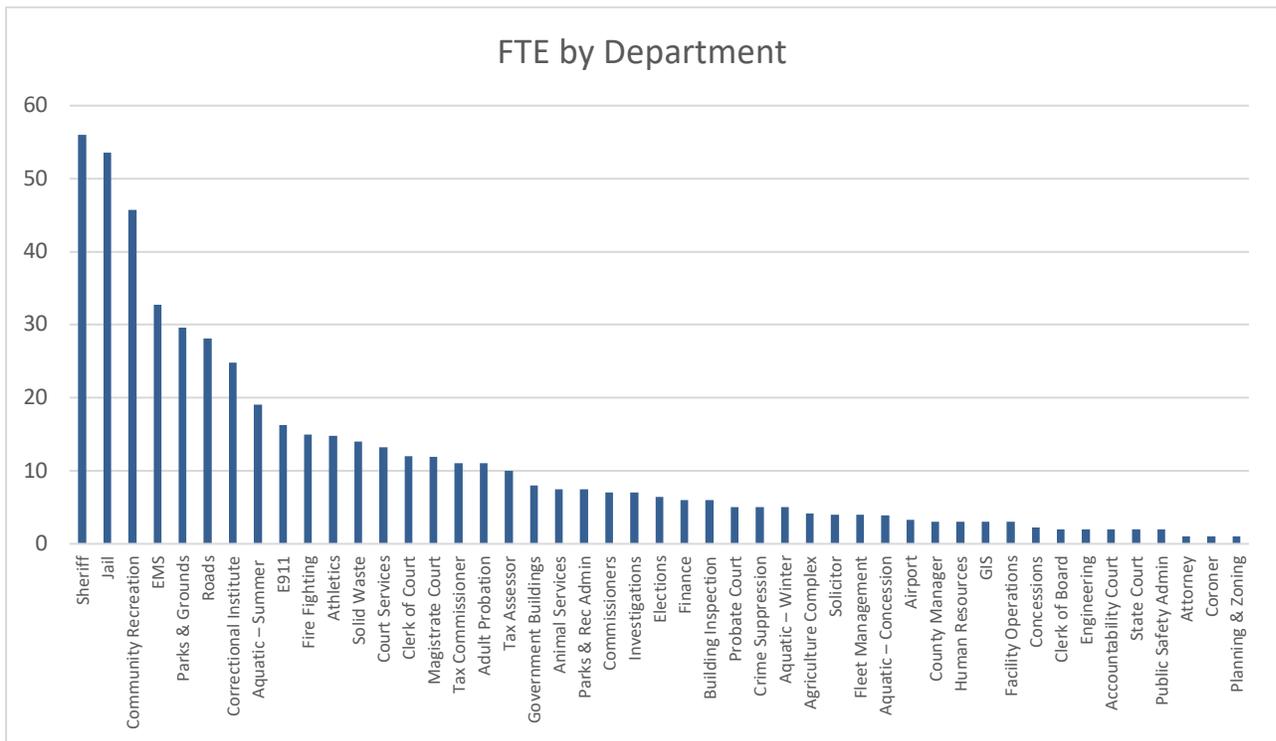

## Staffing Changes in FY 2021

Department FTE Decreases: Public Relations (-0.5); Crime Suppression (-4); Court Services (-3); Correctional Institute (-0.1); Fire Fighting (-0.3); EMS (-0.7); E911 (-0.1); Roads (-3.2); Solid Waste (-26.9); Athletics (-1); Aquatic-Summer (-8.6); Aquatic-Concessions (-4.1); Concessions (-0.2); Planning and Zoning (-1); Airport (-0.1)

Department FTE Increases: Sheriff (7); Agriculture Complex (0.7); Community Recreation (1); Building Inspection (1)

Above information includes part-time positions.

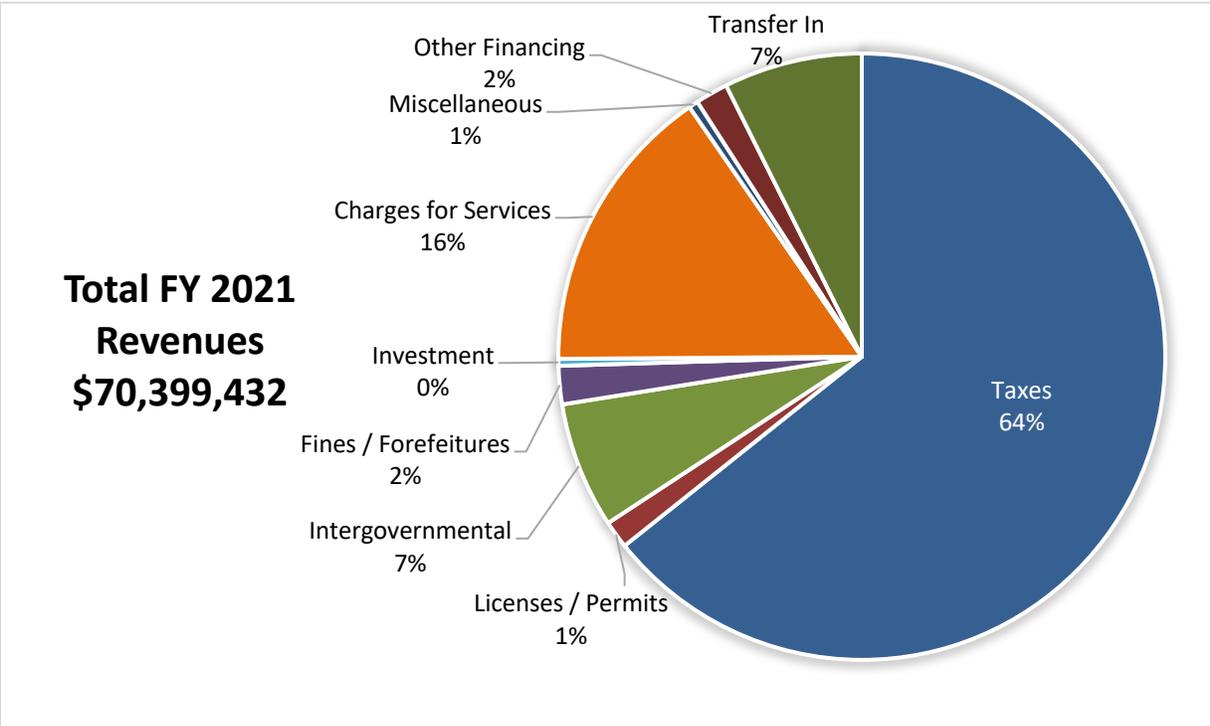

# Revenue Overview

## Introduction

The total budget for Bulloch County’s combined funds for Fiscal Year 2021 amounts to \$70,399,432 an increase of 5.3% over the \$66,874,775 projection for FY 2020. The increase incurred primarily because of the timing of capital projects that will continue into the next fiscal year.

## Summary of Total Revenue Sources

The chart below details revenue sources, across all funds, for the County. It illustrates the overall funding received by Bulloch County. Each component will be discussed further as part of the individual fund.

### Total Revenue Categories

- Charges for Services – consists of charges for services for recreation, ambulance, solid waste, etc.
- Taxes – consists mostly of property, insurance premium, occupation and alcohol taxes
- Licenses / Permits – consists mostly of building, alcoholic beverage and late tag penalty permits
- Intergovernmental – consists mostly of grants and funding from other government agencies
- Fines / forfeitures – consists mostly of fines from Superior, State, Magistrate, and Probate Court
- Investment Income – consists mostly of interest earned on investments of idle cash
- Miscellaneous – consists mostly of rent of county owned property/buildings
- Other Finance Sources – consists of transfers between County funds and debt proceeds

## Revenue Projection Methodology

Revenue estimates are developed under the direction of the County Manager's office using a variety of methods including trend analysis, regression analysis and econometric forecasting.

- *Trend analysis* involves data describing historical fiscal performance, and historical and projected econometric data modified for past, current and anticipated changes.
- *Regression analysis* is a statistical model that estimates the strength of a modeled relationship between multiple variables, controlling for a host of factors.
- *Econometric forecasting* estimates the impact of past, current, and anticipated economic performance on revenue sources.

Revenue estimates are based on judgment that incorporates information provided by various analytical methods; current and potential legislative and political impacts; and national, state and local issues, and conditions likely to affect local revenue sources.

The County recognizes that a considerable amount of uncertainty surrounds all economic forecasts, and that the actual performance of the economy could be somewhat better or worse than estimated. Minimal revenue growth related to disposable income seems to reflect a cautious mood in consumers, while property tax revenues are projected to remain flat due to the impact on local housing market.

Taking all the factors into account, the County's total General Fund revenues are projected to decrease by approximately 2.5% over the current fiscal year 2020 year-end estimate. These estimates are based on our current revenue experience and, as much as can be determined, what is likely to occur over the next twelve months.

## Fund Revenue Summaries

What follows are brief summaries of revenue changes for each fund in the budget. The funds to be discussed are the General Fund, Enterprise Fund, Special Revenue Funds, Capital Improvement Funds and Internal Service Funds.

### General Fund

The General Fund is the largest fund in the budget, accounting for 57.4% of total revenues. General Fund revenues will decrease in FY 2021 by 2.5% from \$41.44 million projected in FY 2020 to \$40.41 million in FY 2021. This decrease can be attributed to COVID-19's impact on charges for services.

### Enterprise Fund

The Enterprise Fund is the smallest of the funds in the budget, comprising 1.9% of total revenues. Enterprise Fund revenues will decrease in FY 2021 by 20.0% from \$1.67 million projected for FY 2020 to \$1.34 million in FY 2021. The large decrease is related to not opening SPLASH in the summer of 2020.

### Special Revenue Funds

The Special Revenue Funds are a combination of multiple funds, accounting for 7.8% of total revenues. The Special Revenue Fund includes the CI Phone, Jail Add-on, Drug Education, Accountability Court, Juvenile Services, E911, CI Inmate, Sheriff Phone, Jail Commissary, Confiscated Assets, Sheriff's Fingerprint, Multiple Grants, Airport, Street Lighting, Statesboro Fire, Rural Fire and Tourism funds. These funds are proposed to decrease 6.4% from \$5.88 million projected for FY 2020 to \$5.50 million in FY 2021. The decrease can be attributed to moving the majority of Grants from the Special Revenue Fund to the Capital Improvements Fund.

### Capital Improvement Funds

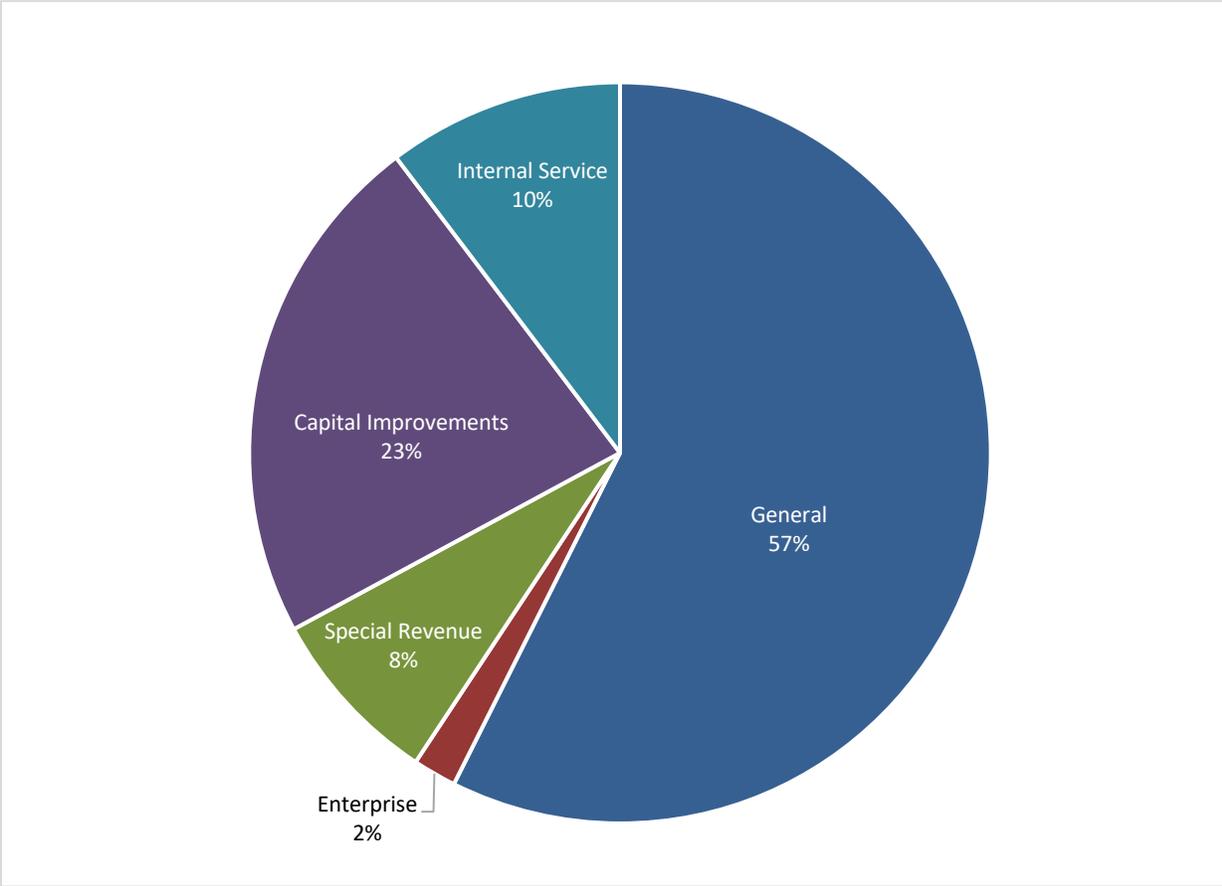

The Capital Improvement Funds comprise 22.6% of the total budget. Capital revenues are expected to increase 38.1% from \$11.51 million in FY 2020 to \$15.89 million in FY 2021. The majority of the increase is due to moving grants into from the Special Revenue Fund and stronger than expected sales tax collections.

### Internal Service Fund

The Internal Service Funds comprise 10.3% of the total budget. Internal Service revenues are expected to increase 13.8% from \$6.38 million in FY 2020 to \$7.26 million in FY 2021. Most of the increase is from the addition of a Radio Fund to account for a new multi-agency radio system.

# Portion of Total Revenue by Fund

The chart represents the percentage of total revenue that each fund type brings into to County. The General Fund and Capital Improvement Funds bring in most of the revenue.

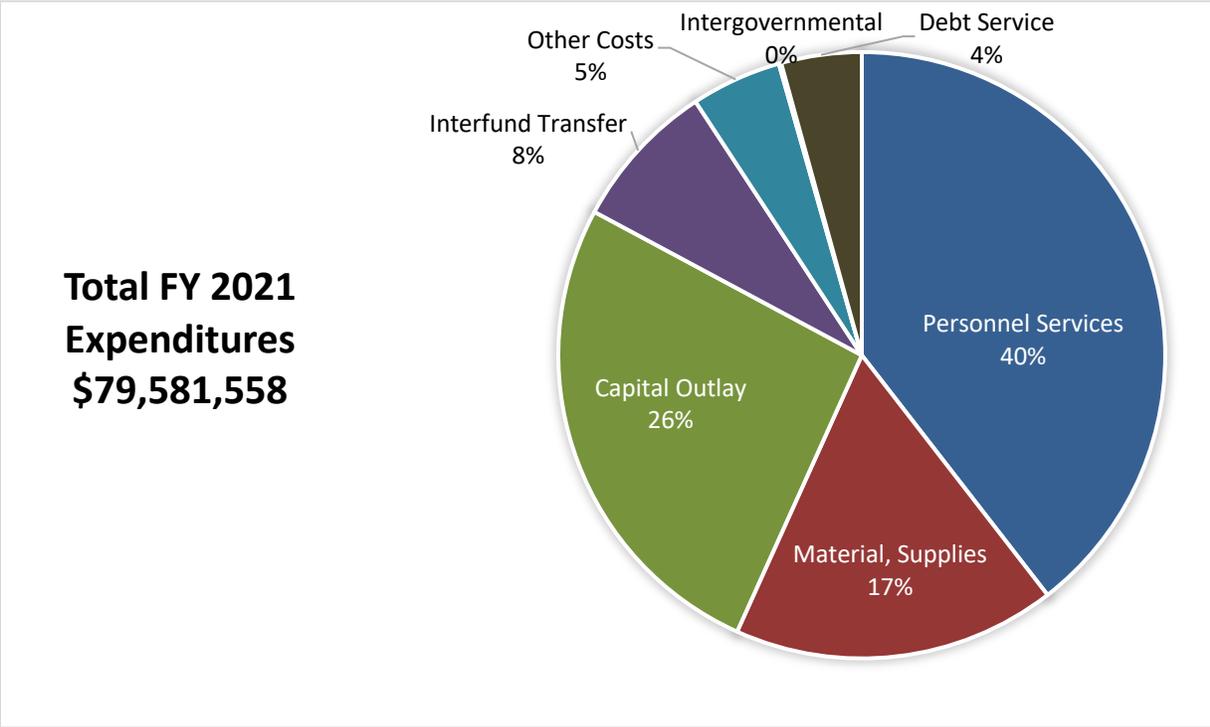

# Expenditure Overview

## Introduction

The total expenditures for Bulloch County’s combined funds for Fiscal Year 2021 amounts to \$79.58 million, an increase of 8.21% from the 2020 projection of \$72.42 million. The increase occurred primarily from the increase in Capital Improvement expenditures.

## Summary of Total Expenditure Categories

The following chart details the various expenditure categories for the County across all the funds. We will explore expenditures broken down by fund throughout the budget in the department sections. This chart gives an overall picture of the money the County spends. The intergovernmental expenditures category accounts for the distribution of sales tax funds that are collected by the County for the municipalities within the County.

## Expenditure Projection Methodology

Expenditures estimates are developed after revenue projections have been completed. Each department is asked to report its expenditure requests for the upcoming fiscal year. These include all financial needs for each department, except personnel costs, which are calculated by the Finance Department. The Budget Committee, which consist of the Finance Department, County Manager, Assistant County Manager and Capital Projects Manager, then meets with most department heads to verify if the requests fall within projected revenues, or if some items need to be eliminated for the fiscal year. Following these meetings, a draft budget is completed and distributed to the County Commission for its changes and approval.

The County recognizes that there will be uncertainty and changes throughout the fiscal year that may alter the projected expenditures. However, because the County forecasts and budgets conservatively, the budget should remain balanced, regardless of unexpected changes.

## Fund Expenditures Summaries

Summaries of expenditure changes for each fund are found in the budget below. The funds discussed are the General Fund, Enterprise Fund, Special Revenue Fund, Capital Improvement Fund, and Internal Service Fund.

### General Fund

The General Fund is the largest fund in the budget accounting for 52.3% of total expenditures. General Fund expenditures will decrease in FY 2021 by 0.8% from \$41.95 million projected for FY 2020 to \$41.61 million in FY 2021. The decrease is due service level adjustments related to COVID-19.

### Enterprise Fund

The Enterprise Fund is the smallest fund in the budget accounting for 2.4% of total County expenditures. Enterprise expenditures are expected to decrease by 16.5% from \$2.32 million projected in FY 2020 to \$1.94 million in FY 2021. The decrease is due to cancelling SPLASH operations during the summer of 2020.

### Special Revenue Funds

The Special Revenue Funds are a combination of multiple funds in the overall budget comprising 7.1% of the total County expenditures. The Special Revenue Fund includes the CI Phone, Jail Add-on, Drug Education, Accountability Court, Juvenile Services, E911, CI Inmate, Sheriff Phone, Jail Commissary, Confiscated Assets, Sheriff's Fingerprint, Multiple Grants, Airport, Street Lighting, Statesboro Fire, Rural Fire and Tourism funds. These funds are proposed to decrease 21.8% from \$7.26 million projected for FY 2020 to \$5.69 million in FY 2021. This decrease is primarily due to moving grant funding to the specific type of project (e.g., road resurfacing grants (LMIG)).

### Capital Improvement Funds

The cumulative Capital Improvements Funds are the second largest funds in the budget accounting for 28.5% of total expenditures. Capital expenditures are expected to increase by 62.2% from \$13.99 million projected in FY 2020 to \$22.70 million in FY 2021. The majority of the increase is due to expected completion of the jail renovation and public safety radio

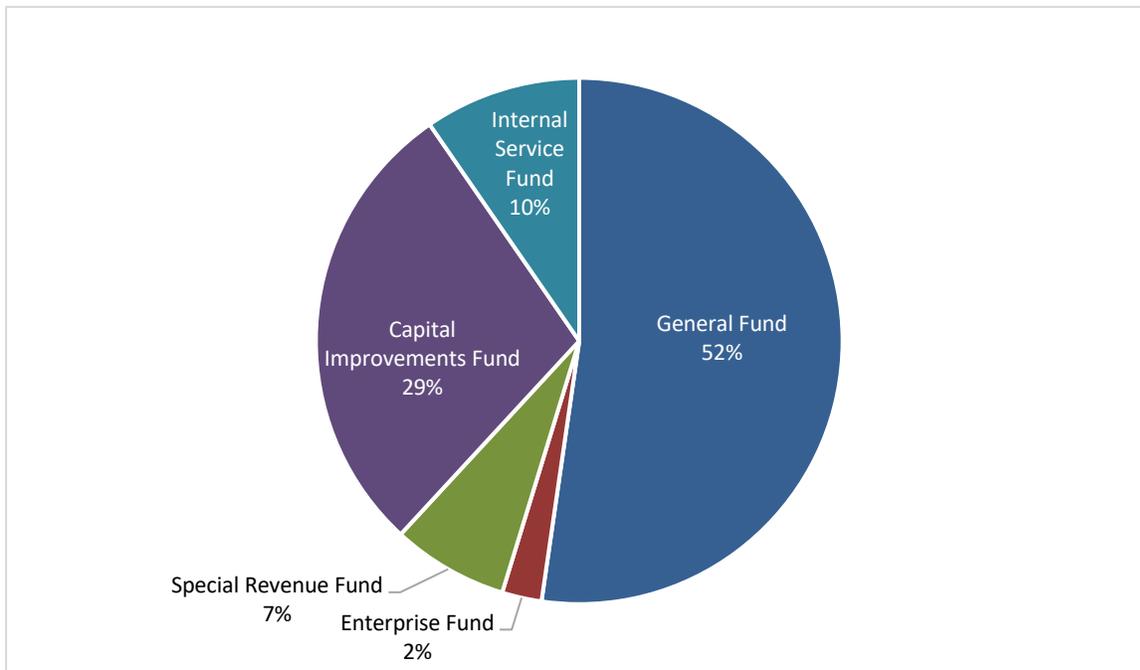

infrastructure. Additionally, the passage of the TSPLOST increased funding for road projects this fiscal year.

### Internal Service Funds

The cumulative Internal Service Funds are the third largest funds and account for 9.6% of total spending. The Internal Service Fund consists of the Employee Health, Kitchen and Radio funds. Internal Service expenditures are proposed to increase 11.0% from \$6.90 million projected for FY 2020 to \$7.65 million in FY 2021. The increase is primarily due to adding the Radio Fund to account for a multi-jurisdictional radio system.

### Portion of Total Expenditures by Fund

This chart represents the percentage of total expenditures for each fund. The General Fund and Capital Improvement Fund account for most of the County's expenditures.

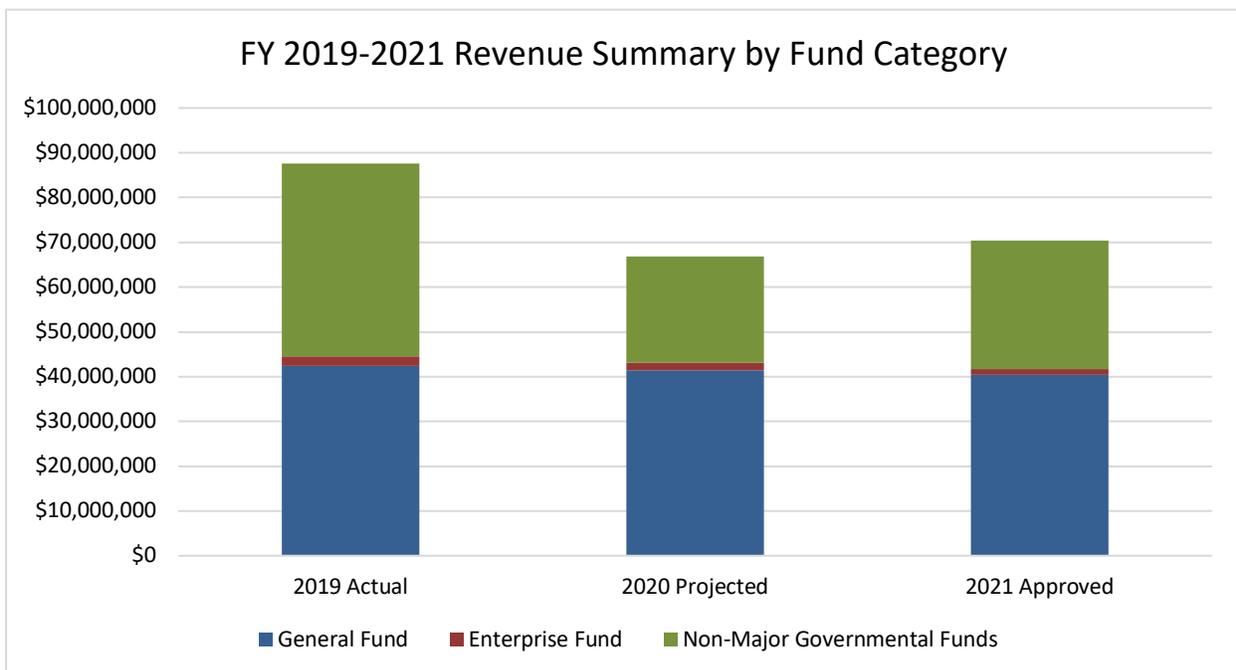

# Consolidated Financials

## Three-Year Consolidated Financials & Fund Financial Schedule

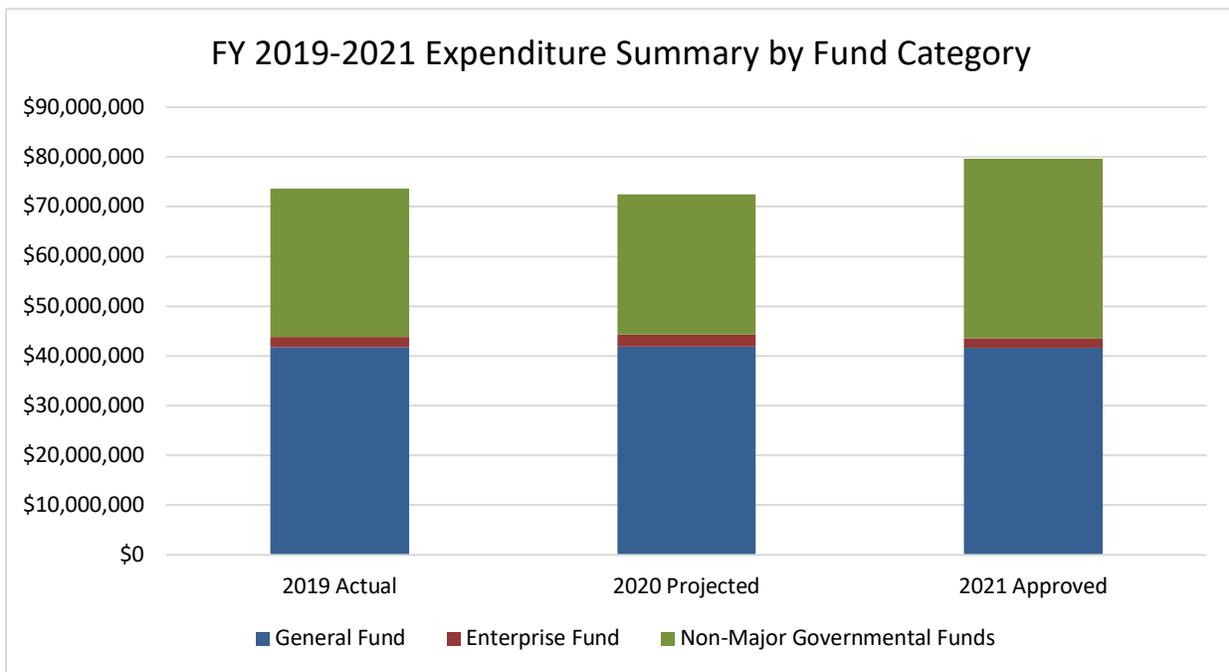

For all funds in FY 2021, we anticipate \$70,399,432 in total revenue, a decrease of 19.6% from FY 2019 of \$87,555,362. The table below summarizes total revenue from FY 2019 to FY 2021. The graph illustrates FY 2019 to FY 2021 revenues and includes other financing sources.

FY 2019-2021 Revenue Summary by Fund				
Fund	2019 Actual	2020 Projected	2021 Budget	2019-2021 Increase / Decrease
General	42,391,784	41,440,625	40,405,890	(1,985,894)
Enterprise	2,081,904	1,669,209	1,335,150	(746,754)
Special Revenue	8,768,193	5,878,425	5,502,597	(3,265,596)
Capital Improvements	27,627,177	11,504,908	15,892,750	(11,734,427)
Internal Service	6,686,304	6,381,609	7,263,046	576,741
<b>Total</b>	<b>87,555,362</b>	<b>66,874,775</b>	<b>70,399,432</b>	<b>(17,155,930)</b>

Based on expenditures from all funds (General, Enterprise, Capital Improvements, Internal Services, and Special Revenue), the County’s total adopted budget for FY 2021 is \$79,581,558, an increase of 8.1% from FY 2019 of \$73,629,761. The reason for the significant increase is the expected completion of the sheriff/jail renovation and public safety radio infrastructure. Additionally, the passage of the TSPLOST increased funding for road projects this fiscal year. The table below summarizes total expenditures from FY 2019 to FY 2021. The graph illustrates FY 2019 to FY 2021 expenditures.

FY 2019-2021 Expenditure Summary by Fund				
Fund	2019 Actual	2020 Projected	2021 Budget	2019-2021 Increase / Decrease
General	41,809,751	41,948,715	41,613,760	(195,991)

# Fund Balance

## Fund Balance Overview

An important part of the financial well-being of a county is having a sufficient fund balance. In this budget document, a fund balance is defined as the excess of an entity’s revenues over its expenditures. Bulloch County accumulates fund balances in its various funds for the following reasons: (1) to avoid short-term debt that might be needed to provide working capital; (2) to meet unexpected expenditures as the result of an emergency; (3) to secure the County’s debt and its bond rating; (4) to accumulate funding for planned capital expenditures including the replacement of capital assets, and (5) to meet reserve requirements for liabilities already incurred, but not yet paid. All excess funds are invested consistent with the State law. The resulting interest income is used as an additional revenue source in each fund.

## Projected Changes in Fund Balance from Fiscal Year 2019 to 2020

The impact of COVID-19 and Public Safety personnel cost overruns will result in a 10.7% decrease in General Fund – Fund Balance. The Enterprise Fund balance will decrease approximately 25.3% due to payment for the Aquatic Center expansion and cancellation of the summer 2020 season of Splash. Capital Improvements Fund Balance will decrease by 32.6% due to the completion of large projects in FY 2020. Internal Service Fund Balance is expected to decrease by 20.5% as a result of growth in the Employee Health Insurance costs.

## Projected Changes in Fund Balance from Fiscal Year 2020 to 2021

In Fiscal Year 2021, there are expected changes in fund balance as seen at the bottom of the table on page 90. Capital Funds will increase largely due to receipt of TSPLOST funds and debt issuance proceeds that will not be fully spent until FY 2021. The Enterprise Fund shows a decrease due to payment for the Aquatic Center expansion and cancellation of the summer 2020 season of Splash. Special Revenue Funds will decrease because of numerous planned capital outlays.

Fund Balance				
Fund	Ending Fund Balance (7/1/19)	Ending Fund Balance (6/30/20)	Increase / (Decrease)	Percent Change
General	11,282,564	10,074,694	(1,207,870)	(10.7%)

# General Fund Overview

## General Fund Description and Major Changes

### Description

The General Fund is the County's primary operating fund. It accounts for all financial resources, except those required to be accounted for in other funds and is commonly considered to represent the ordinary operations of a County. Therefore, the General Fund budget is usually the object of primary interest to citizens because it envelopes the core aspect of the County.

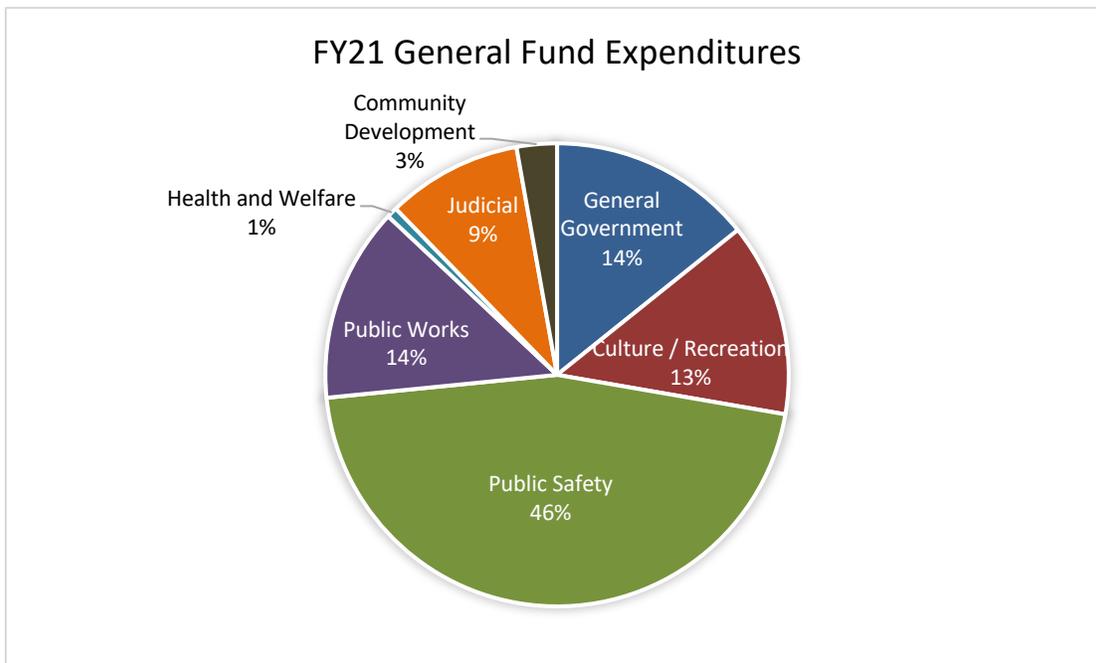

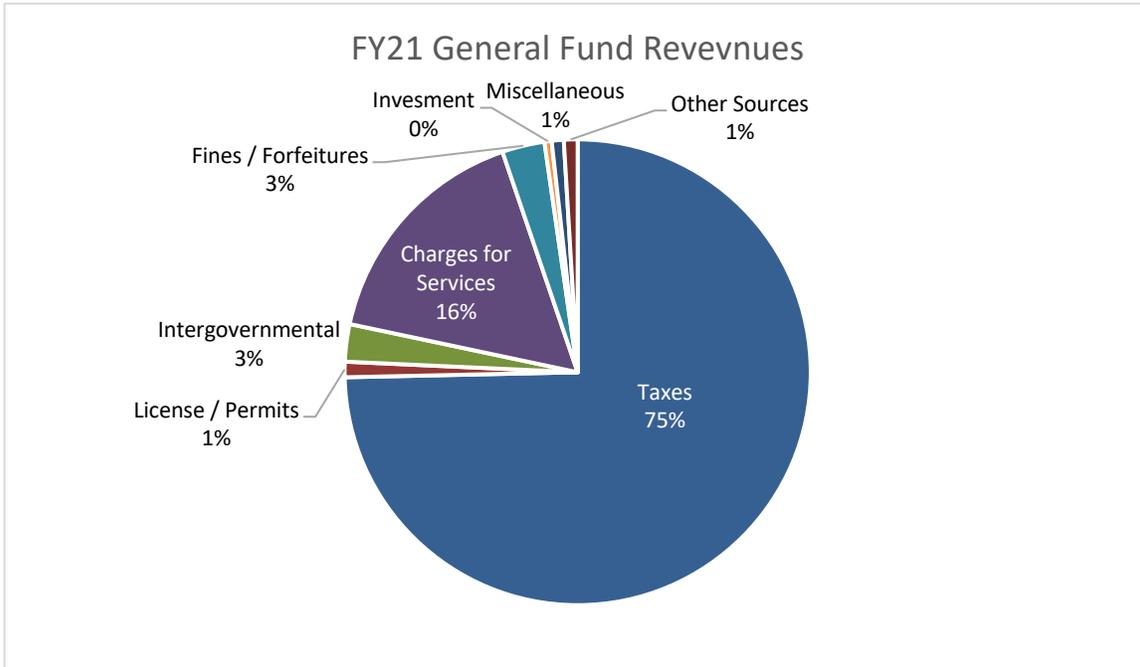

### Major Changes

There have been few structural changes through the years in the General Fund. In FY 2020, the Mental Health Court was renamed the Accountability Court to reflect a change in funding and function and moved to a Special Revenue Fund. The Animal Control and Animal Shelter Departments were combined into Animal Services in FY 2021.

# General Fund Revenues

---

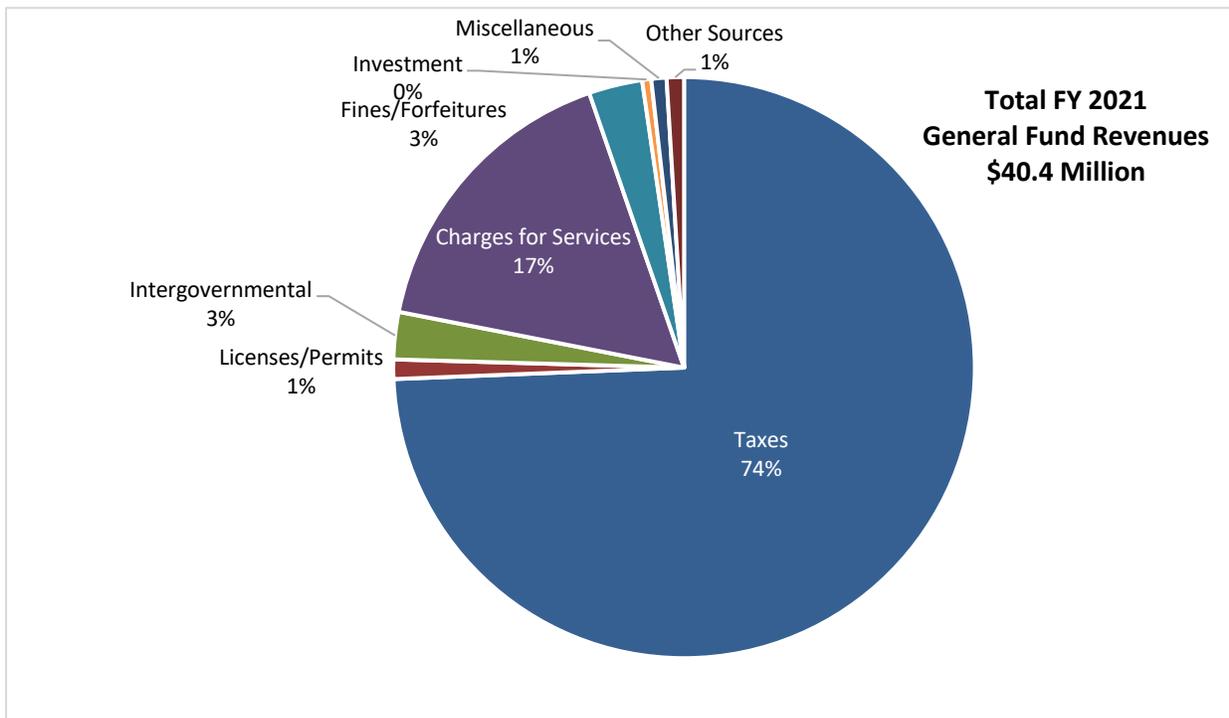

## General Fund Revenue Overview

The County has a variety of revenue sources for the General Fund. These revenues may be considered either general purpose or departmental revenues. General purpose revenues are sources of revenues that are not generated by a particular service and include sources such as property taxes, franchise taxes, occupation taxes, insurance premium tax and others.

Departmental revenues are typically related to the services and programs provided by a department. Generally, increased departmental revenues will be related to increased expenditures, while decreased revenues will likely result in decreased expenditures. This close interdependence needs to be reviewed in the context of the department's overall budget and will be monitored periodically to ensure the department is operating within budget constraints.

General Fund revenues are not received in equal monthly distributions or payments. Many revenues are cyclical throughout the fiscal year while others are received quarterly or annually. The varying nature of revenue sources result in an uneven cash flow throughout the fiscal year. For example, the County's lowest cash balance generally occurs in September, before property taxes begin trickling in during the fall to replenish the cash balance. Where appropriate, this fluctuating intake of revenues has been taken into consideration when developing estimates for each revenue category.

## General Fund Revenues by Source FY 2021

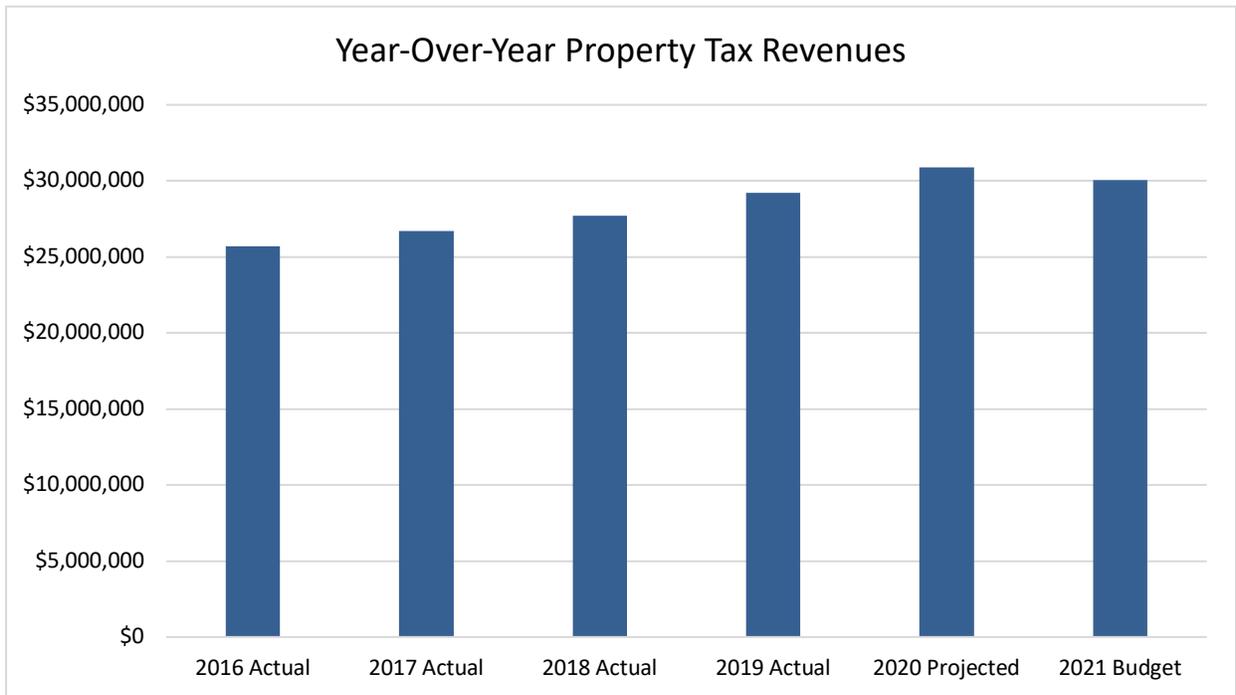

### General Fund Revenue Categories

- Charges for Services – consist of charges for services for recreation, ambulance, solid waste, etc.
- Taxes – consist mostly of property, insurance premium, occupation and alcohol excise taxes
- Licenses / Permits – consist mostly of building, alcoholic beverage and late tag penalty permits
- Intergovernmental – consists mostly of grants and funding from other government agencies
- Fines / forfeitures – consist mostly of fines from the Superior, State, Magistrate and Probate Courts
- Investment Income – consists mostly of interest earnings on the Old Hospital corpus
- Contributions – consist mostly of recreation contributions
- Miscellaneous – consists mostly of rental of county owned property/buildings
- Other Finance Sources – consist mostly of transfers from other County funds

# General Fund Revenue Sources

## Property Tax

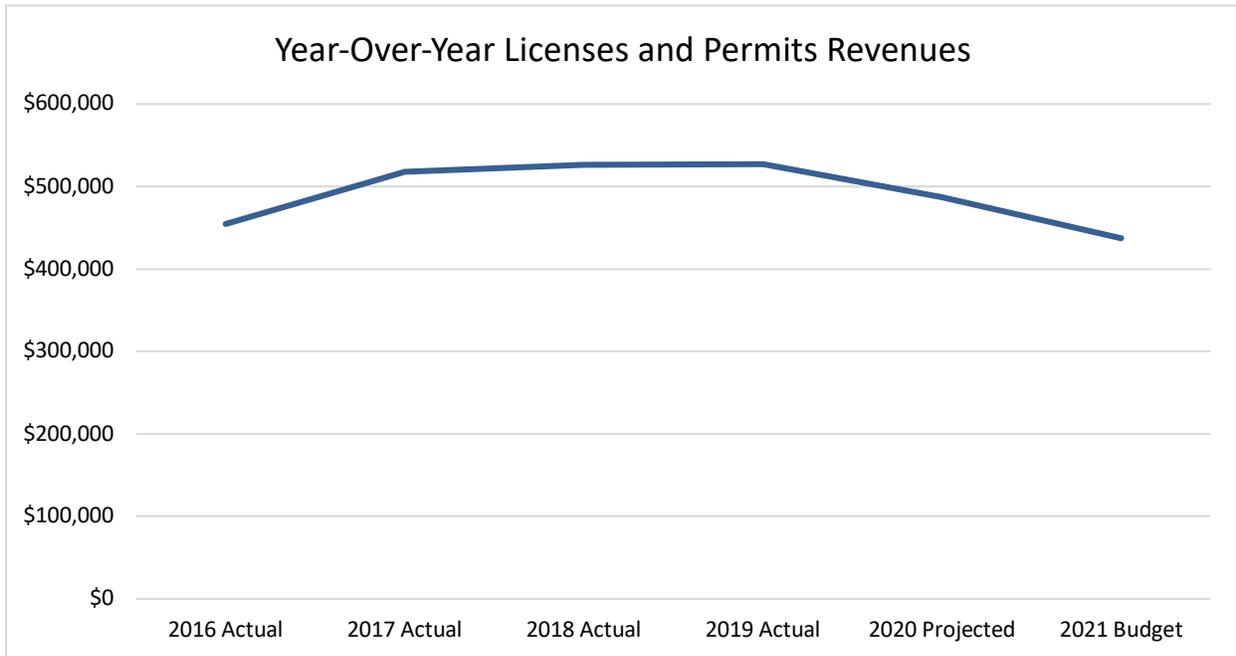

Property Tax is Bulloch County's largest source of tax revenue for the General Fund, and it is collected by the Tax Commissioner. This tax is an ad-valorem (value-based) tax imposed on real property and tangible personal property which Bulloch County property owners pay at a rate of 40% of the assessed value of the property. The County's property tax rate is currently 11.833 mills, the same as last year.

\* Includes Current Year Real Property Taxes

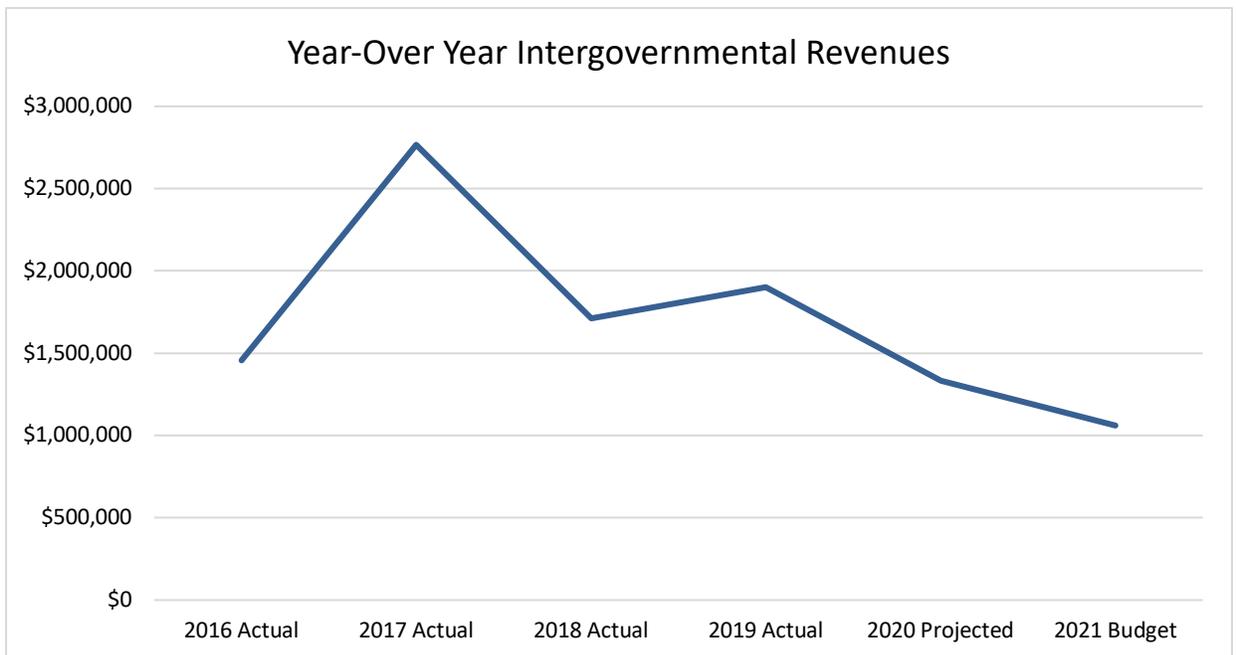

### Licenses and Permits

Licenses and permits continue to trend downward at a modest rate. The primary source of Licenses and Permits revenue are Building Inspection, Alcohol Beverage, and Late Tag Penalties.

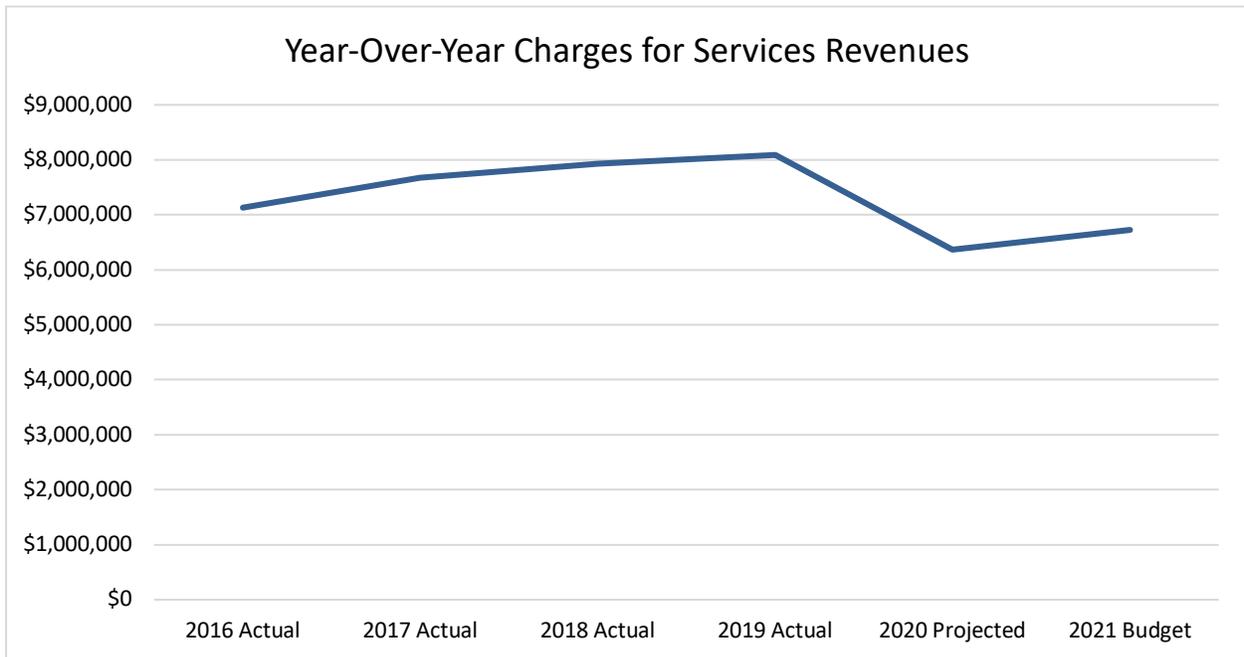

### Intergovernmental Revenues

Intergovernmental Revenues have been fairly stable, except for 2017. In FY 2017, the County received reimbursement (\$1.16 million) from FEMA for costs incurred for hurricane cleanup. The decrease since 2019 is related to eliminating housing federal prisoners at the jail.

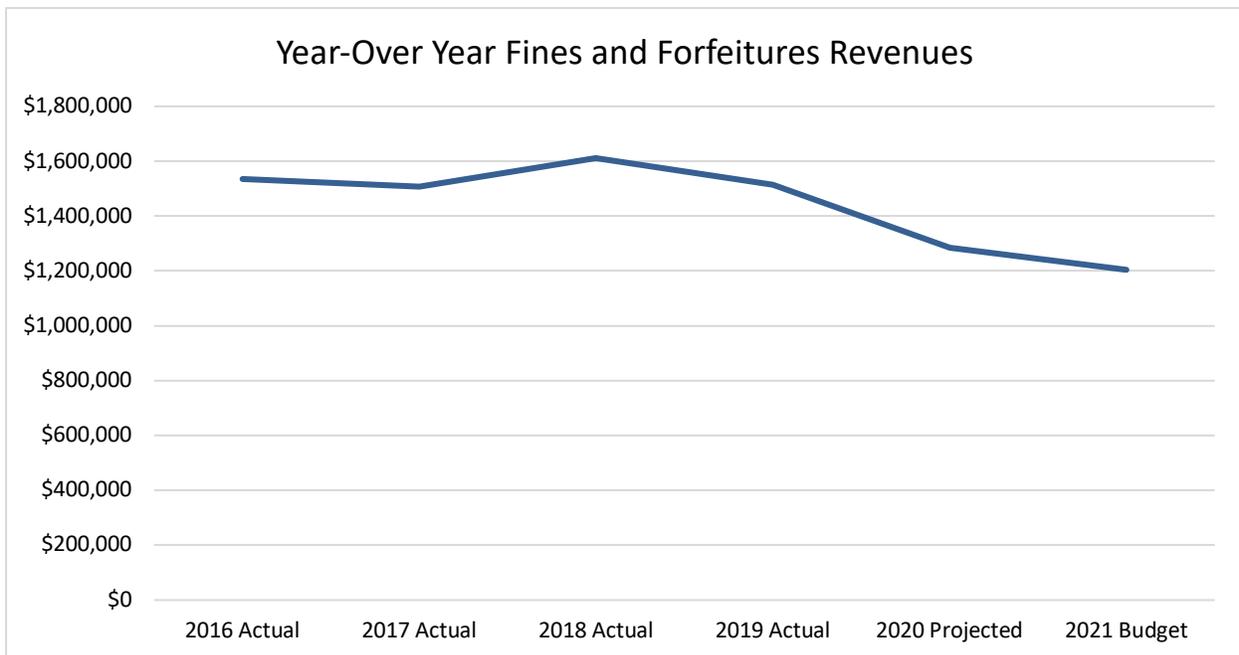

### Charges for Services

Charges for Services may experience a significant decrease due to the impact of COVID-19. The largest source of Charges for Services is Ambulance Fees, Prisoner Housing, Recreation Fees and Probation Fees.

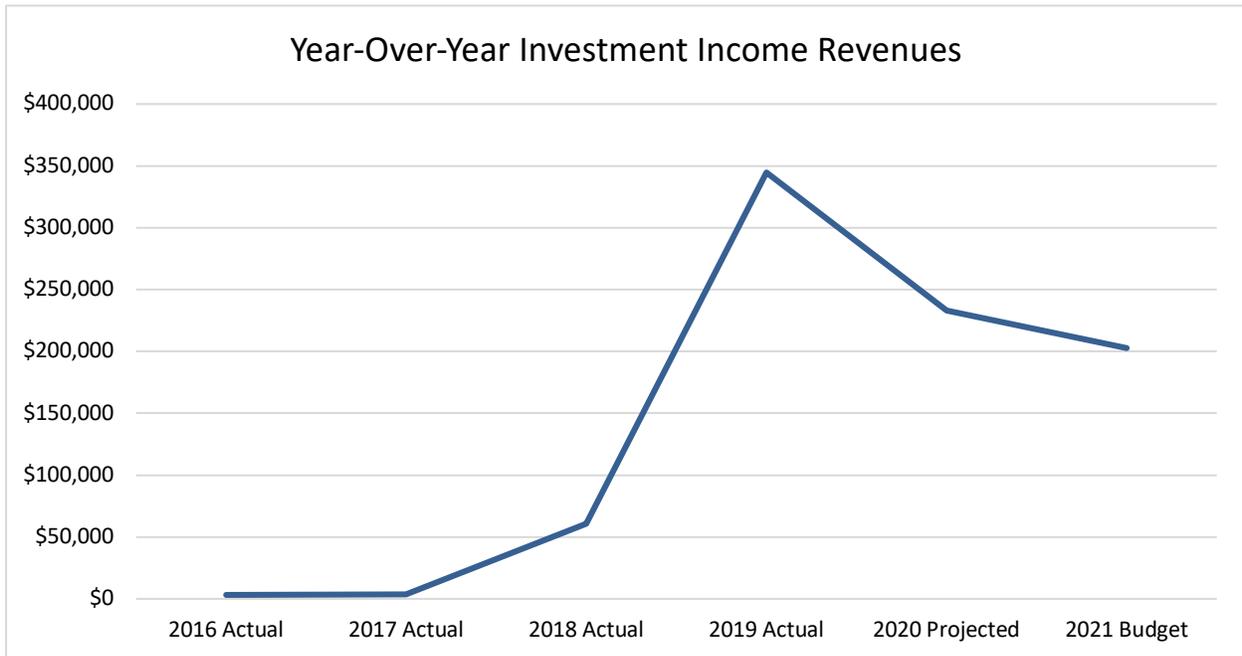

### Fines and Forfeitures

Fines and Forfeitures are trending downward primarily due to lower Superior Court fines. State and Magistrate Court fines account for most of the fines.

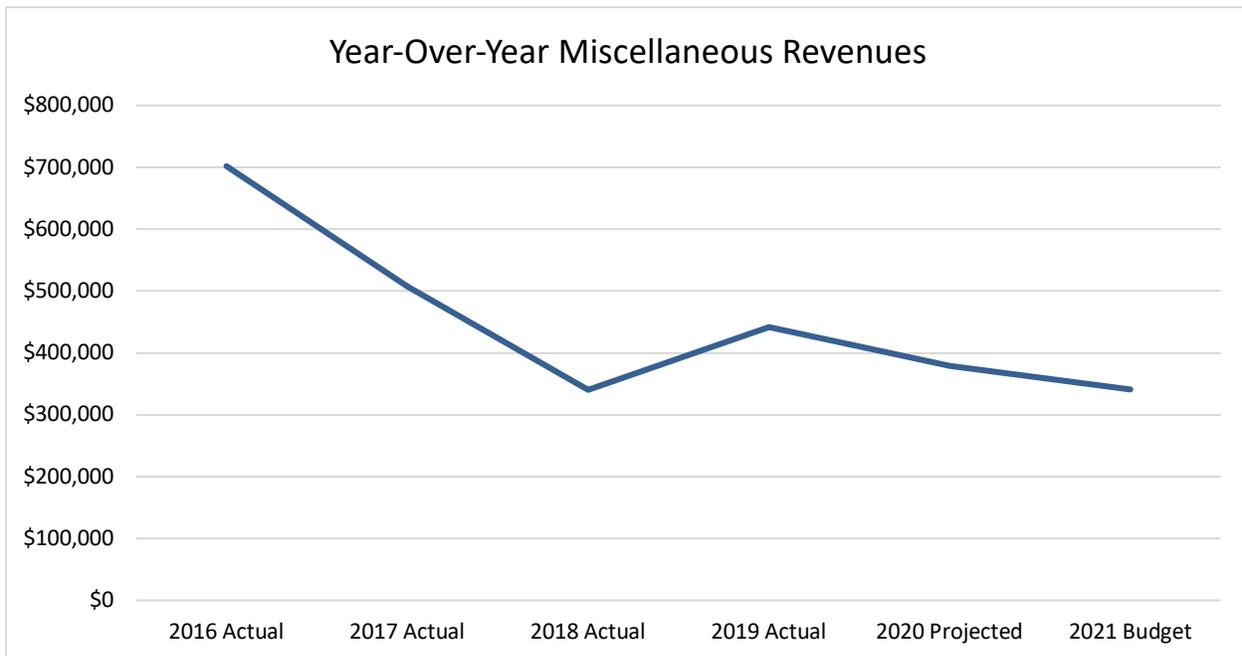

### Investment Income

Investment Income continues to trend downward due to decreasing interest rates. Investment earnings on idle cash is responsible for the recent increase.

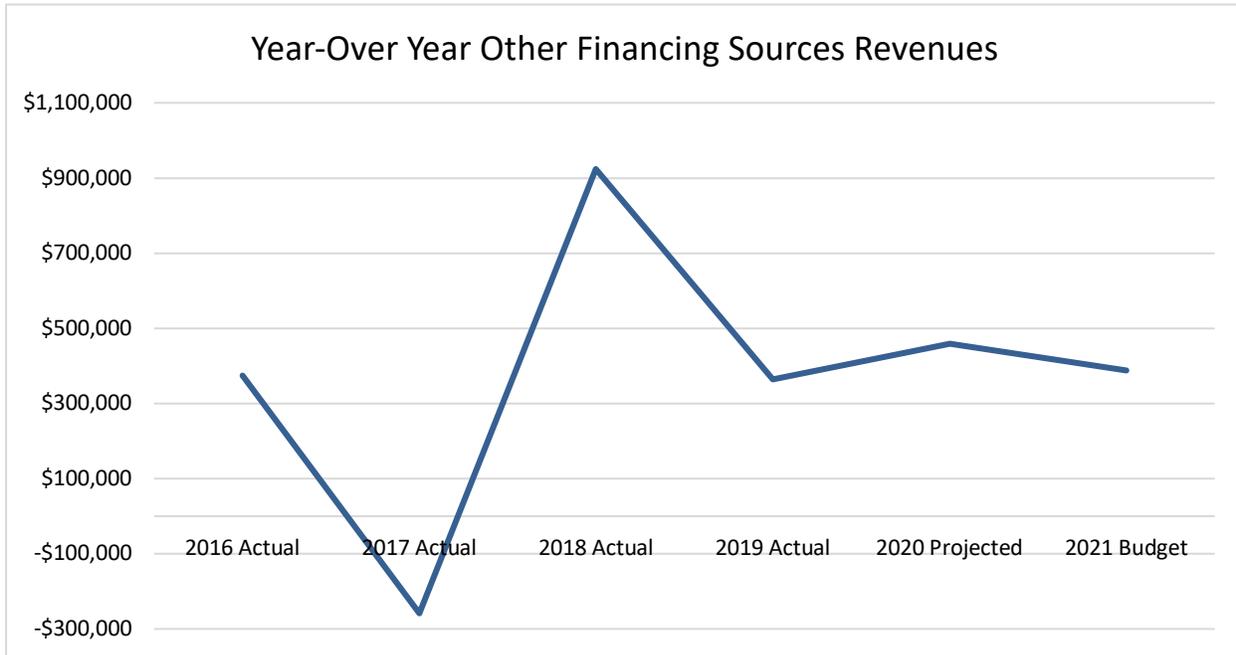

### Miscellaneous Revenue

Miscellaneous Revenue is fairly volatile. The large increases in 2016 was related to Reimbursement for Damaged Property and Other Revenue.

Other Financing Sources

Other Financing Sources are volatile. The major source of revenues are transfers into and out of the General Fund. The largest decrease in FY 2017 related to reimbursement of FEMA hurricane funds that were transferred into a Special Revenue Fund.

# General Fund Departments

---

The following section will include a thorough look into the various departments that are financially grouped within the General Fund. This means that the revenues for each of these departments are pooled into the General Fund, and the expenditures from each of the following departments will be funded by the General Fund. Unlike Special Revenue Funds, the revenues from a department do not necessarily equal the expenditures for the department. This allows the County to maintain departments that may be costly to operate.

This section will also include department accomplishments, organizational and personnel descriptions, and a detailed expenditure analysis. For many departments, performance or workload measurements are based on County objectives defined in the Budget Message.

# General Government

# County Commission

---

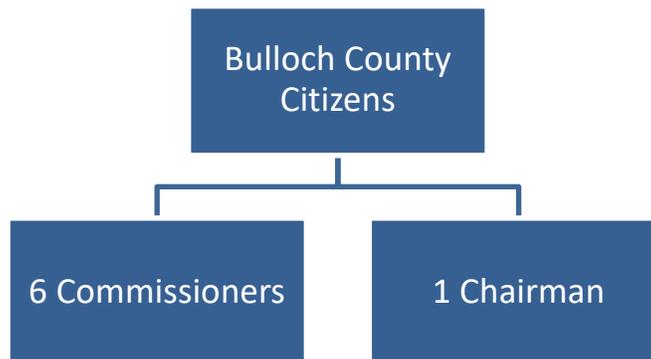

## Department Description

The Board of Commissioners serves as the governing authority for Bulloch County government by setting public policy, enacting local laws and regulations, administering county property, setting the annual tax rate and exercising general financial management. The Commissioners partner with citizens to make Bulloch County a community of pride and choice for people to live, work and recreate. The Commission consists of a Chairman elected county-wide and six-members (four from District 2 and two from District 1). In FY 2021, the Board's major initiatives will be to strengthen its relationships with the state and federal government, focus on economic development, and stewardship of the County's finances.

# County Manager

---

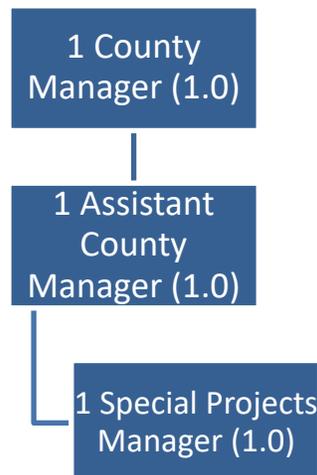

## Department Description

The County Manager is given the executive role to direct the daily operations of county departments under the direction of the Board of Commissioners. The County Manager and Assistant County Manager advise and confer with other county officers by administering and implementing policies, regulations and the annual budget and work plan to achieve the Board's vision of the community and on improving their operations. The County Manager and his immediate staff carry out and coordinate Board policies.

# Finance

---

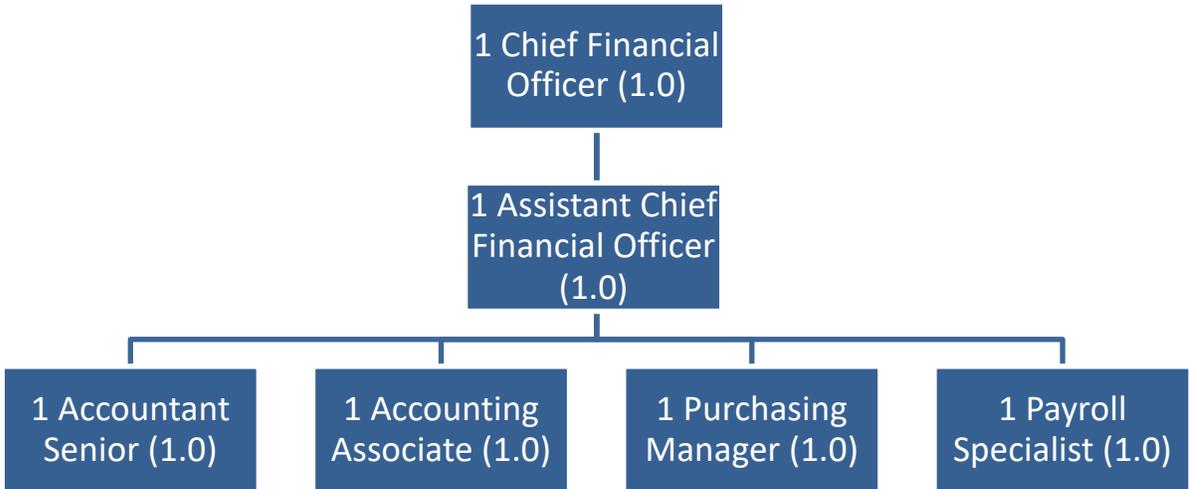

**Department Description**

To establish, conduct and maintain the financial operations and reporting system of Bulloch County in accordance with all applicable laws and standards and Generally Accepted Accounting Principles as prescribed by legal and regulatory oversight bodies; to ensure the effective and economical use of public resources through proper budgeting and prudent cash management, procurement and debt issuance; and to generate and distribute timely, accurate and meaningful financial information to management. In FY17, a new financial software system was purchased to streamline processing invoices and increase efficiency.

# Human Resources

---

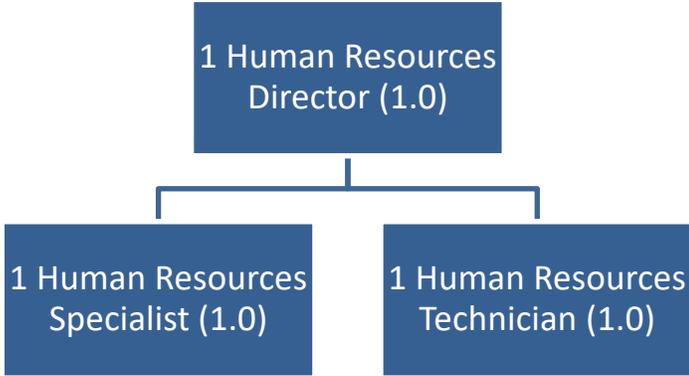

**Department Description**

To create and sustain an empowered workforce through proper administration of county personnel policies in the areas of recruitment and selection, classification and compensation, benefits management and employee training and development while observing all federal, state and local statutory duties. The focus in FY 2021 is the use of technology to: improve business processes, strengthen customer service to existing and potential employees, and reduce inefficiency and duplication of effort. Additional focus will be placed on improving employee engagement, involvement, and communications.

Performance Measurement	2017	2018	2019	2020	2021
# of Employees Hired (FT and PT)	531	577	538	408	550
# of Employee Separations Processed	436	337	476	517	500
Turnover Rate (Full-time employees)	8.8%	7.7%	14.9%	10.5%	10.0%
Employees with 20+ Years of Service	53	57	60	61	65

# Tax Assessor

---

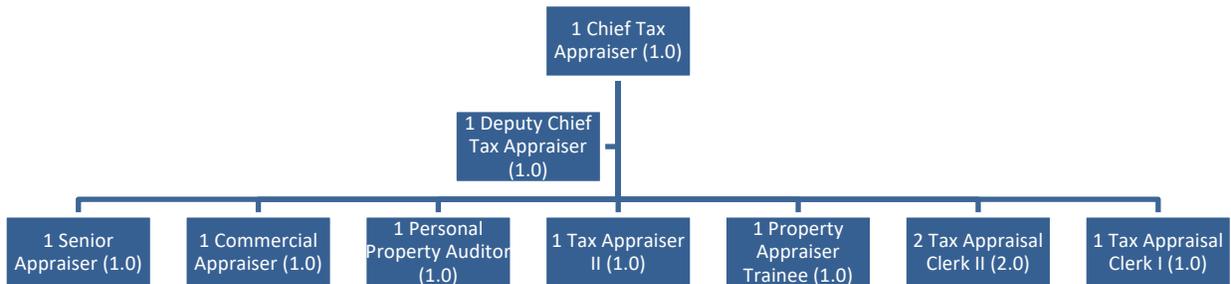

## Department Description

To annually produce a value digest (inventory) of all taxable property located within Bulloch County in a fair, efficient and professional manner to be furnished to the units of local governments. The Tax Assessor works closely with the Tax Commissioner to determine annual needs and projections for tax administration. This office, like the Tax Commissioner’s office, is also highly subject to state mandates in its operations. The state has passed key property tax reform bills in recent years that have adversely affected the department's ability to maintain uniformity in taxation. Despite these trends, the Property Tax remains the largest source of revenue for County Government. Automation utilized and spurred by GIS investment has increased office efficiency and reduced customer traffic and congestion, resulting in improved customer service. A significant annual function is to complete the tax digest for submission to Georgia Department of Revenue by the first of August.

Performance Measurement	2017	2018	2019	2020	2021
Completion of Statutory Compliant Digest	Yes	Yes	Yes	Yes	Yes

# Risk Management

## Department Description

To provide funding for risk management activities through payment of insurance premiums for general property and liability, workers’ compensation, fidelity bonds and other insurance products to protect the County against extreme financial losses. Risk management strives to serve County government through the reduction of liability risks, as well as ensure a safe working environment for County employees. Risk Management accomplishes this objective through the provision of risk assessment, safety awareness and internal analysis services. Risk management responsibilities for Bulloch County are shared among key appointed officials but works in conjunction with the Human Resources Director and a County employee safety committee.

Performance Measurement	2017	2018	2019	2020	2021
# of Employee Injuries	39	56	60	55	50
Average Cost (incurred) per Employee Injury	\$889	\$3,707	\$6,712	\$5,000	\$5,000
# of Property and Liability Claims	41	29	40	48	48

# Government Buildings

---

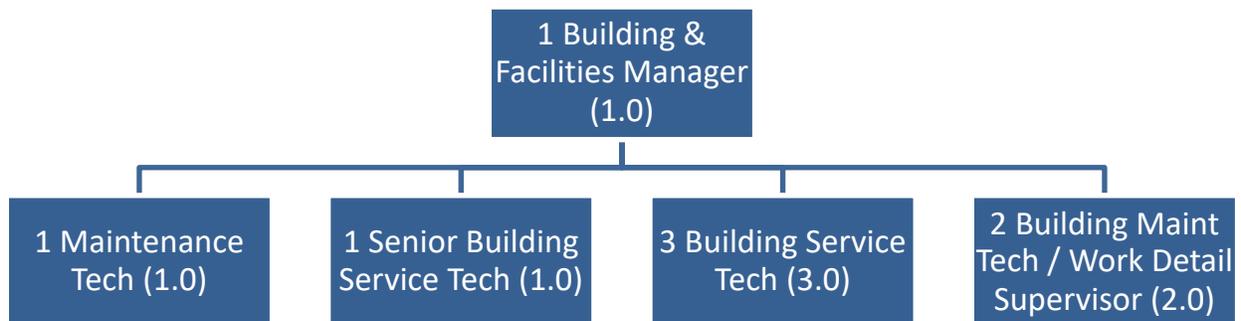

## Department Description

To maintain the appearance, structural integrity, safety and functionality of all county-owned buildings in a cost-effective manner. The personnel supported in this department are mostly responsible for light maintenance, custodial and janitorial duties for county administrative buildings and courtrooms. Heavy maintenance is reliant on contractor labor and skilled inmate laborers from the Correctional Institute. With several new administrative buildings proposed over the next several years, consideration will be given to either increasing staff levels or alternatively providing technical resources to execute job responsibilities more efficiently.

Performance Measurement	2017	2018	2019	2020	2021

# Judicial

# Superior Court

## Department Description

To provide a judicial forum for civil and criminal proceedings for the adult and juvenile citizens of Bulloch County as prescribed by the State Constitution and for a functional judiciary as prescribed by law. Funding is provided to the Circuit by a population-based formula to support salaries, operating expenses and capital outlays. The population growth of the judicial circuit, fueled largely by Bulloch and Effingham Counties, has increased caseloads and subsequent hearings. This phenomenon is likely to continue. A juvenile court was started in FY 2020.

# Clerk of Court

---

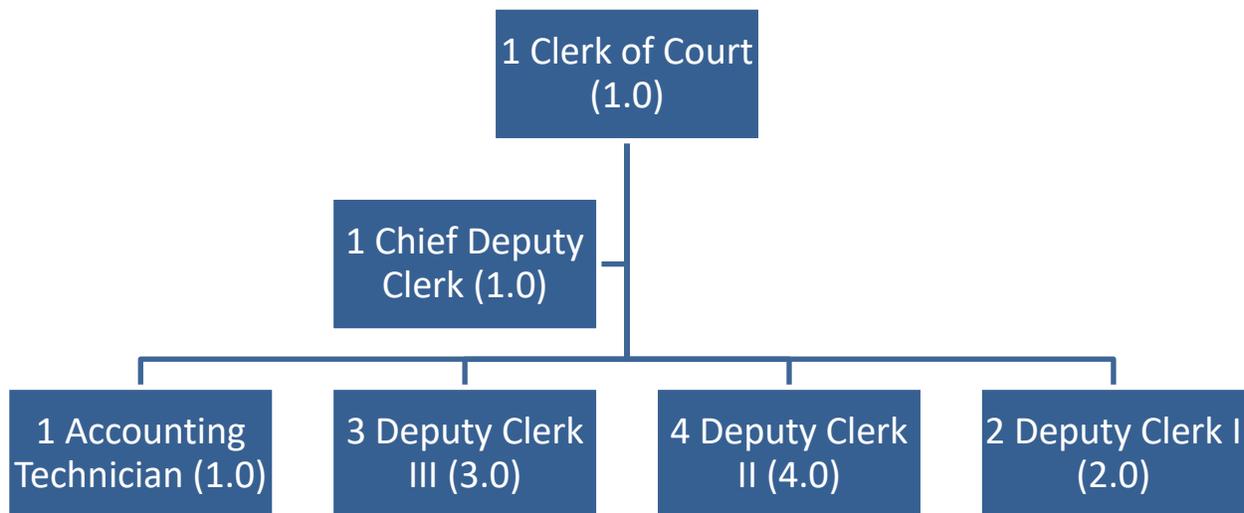

## Department Description

To file and record all real estate and personal property records for the county, while aiding the public in records searches; file and record all proceedings for civil and criminal issues for the Superior, State, and Juvenile Courts; to issue notary public commissions and passports, and to record military discharges. This budget division also supports incidental court services for jury management. This budget function is likely to require increasing automation and technology expenditures in the future in order to minimize space for records storage. This service is further affected by increasing caseloads and hearings for the courts that it serves.

# District Attorney

## Department Description

To provide fair, efficient and expeditious investigation and prosecution of civil and criminal proceedings under state jurisdiction; to assemble and inform grand juries of matters pending investigation to determine indictments; to provide child support enforcement to families and children; prosecute welfare fraud to provide assistance and representation to victims of crimes, and to work with law enforcement, elected officials, citizens and the judiciary of the circuit to ensure public respect and confidence in the criminal justice system. Funding is provided to the Circuit by a population-based formula to support salaries, expenses and capital outlay.

# Indigent Defense

## Department Description

To provide funding through a population-based formula to the Ogeechee Circuit Public Defender's Office pursuant to the provisions of the Georgia Indigent Defense Act of 2003 for the provision of criminal defense for indigent persons accused of violating local or state laws. Funding is provided for staffing and expenses, for other outside counsel to indigent clients where a conflict of interest may exist, and an administrative fee of 10% to the state. Though this service has been well managed at the circuit level, state funding issues continue to place pressure on local governments to contribute more to the service.

# Jail

## Department Description

To provide and maintain a county jail in which to house prisoners who have pending court hearings or are being held after sentencing. This budget division faces many challenges. The long-term challenge will be estimating future capacity at the presently expanded facility. In FY 2009, an expansion of the present jail facility built in 1989 increased capacity from 120 to 381 beds, with a current capacity count of 340. There are increasing cost impacts related to inmate medical care. Jail activities include the transport of prisoners, substance abusers and mental patients to and from medical care facilities. Such transport is mandated by the criminal justice system, as is the cost of inmate medical care. While Bulloch County insures itself from catastrophic risk and provides lower level nursing care, medical and dental care for inmates having higher level conditions remain the financial responsibility of the county. The Jail works diligently to minimize medical costs by ensuring that eligible prisoners utilize Medicaid or other insurance benefits. However, most of the inmate population does not have any insurance benefits. Finally, there is the issue of housing state prisoners. The State of Georgia, by mandate is supposed to provide reimbursements for state inmates housed in county jails, which is less than the total cost.

Performance Measurement	2017	2018	2019	2020	2021
Average Daily Jail Population	391	400	420	380	400
Average Bookings Per Day	12	11	13	11	12
Total Inmates Booked into Jail	4,434	4,149	4,920	4,596	4,600
Lowest/Highest Inmate Count	350/433	356/454	385/497	286/479	280/485

## Jail Organization Chart

# Court Services

---

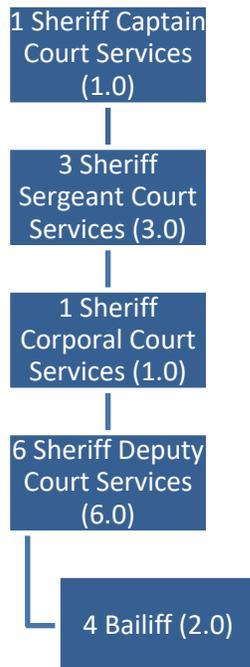

## Department Description

To protect the users of Bulloch County Court facilities including court officials and county personnel doing business with the county judiciary and citizens. The Sheriff, in consultation with the County Judiciary, is responsible for Court Security by law. Currently, this provides a system of adequate coverage for the Courthouse, Judicial Annex and Magistrate Court buildings.

Performance Measurement	2017	2018	2019	2020	2021
Civil Papers Served or Attempted	798	1,779	1,895	1,904	1,990

# Correctional Institute

## Department Description

To provide safe and secure prisoner housing, primarily for state inmates under contract with the Georgia Department of Corrections, and for a limited number of county inmates; to provide an inmate labor force working daily for county departments including public works, solid waste, recreation and facilities management, and for other agencies upon request. Since 1946, this facility has been used as a work camp primarily for state prisoners (160 of the 170 prisoners housed are state prisoners). Therefore, this budget division principally reflects the costs for basic housing, in-house supervision and facility care. However, the camp does place additional focus on anti-recidivist behavior. The State of Georgia provides reimbursements of \$22 per day for state inmates housed in county jails, which provides less than two-thirds of the cost.

Performance Measurement	2017	2018	2019	2020	2021
Average Daily Census	157	160	140	149	160
Average # of Daily Outside Work Details (Inmates)	53	53	56	57	72

# Adult Probation

---

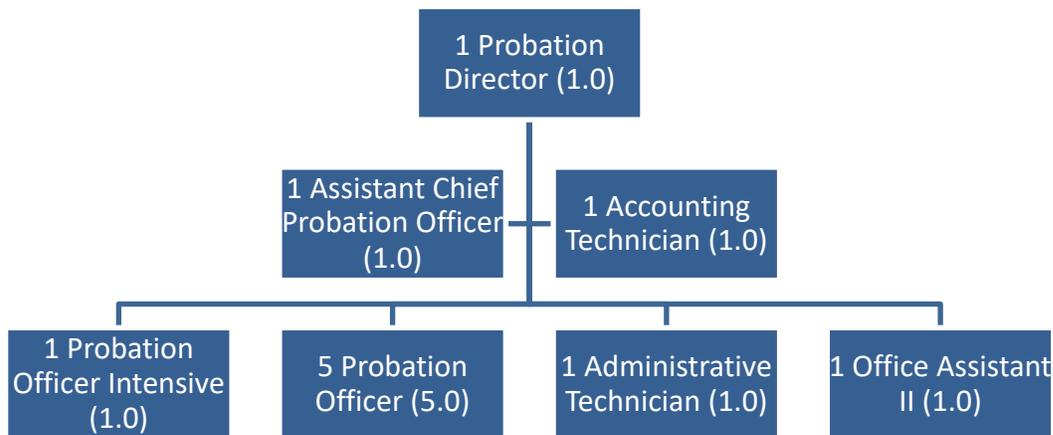

## Department Description

The Probation Department enforces probation sentencing and conditions for misdemeanor offenders. The Department serves State and Superior Court of Bulloch County, and the Town of Portal. Services provided includes; collecting fines, fees, and restitution, detour further criminal activity, and to assure restitution is distributed to the victims. The Department collaborates with other criminal justice agencies in protecting the public. Officers assist in the rehabilitation of criminal offender through individual assessment and professional guidance. The court utilizes probation to relieve overcrowded jails and shift the burden from incarceration to supervision.

# Emergency Medical Service (EMS)

**Department Description**

To provide advanced life support response from dispatch to arrival in 10 minutes or less providing pre-hospital treatment; to provide both emergency and non-emergency patient transport to medical facilities both locally and out-of-town; to maintain medical and billing records; to provide on-site presence at heavily attended community events and assemblies; to provide critical support and mutual-aid for seven counties, fire services and law enforcement; and to provide educational and training opportunities at health fairs, career days and similar activities. Revenue collection is an on-going issue. Offsetting reductions for Medicaid is a continuing trend. The county will only be reimbursed for managed care rates and not actual full cost. The collection rate is favorable compared to other counties. However, it is unlikely that full cost recovery will ever be possible.

Performance Measurement	2017	2018	2019	2020	2021
Service Requests	8,846	9,094	9,280	9,225	9,400
Local Transports	5,348	5,826	6,535	6,166	6,400
Out-of-Town Transports	678	555	660	301	400
No Transport Calls	2,465	2,659	2,745	3,059	3,000
Average Revenue per Call	\$299	\$247	\$267	\$244	\$260

# Coroner

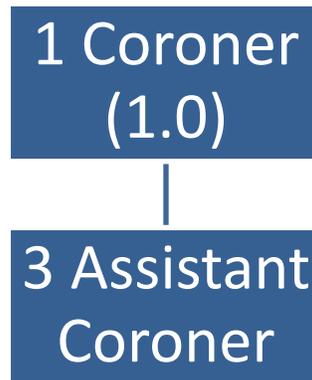

---

## Department Description

To aid in the investigation, determination and certification of cause and manner of deaths under the Coroner's jurisdiction (homicide, suicide, trauma, unexpected death, death in police custody, unattended death, etc.) occurring in Bulloch County; respond to on-scene investigations for all homicides, most suicides, suspicious deaths and some accidental deaths. Provide general and on-scene investigations of all homicides, suicides and suspicious deaths, and provide autopsies as necessary. Consult with law enforcement, legal and other interested parties, and expert testimony in court procedures.

## Coroner Organization Chart

# Animal Services

---

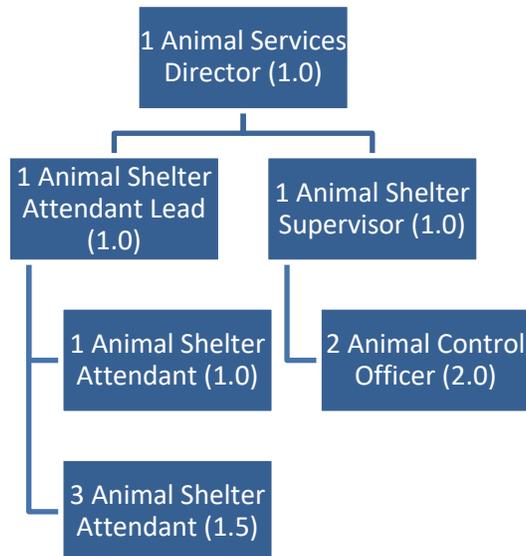

## Department Description

To provide a comprehensive, life affirming, and compassionate temporary care shelter for stray or unwanted animals; to provide safety and education on proper care of animals adopted at the shelter by individuals. The growth of Bulloch County's population has increased the need and demand for animal shelter services, where they previously had not existed. This has created a higher level of service demanded by the residents. The Animal Control and Animal Shelter budgets were combined into an Animal Services budget in FY 2021.

# Public Works

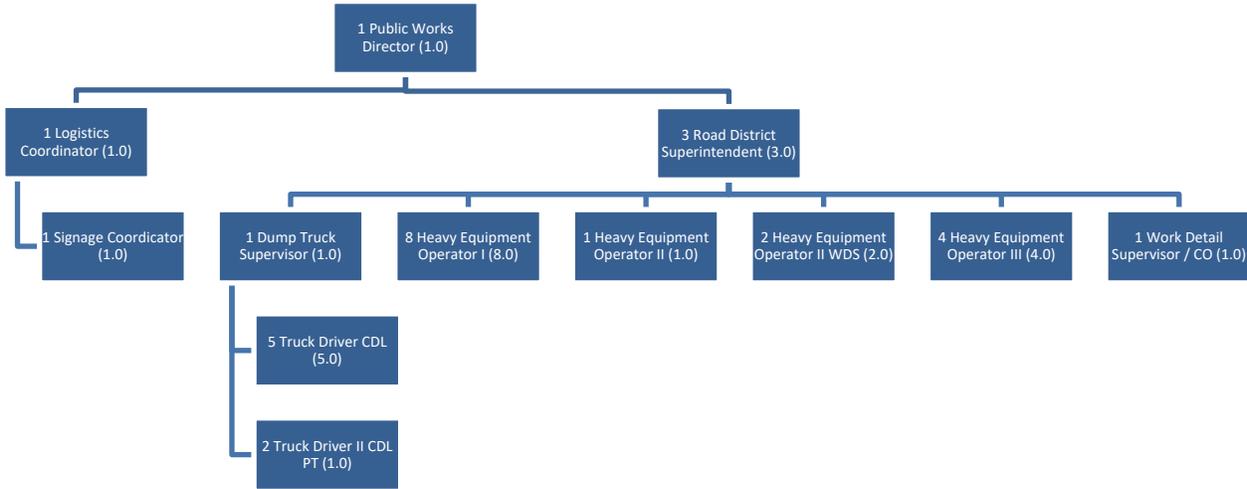

# Roads

### Department Description

To maintain all County owned roadway infrastructure and to provide the traveling public with safe, reliable and aesthetically pleasing public ways; to construct new roads and perform general civil work on special construction projects. Population increases have vastly impacted the maintenance responsibilities for the county road system (new subdivisions, wear on existing roads, expansion of school bus routes and mail delivery, and increased traffic flow on low volume design roads). This has increased costs, and created the demand for new paved roads, bridges and major improvements to certain road segments and intersections. Bulloch County has the most dirt roads in the State of Georgia to care for. The use of inmate labor has minimized these costs, yet, the increased traffic and periods of inclement weather escalate the maintenance effort. The department is also charged with right-of-way management which requires a focus on engineering and regulatory functions. Increases in new development will require that a greater focus be placed on shifting the costs of these functions to the private entities that spur development rather than the general taxpayer.

Performance Measurement	2017	2018	2019	2020	2021
Paved Road Maintenance (Mileage)	500	500	553	553	553
Dirt Road Maintenance (Mileage)	657	657	657	657	657
Storm Recovery	Irma			March rain event	

### Roads Organization Chart

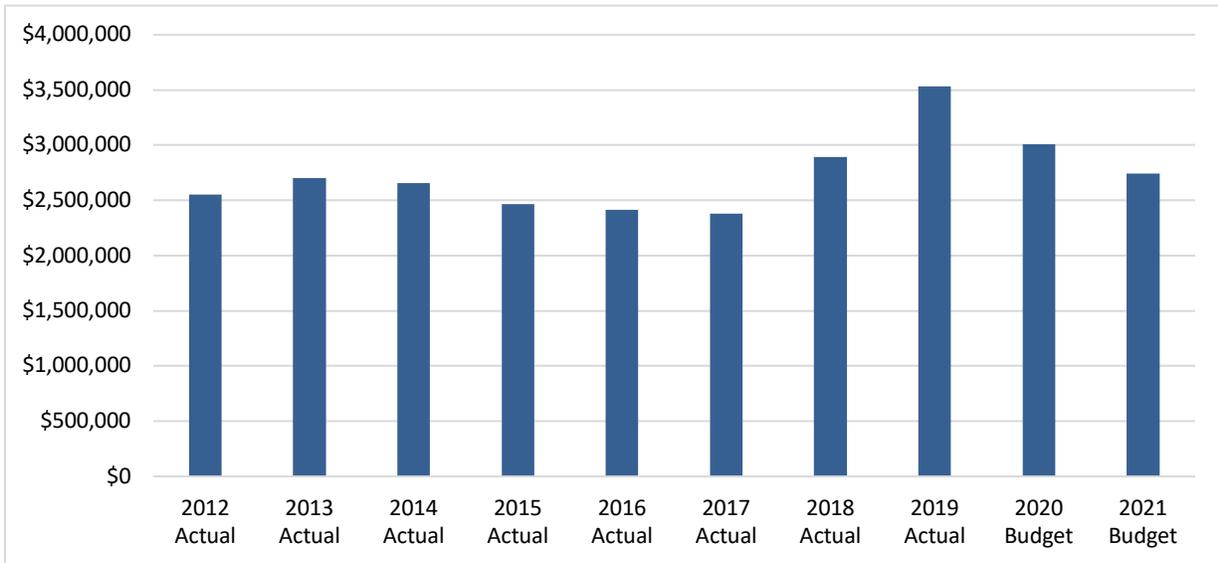

\* The number before the job indicates how many people fill the position. The number in (parenthesis) indicates full-time equivalents.

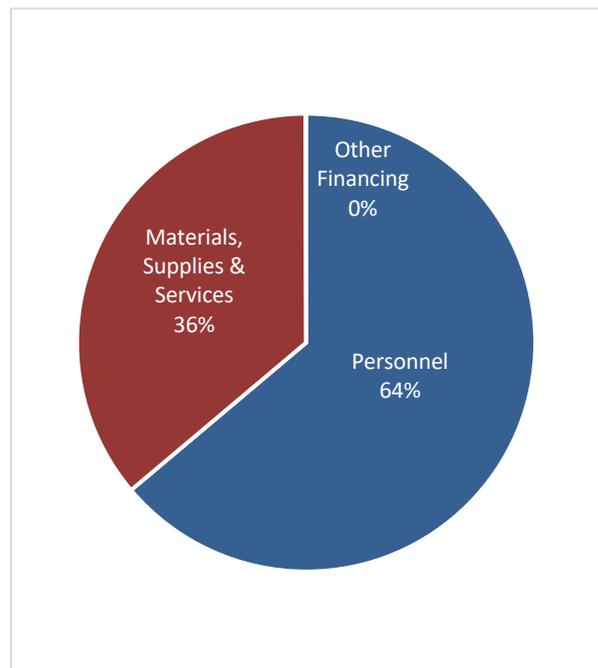

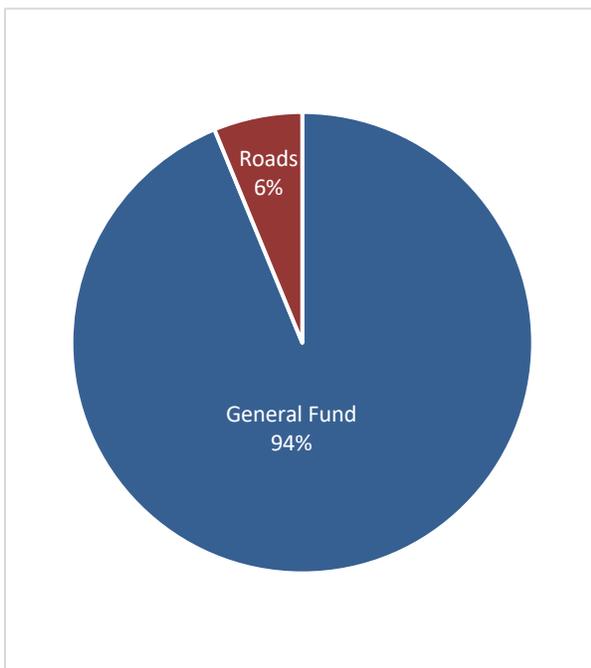

## Roads Personnel Changes

Two full-time positions were moved to the Correctional Institute in fiscal year 2021.

## Roads Expenditure Trends

# Solid Waste

---

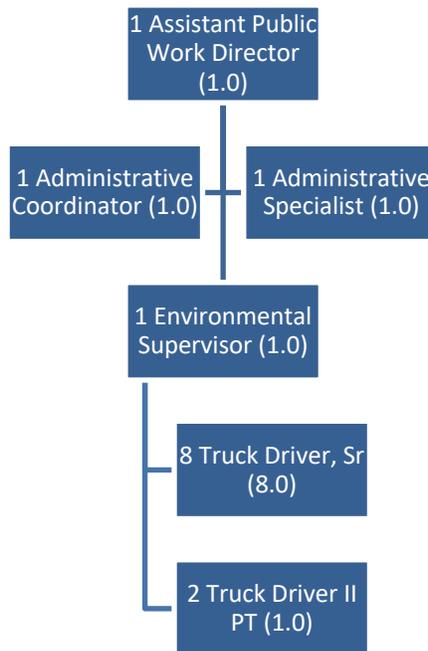

## Department Description

The Solid Waste Department is charged with providing waste and recycling collection throughout the county. These collection efforts are accomplished by providing the citizens a choice of 19 strategically placed, multipurpose collection centers and 2 refuse only sites. An added aspect of the recyclable collections is the processing, selling, and shipping of these materials. The Department also operates a refuse container rental service, in which it currently provides refuse collection and dumping services to 106 customers. Due to concerns from COVID-19 and the recycling market, most recycling was suspended in FY2020.

Performance Measurement	2017	2018	2019	2020	2021
Solid Waste Tonnage	20,095	20,583	20,181	20,000	20,000
Recycle Cardboard Tonnage	933	933			
Recycled Glass Tonnage	39	40			
Recycled Metal Tonnage	981	456			

## Solid Waste Organization Chart

---

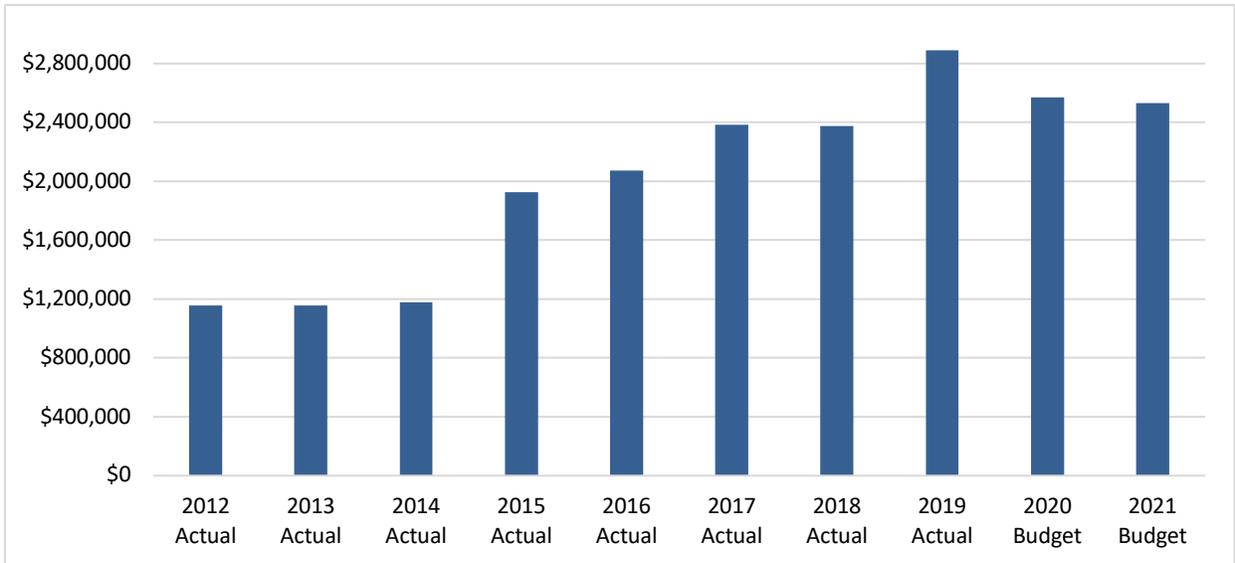

\* The number before the job indicates how many people fill the position. The number in (parenthesis) indicates full-time equivalents.

## Solid Waste Personnel Changes

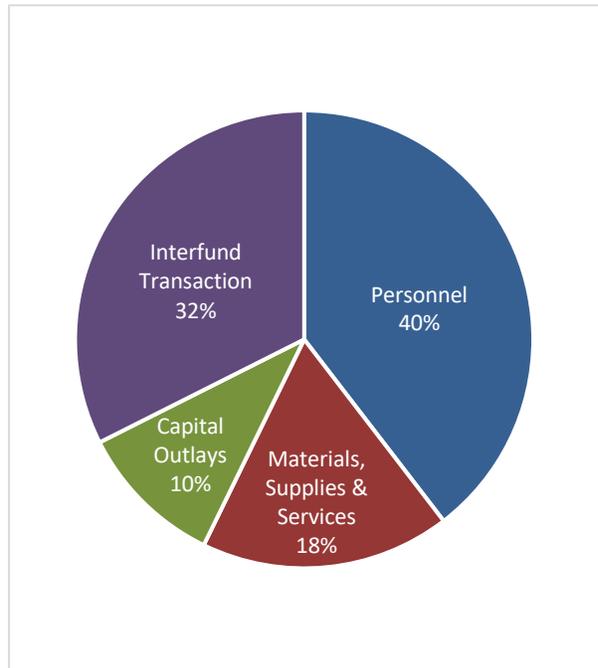

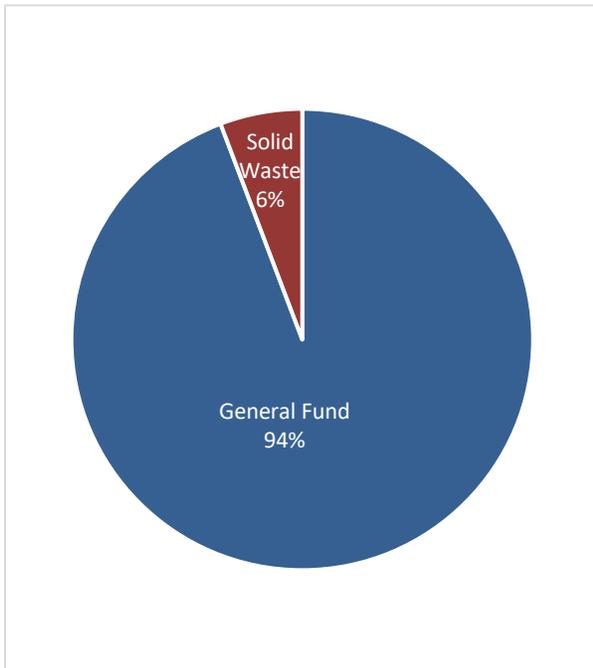

---

There are no changes to personnel for fiscal year 2021.

# Fleet Management

**Department Description**

Bulloch County Fleet Services is charged with the proper maintenance, repairs and services to County owned vehicles, trucks and equipment. The County fleet numbers in the hundreds and covers a variety of departments and equipment types. Fleet Services maintains and repairs the large number of refuse containers distributed throughout the County. While Bulloch County attempts to replenish its fleet regularly to minimize maintenance costs, the increasing costs of supplies and tools, as well as rising costs involving outside services have an influence on total budget needs.

Performance Measurement	2017	2018	2019	2020	2021
Total Number of Vehicles in Fleet	318	301	314	309	310
Number of Sheriff Vehicles/Trucks	89	81	87	85	85
Number of Pickup Trucks	104	125	114	115	115
Number of Fire Trucks	34	34	33	30	30
Number of Ambulances	1	10	10	9	9
Number of Roll-off Trucks	6	6	9	8	8
Average Age of Fleet	9	8	8	9	9

## Action Pact Rent

### Program Description

The purpose for this budget division is to provide cash assistance in the form of rental payments on behalf of the Action Pact (formerly Concerted Services, Inc.), for a facility where community action-based activities helping lower income and disadvantaged activities can take place. Funding was also established to help meet state and federal grant requirements pursuant to the Older Americans Act to enable a facility for community-based services to be open for 250 days per year for the elderly including meals, congregate center and other support services for low-to-middle income persons over 60 years old. Such services include congregate and home delivered meals, two hours per day of planned activities at the congregate facility, and health education, promotion and wellness activities.

Fund 100 – General Department 55500 – Action Pact Rent Detail

# Recreation Administration

---

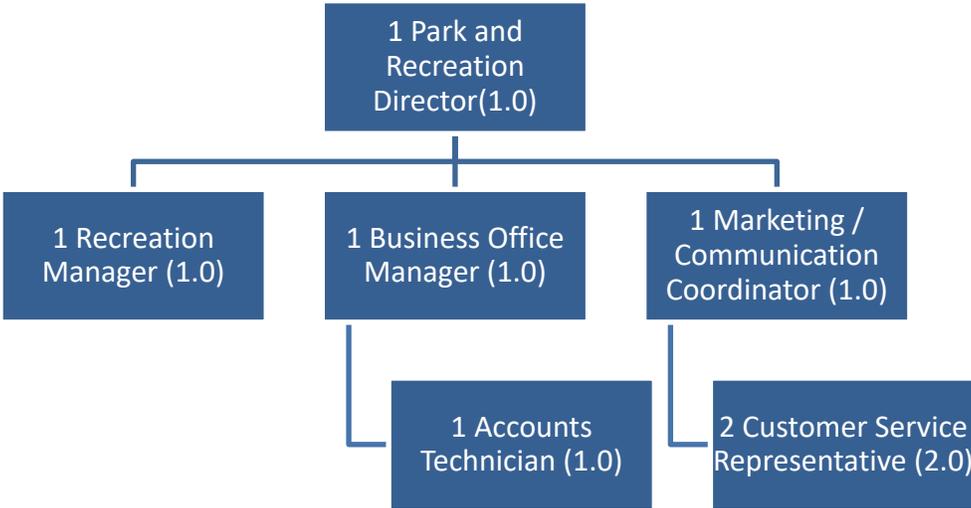

**Department Description**

The Department provides administrative support to program activities and to facility and parks maintenance functions. This Department manages the marketing and promotion of all departmental activities and services. The mission is to effectively promote Parks and Recreation activities and services to help the citizens of the community strive for more healthy lifestyles through sports, exercise, leisure programs and other amenities. The Department uses different forms of communications such as a website, several different social media sites, and text app to keep people informed of activities, delays and cancellations.

# Athletics

## Department Description

Athletic programs provide a diversified service of sports opportunities for youth and adults of all ages. Youth athletic league play includes baseball, softball, basketball, football and soccer. Specialized sports include archery, kayaking, bass fishing, volleyball, tennis, track and field and wrestling. In addition, sports camps are offered throughout the summer months. Youth and adult baseball and softball tournaments are scheduled throughout the year at Mill Creek Regional Park and Brooklet Community Park. The Department provides both indoor and outdoor programs for the community at its five community buildings, eight parks, and public-school sites. A wide variety of programming opportunities are available for adults through team sports leagues including softball, flag football, kickball, wiffle ball, indoor soccer, basketball and soccer. Individual competitions and tournaments are also available for adults. Youth and Adult Athletic programming is faced with the challenges of building on its successes and expanding programming diversity to an expanded and more individualized constituency. A long-standing policy of the department has been that no child be denied access to basic recreation services because of inability to pay. The department considers fee waiver requests for children up to age 17, wishing to participate in youth sports league and summer camp activities.

Performance Measurement	2017	2018	2019	2020	2021
Youth League and Specialized Sports Participation	3,680	3,117	3,346	3,500	3,690

# Agriculture Complex

---

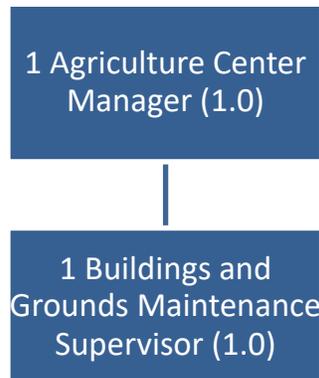

## Department Description

The Bulloch County Agricultural Complex (BCAC) is a multi-purpose complex that was built with Special Purpose Local Option Sales Tax (SPLOST) revenue. The Complex consists of a 54,000-square foot Main/Show Arena with seating for 1,500 people, a 38,500-square foot Practice Arena, a Stall Barn with 218 stalls and 20 wash bays, and an RV Campsite with 54 hookups. While the Complex may operate some of its own programs or shows, the facility will mainly be rented out to organizations for public and private events for uses such as Equine shows, Livestock shows, Trade shows, Flower shows, Equipment expos, Field trials, and more.

Performance Measurement	2019	2020	2021
Weekend Event Rentals	12	4	22
Weekday and Night Rentals	5	1	10

# Community Recreation

---

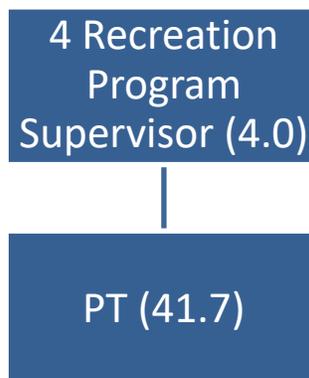

## Department Description

The Our Time and RECES after school programs offer a structured, supervised after school program for the students enrolled in the Bulloch County School System in grades Pre-k - 5th grades. Activities include games, homework time, snacks, free play, club settings and field trips. Camp Cherokee is a traditional summer day camp that runs for 9 weeks and is for children who have completed Pre-K to 5th grade. In this camp setting, part-time staff provide participants with engaging and enrichment activities as well as field trips and swim time. Kids Zone is designed to help children learn a specific hobby or skill. Both settings focus on full day childcare for all youth in Bulloch County. The Department’s responsibilities include organizing community events such as the Firecracker Festival, Arts Festival, Trick or Treat at Mill Creek, Spring and Fall Opening Sport activities and year-round seasonal events. Community Recreation programming strives to provide quality individualized care for children with disabilities based on the specific needs of the child. The Specialist childcare program is an inclusive program, which meets in conjunction with the Our Time, RECES and summer camp programs. The Specialists program provides recreational and enrichment activities which allow children with disabilities to participate as they can, making adaptations and modifications to accommodate special needs.

Performance Measurement	2017	2018	2019	2020	2021

# Parks and Grounds

## Department Description

The Department maintains all Bulloch County Parks and Public Spaces at a level that makes them safe, efficient, playable and aesthetically pleasing for public use. These facilities consist of 14 parks, with a total of 250 acres maintained. In addition to recreational facilities this department is responsible for maintaining 54 county owned facilities including, but not limited to, Fire Departments, Voting Precincts, Recycling Centers, North Main Annex, Courthouse, Magistrate Court, and Judicial Annex. Of the 250 park acres maintained, 78 acres are fine turf (athletic fields). A rigorous mowing schedule is needed to keep the turf at the desired height. The recreational facilities have 23 irrigation systems with nearly 3,100 heads. In addition to the recreational facilities there are 4 county buildings with irrigation systems that have 510 heads. This is a total of 3,610 heads that are maintained. There are over 145,000 square feet of landscape beds over the entire county that house shrubs and annual flowers that are pruned and refreshed with pine straw or mulch throughout the year. In addition to the beds, over 500 trees are also maintained.

Performance Measurement	2017	2018	2019	2020	2021

# Building Inspection

---

**Department Description**

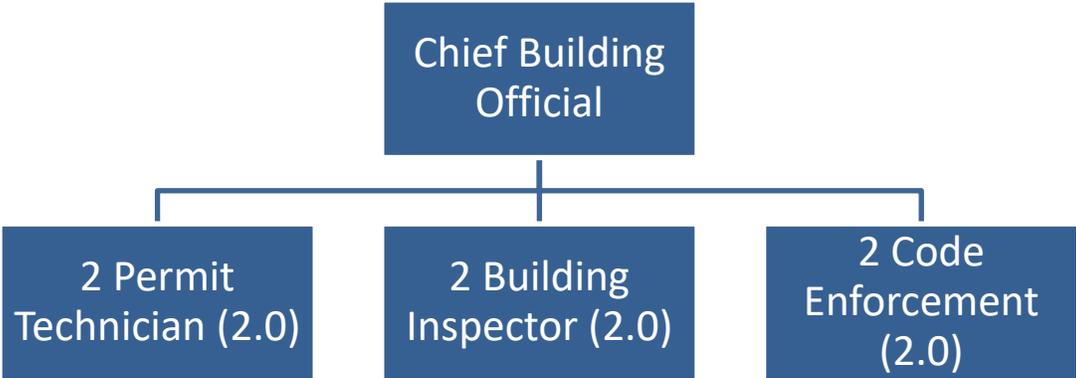

To protect public health, safety, and general welfare by ensuring compliance with adopted codes that regulate structural strength, stability, sanitation, lighting, ventilation, fire safety and other hazards associated with construction, alteration, removal, demolition, use or occupancy of buildings, structures, or property; provide quality plan review, helpful counter service and friendly and accurate inspections. Being a highly regulated fee-based activity, this function relies on maximum efficiency recognizing that builders and developers have time and money invested in development while at the same time providing a service that protects the consumer of the development industry product. To minimize future personnel costs, the department is continually converting to automation to achieve this balance.

Performance Measurement	2017	2018	2019*	2020*	2021*

# Planning and Zoning

---

**Department Description**

To promote orderly growth, development, redevelopment and preservation of the unincorporated areas; to administer the following ordinances and plans related to development: Comprehensive Land Use Plan, Zoning Ordinance, Subdivision Ordinance, Flood Ordinance, Tower Ordinance, Sign Ordinance, Soil Erosion and Sedimentation Ordinance, Building Ordinance and Manufactured Home Ordinance. Regarding current zoning and development issues, the staff will focus on implementing the growth management measures recommended in the Comprehensive Plan. In FY21, a Code Enforcement Office will be moved to the Building Inspection department.

# Development Authority

### Department Description

To maintain and create jobs and capital investment for new and existing business and industry, thereby improving the quality of life for all Bulloch County citizens. A major focus and priority of the Board of Commissioners is to work with the Development Authority to attract and retain new major industry to the county's three existing industrial and business parks to broaden the county tax base. New land for an industrial park has been located adjacent to I-16 and US-301 with plans underway for development. In FY19, Bulloch County agreed to begin making payments to the City of Statesboro for the Tax Allocation District(s) to help incentivize development.

# Special Revenue Funds Overview

---

## Definition of Special Revenue Funds

Special Revenue Funds are created to account for a specific revenue source that must be used for a specified purpose. In other words, these funds account for earmarked revenue. The purpose of these accounts is to provide an enhanced level of transparency and accountability. This is achieved by having a separate account for each revenue source rather than putting the revenue into a general pool of funds.

The following discussion explains how Special Revenue Funds provide transparency. Taxes are received into the General Fund along with several other revenue streams. Because taxes are pooled together with other revenue streams, when the pool of revenues is used for an activity, it is not clear exactly the amount of taxes being used for this activity. In contrast, earmarked revenues such as event revenue are not placed into a pool of revenues. Instead, the event revenues stay within the events fund and are solely to fund event expenses.

## Overview of Special Revenue Funds

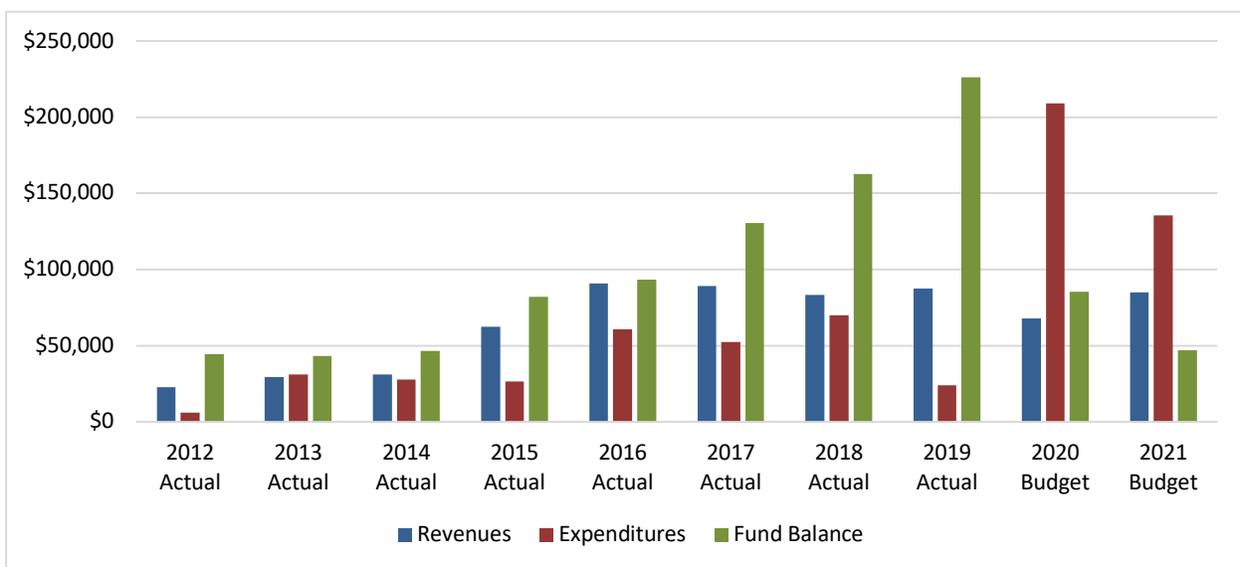

The County has 17 Special Revenue Funds: CI Phone, Jail Add-on, Drug Education, Accountability Court, Juvenile Services, E911, CI Inmate, Sheriff Phone, Jail Commissary, Confiscated Assets, Sheriff Fingerprint, Grants, Airport, Street Lighting, Statesboro Fire District, Rural Fire, and Tourism. Many of the Special Revenue Funds are assessed an administration fee from the general fund to provide necessary administrative support.

# CI Phone

## Fund Description

Originating from phone commissions proceeds at the County Correctional Institute, these funds are used to fund designated special projects for the Correctional Institute as determined by the Board of Commissioners and Warden to address needs. The amount charged for phone calls decreased from .17 to .11 per minute in FY17 with a 73% commission rate.

# Jail Add-on

## Fund Description

These are funds allocated for the operation and maintenance of the county jail generated through fees added on to fines (see O.C.G.A. 15-21-93) and are transferred to the General Fund to reimburse for maintenance and operation. Most of funding is to reimburse the General Fund for meals prepared for inmates at the County Jail.

# Drug Education

## Fund Description

The purpose of this fund is to sponsor meaningful opportunities for drug education and treatment to individuals referred by courts, law enforcement or social service agencies. The Fund is typically allocated for probation drug treatment, leveraging grants, the Sheriff's DARE program and for the Drug Abuse Council (funded at 5% of alcoholic beverage excise taxes).

# Accountability Court

---

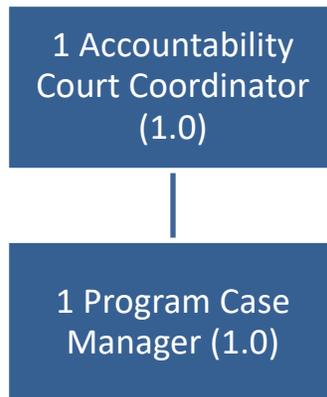

## Department Description

The Accountability Court positively impacts persons with mental illness by facilitating stabilization and promoting self-sufficiency through a combined effort of the Court and community resources, and, with this blended effort, to see reduced recidivism, which will make for a safer community, and to assist participants in becoming independent, self-sufficient contributors to the welfare of the community. The Program is a specialty court designed to assist individuals with drug-related illnesses who have pending criminal charges to change their lives through an understanding of their drug-related illness, the need for medication, and assist the individual change their current behavior to law abiding behavior. Prior to FY19, the Accountability Court was called the Mental Health Court. This service was moved from the General Fund in FY20 to comply with requirements of the Chart of Accounts.

# E911

---

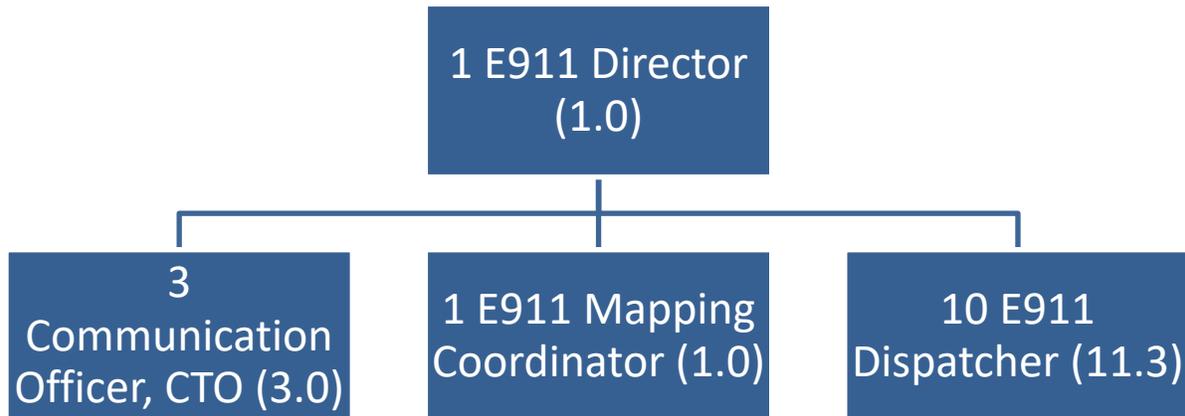

## Department Description

To provide Bulloch, Evans, and Candler Counties with a reliable, cost effective and state of the art Enhanced 911 Emergency Telephone System, to maintain the system with complete public confidence and accountability and to provide residents of these counties with demonstrated life-saving responsiveness in any emergency. In FY 2021, a Radio Fund will be created for a multi-jurisdictional communications system. Expenditures in the E911 for the communication system will be moved to the Radio Fund.

Performance Measurement	2017	2018	2019	2020	2021
Call Volume	82,440	93,412	118,750	132,625	140,000
Bulloch County Service Effort	54,642	47,010	49,686	52,965	56,407
Candler County Service Effort	4,501	4,463	5,770	5,724	5,750
Evans County Service Effort	2,716	2,691	3,959	4,298	4,663

## E911 Organization Chart

---

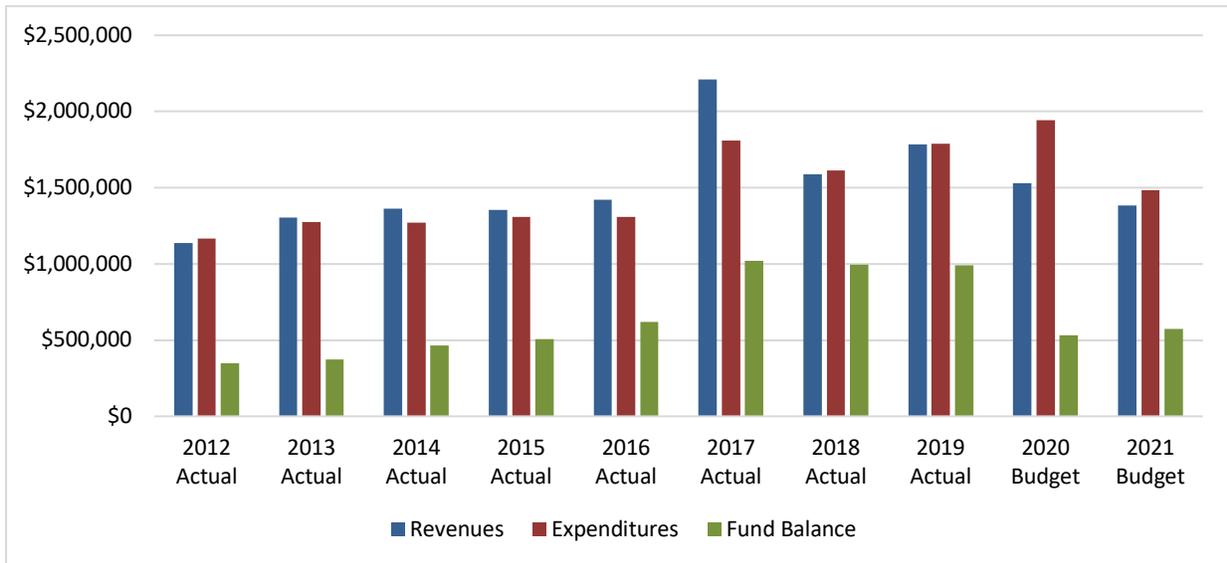

\* The number before the job indicates how many people fill the position. The number in (parenthesis) indicates full-time equivalents.

## E911 Personnel Changes

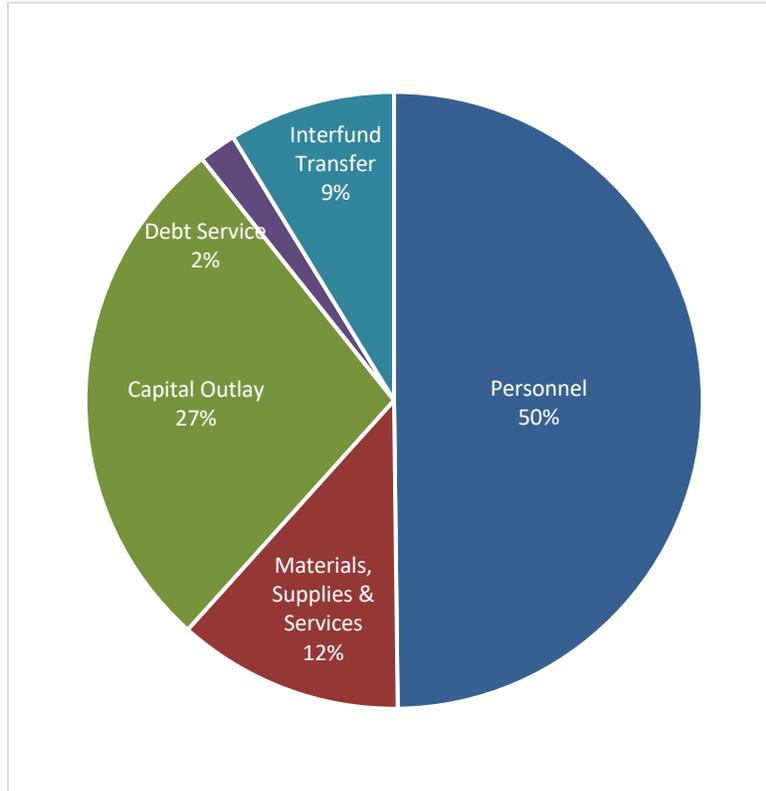

---

There are no changes to personnel for fiscal year 2021.

# Airport

---

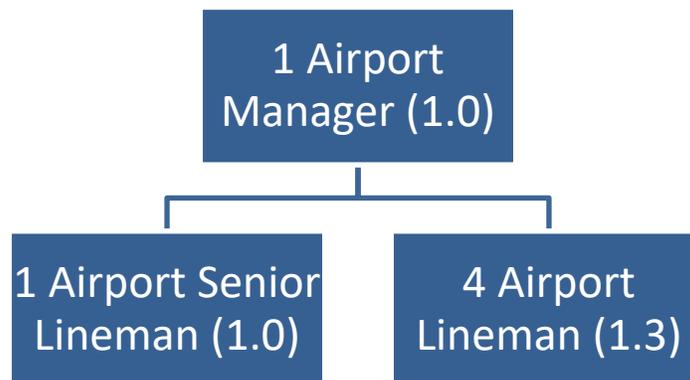

## Department Description

The Statesboro-Bulloch County Airport operates in a safe, efficient, environmentally responsible manner while maintaining a customer friendly atmosphere. The airport benefits Bulloch County citizens and businesses by providing access to a modern general aviation facility, enabling transport of people, equipment, and goods in and out of the region. The airport has a 6,000-foot runway with a state-of-the-art navigation system allowing larger corporate jets to make use of the airport, thus creating a valuable economic development tool. Most of the airport's income is made by selling aviation fuel and renting hangars. Professional planning, management and oversight have enabled the facility to become financially self-sufficient.

Performance Measurement	2017	2018	2019	2020	2021
Aviation Gas Gallons Sold	71,115	70,916	60,652	49,434	50,000
Jet Fuel Gallons Sold	68,116	74,423	61,959	70,513	70,000
Hangar Occupancy Rate	100%	100%	100%	100%	100%
# of Operations			18,500	20,500	21,000
Charter Services Available	2	3	3	4	4

## Airport Organization Chart

---

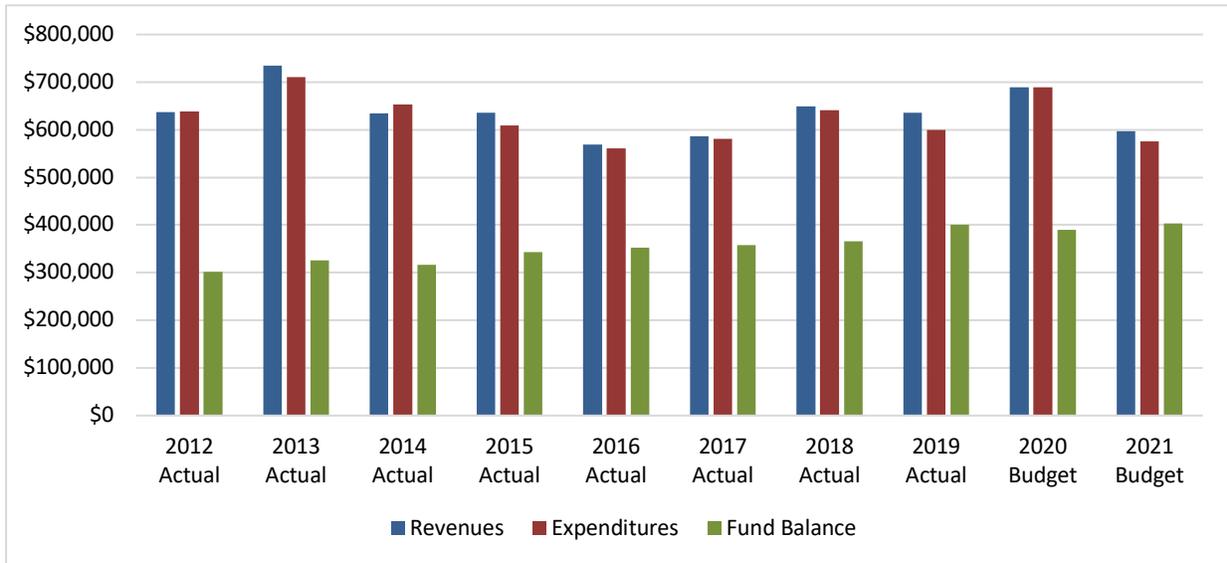

\* The number before the job indicates how many people fill the position. The number in (parenthesis) indicates full-time equivalents.

## Airport Personnel Changes

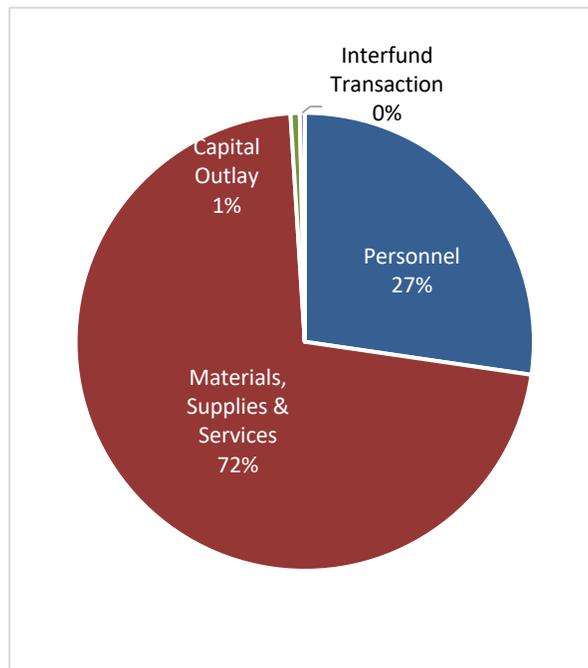

---

There are no changes to personnel for fiscal year 2021.

## Airport Revenue - Expenditure Trends

# Street Lighting

---

## Fund Description

The purpose for this special tax district is to provide a voluntary special assessment upon residential neighborhoods for the installation and maintenance of streetlights in order to aid in the reduction of crime, and/or to improve aesthetics. The assessment is based on the annual actual full cost, including recovery of administrative costs for invoice processing, the cost of energy services and associated maintenance.

# Statesboro Fire District

## Fund Description

The Fire District originated in 1978 as an agreement between Bulloch County and the City of Statesboro, providing for the city to act as first responder for fire calls in a five-mile radius of Statesboro. This arrangement provides enhanced fire service response and lower fire hazard insurance rates for homeowners and businesses in this area. However, these benefits are the result of additional resources funded through an additional millage rate on district property owners. The cost impact of the millage by property owners is offset by a reduction in fire hazard premiums due to a lower insurance rating for the higher level of service provided by the city. The millage rate for FY 2021 is proposed to remain at 1.8 mills.

# Rural Fire

---

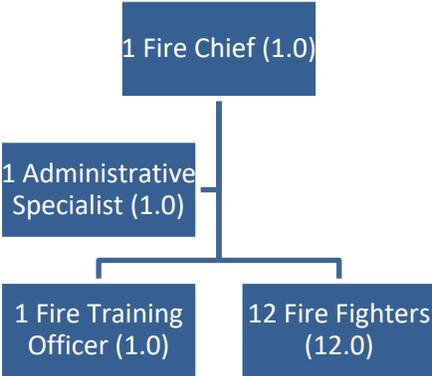

**Department Description**

To provide responsive fire protection in seventeen (17) rural fire stations and sub-stations while assisting in various mutual aid agreements with other jurisdictions. This department will face increasing challenges as Bulloch County's population continues to grow. Meanwhile, the Board of Commissioners has made a long-term commitment to improve the service levels for rural fire protection. In FY 2010, the county was successful in lowering the insurance rating for many rural homeowners through an evaluation by the Insurance Services Organization (ISO) to determine community fire-fighting capabilities for equipment, facilities and training. Bulloch County has implemented most of these measures and will continue to invest in rural sub-stations. In FY 2020, the County Commission switched from a fee to a tax to more equitably charge for this service. In addition, additional full-time employees will be added this year to help improve fire protection, reduce response time and lower/maintain favorable ISO ratings.

Performance Measurement	2017	2018	2019	2020	2021
Total Dispatched Calls	1,217	1,555	1,904	1,500	1,600
Structure Calls	43	30	32	30	30
1 <sup>st</sup> Responder (EMS) Call	202	240	219	200	260
Rescue Calls	24	20	48	25	25

## Rural Fire Organization Chart

---

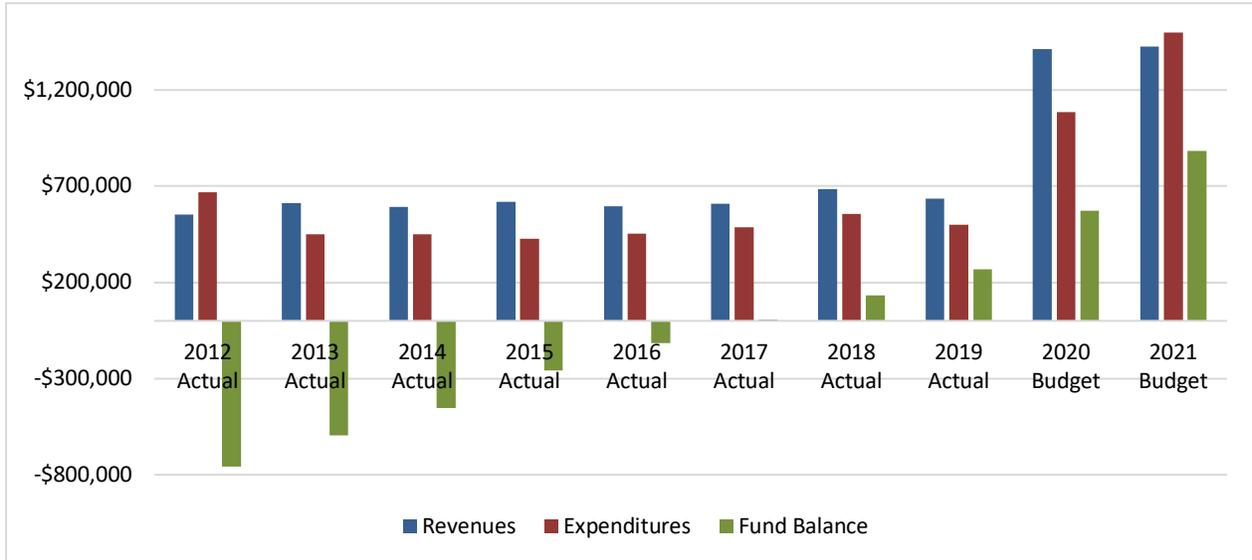

\* The number before the job indicates how many people fill the position. The number in (parenthesis) indicates full-time equivalents.

## Rural Fire Personnel Changes

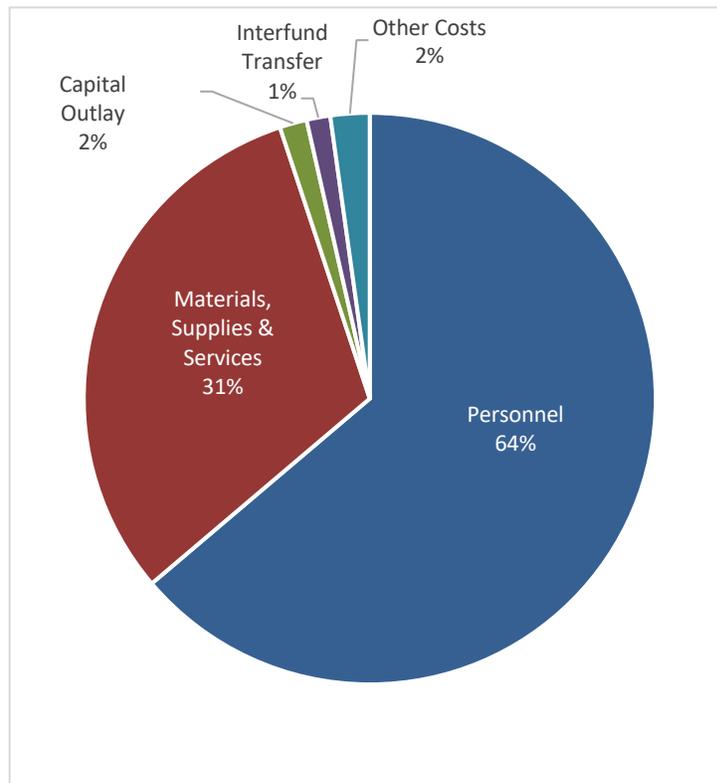

---

There are no changes to personnel for fiscal year 2021.

# Tourism

## Fund Description

To provide funding for the purpose of promoting tourism and attracting consumers who will lodge and consume goods and services in Bulloch County. The current tax rate is 5% levied on persons who use short-term lodging accommodations in Bulloch County. The funds are allocated to the Statesboro Convention and Visitors Bureau (SCVB) and Arts Council.

Internal Service Funds Overview .....	297
Employee Health Insurance.....	298
Food Service .....	300
IT-Radio System .....	302

# Internal Service Funds Overview

---

To promote efficiency, the County has centralized revenues and expenditures relating to services that span across several different departments and funds. Accounting for a centralized service within a governmental agency is done through an Internal Service Fund; however, the use of Internal Service Funds is not required by Generally Accepted Accounting Principles (GAAP). The Internal Service Fund received revenue (reimbursement) to pay for expenses through the transferring in of monies from County funds. Bulloch County has three Internal Services Funds: Employee Health Insurance, Food Service, and Radio.

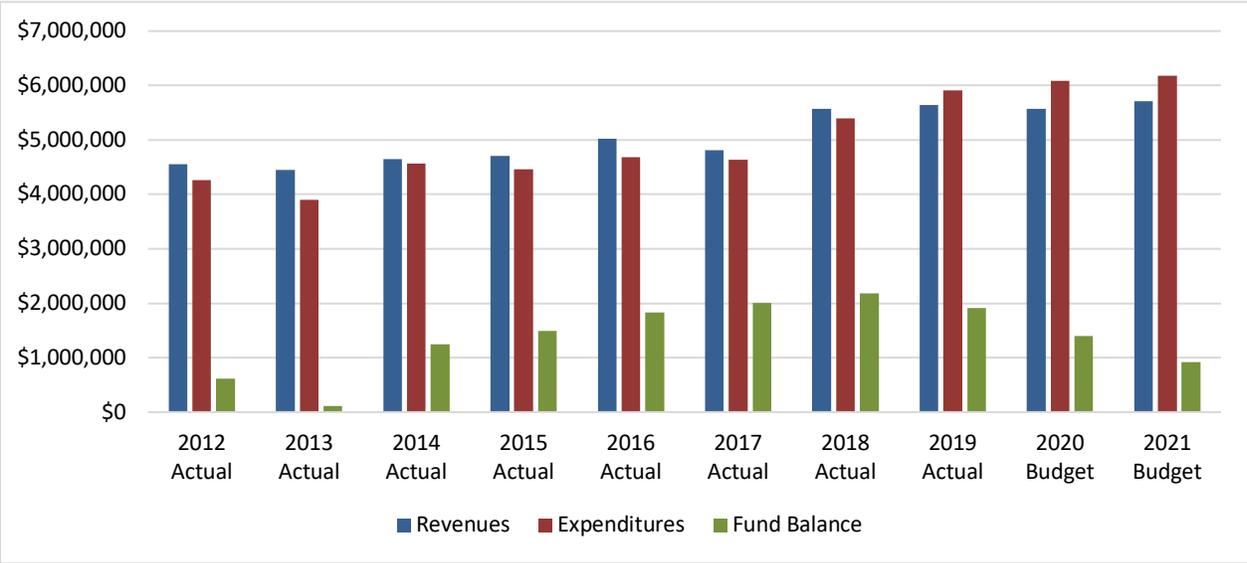

# Employee Health Insurance

## Fund Description

This Internal Service Fund accounts for the County's group health insurance fund administrative contract premiums and self-insured claims. It is a self-insured plan currently administered by Covenant Services Group. Also included, but separately handled, are life insurance, dental and prescription drug benefits. The revenue that funds the County's Group Health Insurance Plan is derived primarily from a cost share between the County and its employees (including elected Constitutional Officers) and is received through a payroll charge. Revenue to the fund is also received from employees for families, spouses and children additionally covered in the plan. The County engages a health care consultant to provide advice on health care markets and trends, review claims management and other forms of expertise not available on staff.

Performance Measurement	2017	2018	2019	2020	2021

# Food Service

**Department Description**

To safely prepare and provide approximately 1,600 quality meals for prisoners at Bulloch County Correctional Institution and Bulloch County Jail daily. The Bulloch County Correctional Institute kitchen was contracted out in FY 2020. The outside firm oversees the meal preparation, maintains inventory, and ensures that the kitchen complies with the health department sanitation guidelines.

# IT-Radio System

## Department Description

To provide radio communications for Bulloch County, Statesboro, Portal, Brooklet, Bulloch County Board of Education, Georgia Southern, Ogeechee Technical College, and East Georgia State University. With the installation of a new P25 digital radio system in June 2020, this fund was created to maintain the radio infrastructure. Previously, maintenance of the the system was paid for thru the E911 Fund. A budget fund balance will be used every 5 years for technologies refresh as recommended by vendor.

# VIII. Enterprise Fund

Enterprise Fund Overview .....	305
Aquatic Center – Summer .....	306
Aquatic Center – Winter .....	310
Aquatic Center – Concessions .....	314
Aquatic Center – Expansion.....	317

# Enterprise Fund Overview

---

Enterprise revenues constitute 2% of total budgeted revenues. Enterprise funds are established to account for the operation of business-type enterprises. One key difference from other fund types is that depreciation is included as part of the budget. Bulloch County has one Enterprise Fund: Splash in the 'Boro.

# Aquatic Center - Summer

---

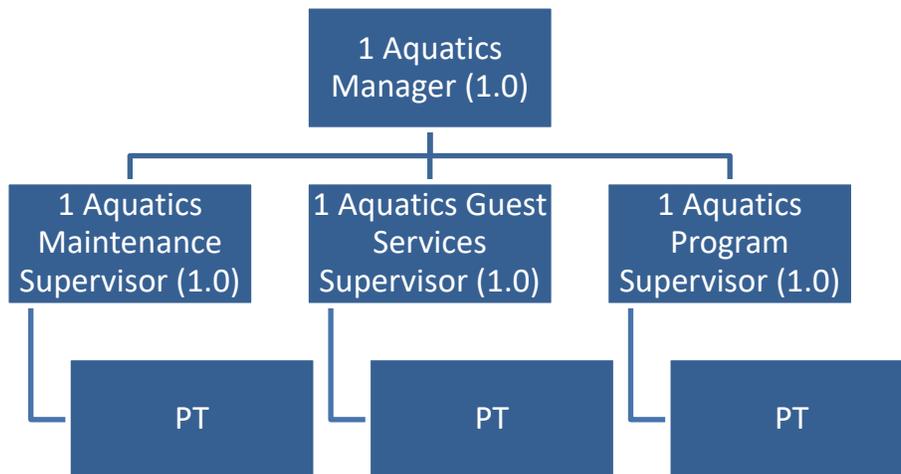

## Department Description

Splash in the 'Boro Family Waterpark is a state-of-the-art aquatic facility with a variety of attractions for all ages and ability levels. The waterpark is open from one week before Memorial Day through Labor Day each year. In the summer of 2017, the waterpark opened a new 33,000 square foot wave pool with a pavilion overlooking it. This addition included a new interactive play structure. Other attractions include a 10-lane competition pool with diving board, a heated therapy pool, an 800 foot lazy river, one inner tube slide, one enclosed body flume, one open body flume, the tree house interactive play structure with a beach entry play pool, a beach entry leisure pool with mushroom spray fountain and two lily pad walks, a 6,600 square foot spray pad with kiddie pool and tot slides, a 5-lane toboggan style mat racer slide, and a dual flow rider wave simulator for surfing or body boarding. Due COVID-19, Splash in the 'Boro was closed for the summer of 2020.

Performance Measurement	2017	2018	2019	2020	2021
Total Revenue	\$1,429,615	\$1,630,665	\$1,884,999	\$1,233,544	\$750,000

# Aquatic Center - Concessions

---

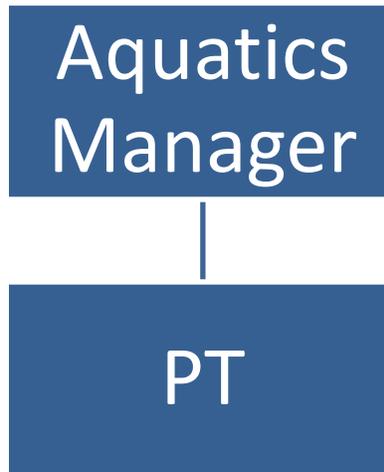

## Department Description

Our mission for concessions is to provide outstanding quality and service while offering a variety of food and drink options that meet the needs of our guests at an affordable price. Splash in the Boro offers three full-service concessions stands during the waterpark season. Splashy’s Snack Shack offers a traditional concessions menu including, Hamburgers, hotdogs, chicken fingers, and fries while Splashy’s Sandwich Shoppe offers a lighter menu such as Hot and cold sandwiches and salads. Splashy’s Tiki Hut is our newest addition to our concession operations that was included in the wave pool expansion which offers personal pan pizzas.

# Capital Improvement Fund Overview

---

## Capital vs. Operating Budgets

There are two types of budgets with which the County Commissioners appropriate: the operating budget and the capital budget. These two budgets are interconnected with providing services to citizens. The operating budget addresses the planning and financing of the County's day-to-day activities. The capital budget contains capital expenditures, which are used by the County to purchase or upgrade property. Capital expenditures are used to add value to the County.

The Capital Projects Budget is the schedule for the next five fiscal years of major public construction projects and purchases. Some examples of capital projects are the construction of buildings, streets, parks, infrastructure and the purchase of equipment. The scheduling of capital projects is established in the Capital Improvement Fund.

The County has generally funded Capital Projects through Special Purpose Local Option Sales Tax, Transportation Special Purpose Local Option Sales Tax, bonds, grants from state and federal government, and appropriations from the General Fund.

## Capital Projects Plan

Bulloch County has experienced significant growth in the past 30 years. The County's challenge with capital projects is the construction of new facilities and purchase of equipment to ensure that there is adequate capacity to serve the residents.

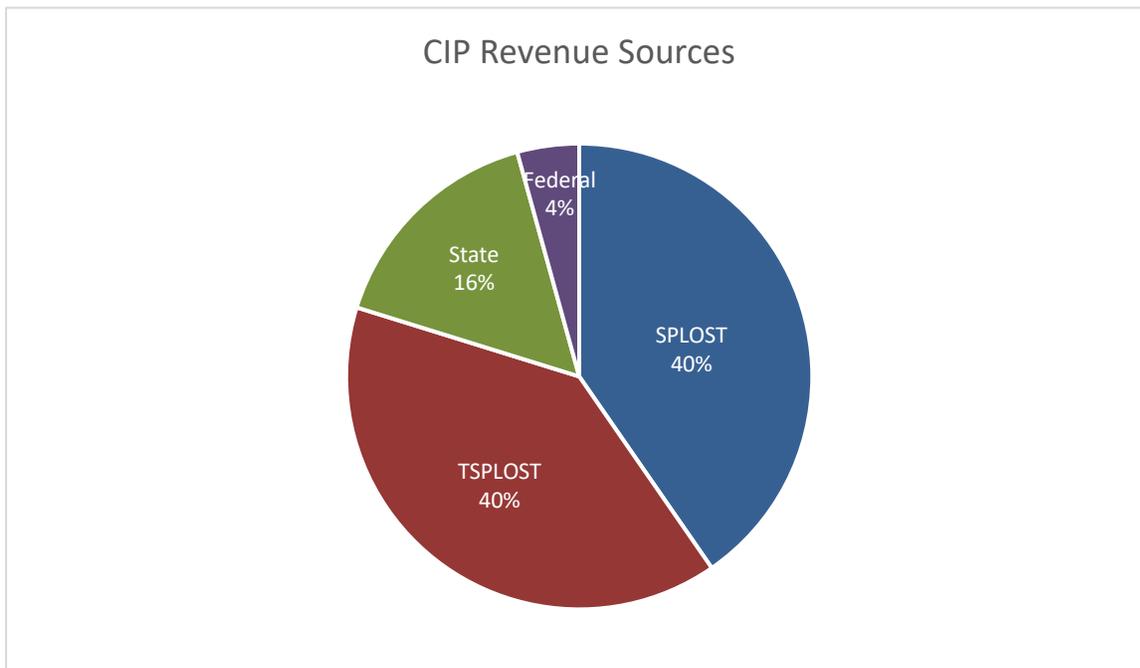

Bulloch County has adopted a detailed Capital Improvement Plan which evaluates the County's infrastructure and equipment needs. Specifically, the Capital Improvement Plan addresses roads, public safety, recreation, facilities, solid waste, economic development, airport, and elections. The County periodically revisits the County's Capital Improvement Plan in order to ensure that it is accumulating the appropriate funds for the construction of these future facilities and thus reduce the likelihood of, or the amount of, funds the County must borrow.

## Summary

The FY 2021 Capital Budget is the product of the 2025 Capital Improvements Program (CIP). The primary funding mechanisms for the county CIP are the Special Purpose Local Option Sales Tax (SPLOST) and Transportation Special Purpose Local Option Sales Tax (TSPLOST). These taxes are voted for by referendum and have a sunset period of five and six years (TSPLOST and SPLOST, respectively). SPLOST proceeds can be used for capital project expenditures, as provided for by state law. The SPLOST 2019 initiative (Bulloch County's seventh since 1989) was approved by voter referendum in November 2018, with collections that began in December 2019 and expire in November 2025 (FY 2026). The Transportation Special Purpose Local Option Sales Tax (TSPLOST) was approved by voters in May 2018 to fund transportation related projects. The

TSPLOST has been programmed into the CIP and will provide a steady funding source for the next five years.

As elastic revenue sources, SPLOST and TSPLOST collections are dependent on economic conditions and requires monitoring throughout the CIP period. Should SPLOST and TSPLOST collections accelerate or decline as the result of economic circumstances, projects would be either expanded or scaled back. During the annual CIP update, the county staff evaluate projections and any necessary revisions are submitted to the Board of Commissioners for approval. Similarly, should any changes occur in future years, proceeds will be reallocated accordingly.

The SPLOST proceeds can also be re-allocated and maximized through leveraging of outside funding sources. At this time, outside funding from the state and federal government in the form of grants-in-aid for county needs is limited. Nonetheless, the county staff will become very aggressive in seeking leveraged funding to accomplish project goals. As the CIP is updated annually, project allocations and budgets may change if leveraged funding is realized. In most cases, leveraging existing projects can preserve SPLOST and TSPLOST proceeds for use toward new or additional projects.

### Project Schedules

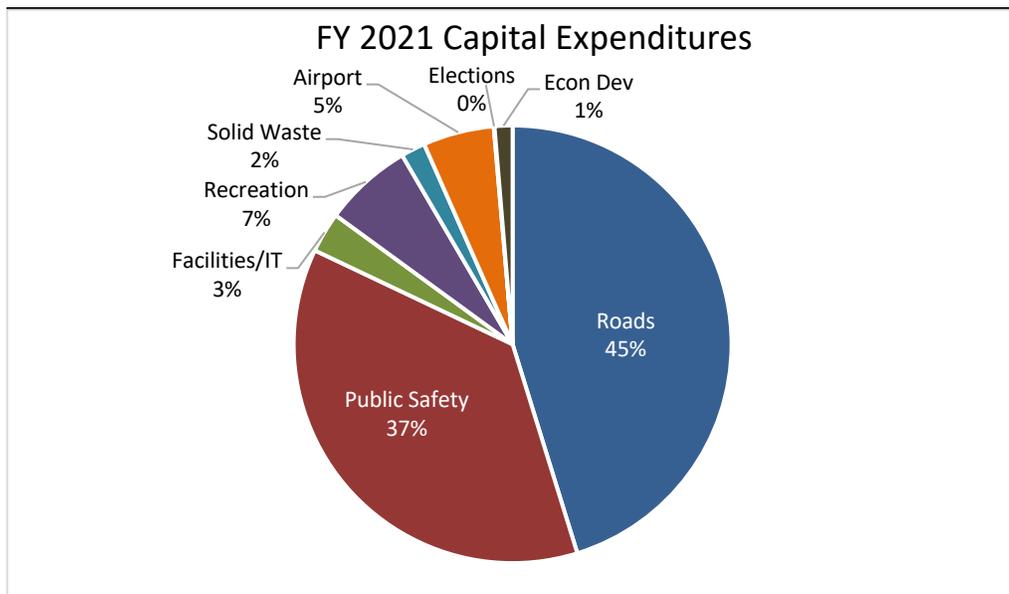

The following illustrate the project investment schedule for numerous projects through FY 2025. It should be noted that the current SPLOST 2019 collection period expires approximately mid-year in FY 2026 (or, October 2025).

Approximately 40% of CIP 2021 funding will be generated by SPLOST collections, TSPLOST an additional 40%, with the balance leveraged by both committed and non-committed state and federal grants. Currently, Roads and Public Safety consist of 82% of the forward project spending, seen in the graph below.

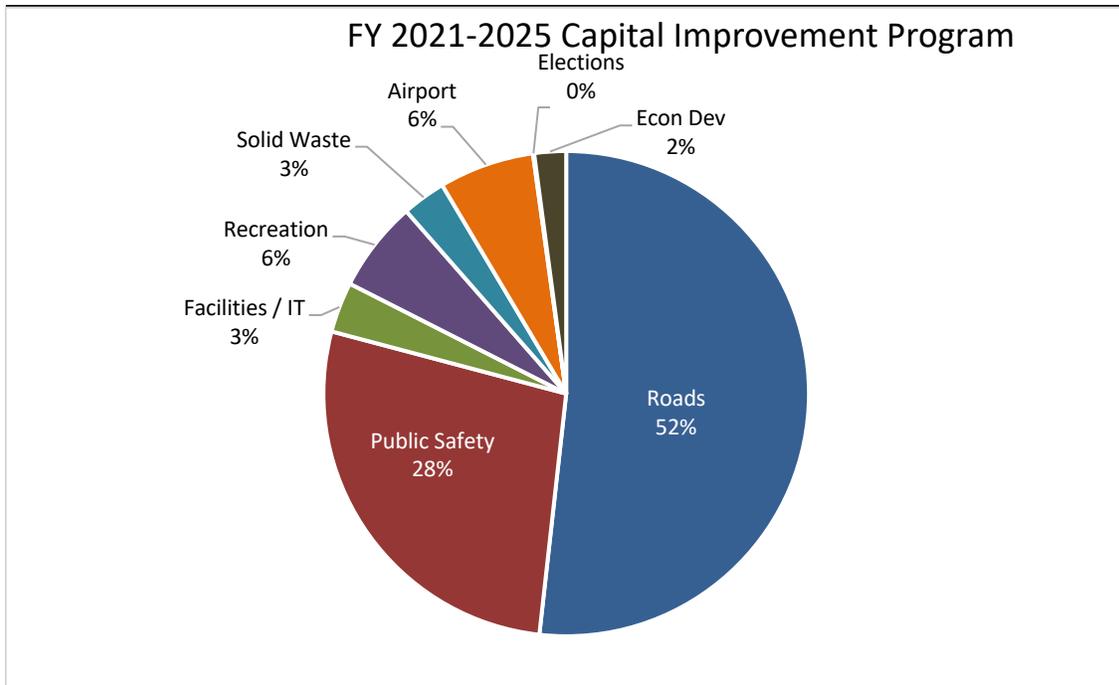

SPLOST collections have been significantly restrained since FY 2012 as a result of special interest tax exemptions approved by the Georgia General Assembly. Therefore, as the CIP 2025 program progresses, securing leveraged funding and stimulating commercial development that generates sales tax will be critical.

The total Capital Projects budget for FY 2021 is \$22.70 million, which represents a 16% decrease from FY 2020's \$26.96 million budget. All projects for this fiscal year are to come from the General Fund Capital Projects Fund.

### Current and Future Capital Expenditures

The pie charts above provide a visual from FY 2021 capital improvements expenditures by category (above) and an estimated cost over the next 5 years (below).

## Capital Budget Impact on Operating Budget

The impact of capital project operating costs on the annual budget requires careful consideration. Operating costs are a fundamental element of the County's Capital Improvement Program and the overall budget development process.

Reliable operating cost estimates are necessary from the onset of each budget cycle, as the County must determine specific ongoing expenses it will incur once a project has been completed. For example, once the Ag Complex was completed it requires staff (personnel), operating supplies, electricity, fuel, and ongoing maintenance costs to operate. And, since project components are often completed in phases, partially constructed projects generally have associated operating costs which will need to be funded in future fiscal years.

Factors such as location, size, and use of a facility determine the number of personnel and operating costs. A structure such as the new Public Safety Training Facility may require no additional personnel and minimal additional operating costs, while a facility such as an additional office for Juvenile Court Judge would require an investment in new personnel. In terms of budgeting, the project's initial operational impact may begin before completion of the project in its entirety.

Typically, recurring capital projects have minimal operating impact on the County's current or future budgets. Such projects may be scheduled for replacement or refurbishment. On occasion, there may be some operational cost savings for recurring projects. For example, a Street Maintenance Program may reduce operating expenditures associated with repairing potholes, etc. Many of the new construction or major improvements do require some additional operating

costs such as mowing, electricity, fuel, and various other maintenance costs such as equipment rental and contractual services.

On the following pages are estimated impacts of operating costs for several capital projects / purchases for FY 2021. Amounts represent an addition to or reduction of operating costs.

Fiscal Year 2021 Capital Budget Impact on Operating Budget

# Major Capital Projects Impacts

FY 2020 Capital Projects	Proposed Capital	Funding Source	Description	Budget Impact
Road Resurfacing	3,000,000	TSPLOST	Resurfacing paved roads	Maintain service level
Road Paving	2,230,000	SPLOST	Pave Miller St Ext/Colfax, Highpoint Circle, Hood	Improve service level.
Cypress Lake / Bypass Intersection Upgrade	715,000	TSPLOST/Grants	Intersections Signalization of Bypass and Cypress Lake	Improve service level.
Sheriff Vehicles	315,000	SPLOST	Purchase 9 vehicles	Replace aging fleet, lower maintenance costs
Sheriff Building Upgrade	4,155,688	SPLOST	Additional Jail and Sheriff facility	Additional space for inmate intake, evidence storage and training
Public Works Building	428,000	TSPLOST	New Public Works Building	Replace facility so that the Sheriff can move into existing space
Airport – T-Hangar	800,000	TSPLOST/Grants	Additional Airport Hangar	Increase revenue from space rentals
Fire Vehicles (Water Trucks, Apparatus)	780,000	SPLOST	Purchase 3 Water Tankers and 1 Apparatus	Help lower Insurance costs and improve fire service.

# Capital Improvement Program Summary

Revenues	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	Total

The table illustrates the TSPLOST (2018 and 2024) and SPLOST collections through the end of the referendum period in mid FY 2025.

Meanwhile, many SPLOST categorical accounts currently have carryover balances that reflect the excess of revenues over expenditures prior to FY 2021. However, there are categories that will encounter annual deficits as these balances are spent down over time.

FY 2021 Budget Highlights:

- Approximately 25 miles of resurfacing on network roads and in selected subdivisions.
- Complete paving of Miller Street Extension/Colfax Station, High Point Circle, Hood Road and a new road to access the Public Works building.
- Begin design for extension of the S&S Greenway.

# Debt Service Overview

---

## Introduction

Bulloch County uses a combination of debt and a pay-as-you-go approach to financing major projects. Examples include new street construction, building construction, and industrial site development, all of which can cost several million dollars to design and construct. In order to continue to provide routine services in the operating budget such as public safety, road maintenance and recreation, a portion of these projects or purchases are funded by selling bonds or thru lease-purchase financing.

When bonds are sold or lease-purchase financing entered into, the County receives money from the sale which it then uses to fund the project or purchase. The County must then make regular payments to pay off the principal and interest. This is similar to getting a mortgage to purchase a home and then making monthly payments to pay off the loan.

Projects are determined several years in advance of when they need to be constructed. A group of projects that will need bond funding is typically referred to as a “bond package”. Some bond packages are so large that a vote is held to determine whether to incur the debt necessary to construct them. Bonds that are voted on are called “General Obligation Bonds”. Other bonds packages can be approved by the County Commissioners only. Bonds approved by the Commissioners only are called Certificates of Obligation Bonds.

The County also uses Notes Payable for purchases financed by the Georgia Environmental Finance Authority (GEFA). A Notes Payable is a written promisory note whereby the County obtains a specific amount of money from GEFA and promises to pay it back with interest over a predetermined time period. Finally, the County enters into a Lease-Purchase agreement with companies and banks to finance specific purchases. Lease-Purchase financing is typically used to purchase roads equipment.

Type of Debt	Debt Repayment	Authorized By
General Obligation Bonds	SPLOST	Voters
Certificates of Obligation Bonds	SPLOST, Enterprise Fund	Commissioners
Notes Payable	SPLOST	Commissioners
Lease-Purchase	SPLOST, General Fund	Commissioners

## Rating Agency Analysis

Rating agencies provide an independent assessment of the relative credit worthiness of a municipal security. These agencies provide a letter grade that conveys their assessment of the ability of the borrower to repay the debt. These ratings are also a factor that is considered by the municipal bond market when determining the cost of borrowing funds (interest rate). The three

nationally recognized rating agencies (Moody’s Investor Services, Fitch Ratings and Standard and Poor’s) consider the following key factors when evaluating a debt offering:

- Economic environment – trend information / revenue to support debt
- Debt history – previous debt issues and current debt outstanding
- Debt management – debt planning and policies
- Administration – quality of County management and organizational structure
- Financial performance – County current and historical operations

The rating agencies each utilize a different system to rate debt. Moody’s uses modifiers 1 (higher end), 2 (mid-range) and 3 (lower end) to indicate ranking within each rating category. Both Fitch and Standard and Poor’s use a plus (+) and minus (-) modifier to indicate status within a rating category. Bulloch County has ratings from both Moody’s (Aa3) and Standard and Poor (A+). The table below provides a comparison of their rating systems:

	Moody’s	Standard & Poor’s	Fitch
Highest Quality	Aaa	AAA	AAA
Very High Quality	Aa	AA	AA
High Quality	A	A	A
Medium Quality	Baa	BBB	BBB
Speculative Quality	Ba	BB	BB
Highly Speculative Quality	B	B	B
Substantial Risk	Ca	CCC	CCC
Very High Levels of Risk	Caa	CC	CC
Exceptionally High Levels of Risk	C	C	C
Default	N/A	D	D

## Debt Limit

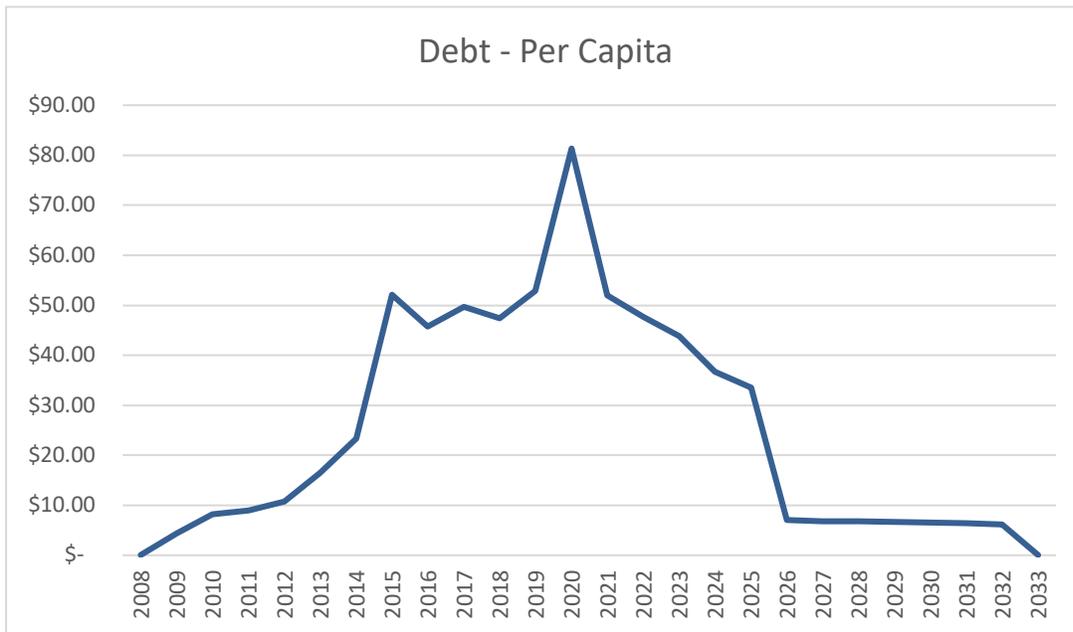

Bulloch County is governed by the State of Georgia’s restrictions on local government debt. According to State statute, “The debt incurred by any county . . . shall never exceed 10% of the assessed value of all taxable property within such county, . . . and no such county . . . shall incur any new debt without the assent of a majority of the qualified voters of such county . . .” (State of Georgia Constitution, Article IX, Section V).

In other words, Bulloch County may not incur, or issue voter approved debt greater than 10% of its total taxable value. The assessed value of the County in 2020 is \$2,105,884,466, allowing a debt limit of \$210,588,446. Currently, the County has \$11,644,069 debt subject to the state limitations (0.6% of total taxable value). Though the service demands of Bulloch County continues to grow, the County has no intent to ever reach the legal debt limit. In fact, County management adopted financial policies to ensure utilization of debt as a funding source is minimized. One way by which the County achieves this is through adequate planning of capital and operating expenditures during the preparation of the County’s annual budget and 5-year plan. The County does have \$21,000,176 of outstanding debt for projects/purchases approved by the

Commissioners and not subject to voter approval or state limitation, which equal 1.0% of assessed value of the County.

## Debt Per Capita

Debt per capita reflects past and future payments for General Obligation Debt, Certificate of Obligation Bonds, Notes Payable and Lease-Purchase. The peek in FY 2020 reflects the last payment on General Obligation debt for infrastructure improvements at the I-16/Highway 301 industrial park and the first payment on the new public safety radio upgrade/Sheriff building project.

## Outstanding Debt

Each year the County makes principal and interest payments on the debt it has issued. This Section details the debt by fiscal year.

Fiscal Year	Principal	Interest	Total
2021	3,319,519	502,799	3,822,318
2022	3,122,717	416,919	3,539,636

<b>Total</b>	<b>18,901,691</b>	<b>2,098,485</b>	<b>21,000,176</b>

## County Use of Debt

While there are many types of debt, the County traditionally has entered into agreements for lease-purchases and notes payable or issued bonds to finance large capital items or construction. Since debt service is a contractual obligation, the County includes all principal and interest payments as part of the annual budget. The specific purposes for which debt instruments were used in the past are described in more detail below.

# Debt Service Summary

As of the end of FY 2020, the County had \$18.9 million in outstanding debt. The principal debt payment for this year is \$3.3 million. The table below summarizes each bond/loan the County has.

Debt	Issue Date	Maturity Date	Outstanding Balance	Interest Rate	Current FY Payment
Recycling Processing Facility	7/1/12	8/1/32	420,089	3.81%	27,913
SPLASH Water Park Expansion	10/20/16	11/1/31	6,040,000	2-3%	455,000

<b>Total</b>	<b>3,886,341</b>

\*This figure includes principal and interest as the total cost of debt service must be budgeted.

# Recycling Processing Facility

---

## Debt Purpose

This note payable was used to construct the County’s Recycling Processing Facility.

## Debt Schedule

The original amount borrowed for the Recycling Processing Facility was \$607,292. This loan requires annual installments of principal and interest at a rate of 3.81%, beginning July 1, 2012 through August 1, 2032. The debt service payment this year equals \$43,434, of which \$27,913 is principal and \$15,521 is interest. The County received an additional 2019 SPLOST allocation to payoff this debt (\$64,000 in FY 2021). Debt service requirements to maturity are as follows:

### Recycling Processing Facility Debt Service Schedule

Fiscal Year	Principal Payment	Interest Payment	Total Payment	Balance at FY End
2021	27,913	15,521	43,434	392,175
2022	28,995	14,439	43,434	363,179
2023	30,119	13,314	43,434	333,060
2024	31,287	12,146	43,434	301,772

<b>Total</b>	<b>420,081</b>	<b>104,741</b>	<b>524,828</b>	

# SPLASH

---

## Debt Purpose

A Certificate of Participation, a lease-purchase instrument that functions similarly to bonds, was used to expand and improve the Splash in the 'Boro water park. The addition included a wave pool, play structures, upgrading the entryway and other customer enhancements.

## Debt Schedule

The original amount borrowed for this lease was \$7,360,000. This lease requires annual installments of principal and interest at rates ranging from 2-3%, beginning October 20, 2016 through November 1, 2031. The debt service payment this year equals \$614,175 of which \$455,000 is principal and \$159,175 is interest. Debt service requirements to maturity are as follows:

### SPLASH Debt Service Schedule

Fiscal Year	Principal Payment	Interest Payment	Total Payment	Balance at FY End
2021	455,000	159,175	614,175	5,585,000

# Sheriff/Finance/E911

---

## Debt Purpose

This lease-purchase agreement was used to purchase Financial software, an E-911 Telephone System and Recorder, an E911 Radio Console Upgrade and to pay off a prior loan at a higher interest rate for Sheriff software.

## Debt Schedule

The original amount borrowed for this lease was \$1,261,500. This lease requires annual installments of principal and interest at a rate of 1.43%, beginning August 26, 2016 through August 26, 2020. The debt service payment this year equals \$259,515, of which \$255,856 is principal and \$3,659 is interest. Debt service requirements to maturity are as follows:

### Sheriff/Finance/E911 Equipment Debt Service Schedule

Fiscal Year	Principal Payment	Interest Payment	Total Payment	Balance at FY End
2021	255,856	3,659	259,515	0
<b>Total</b>	<b>255,856</b>	<b>3,659</b>	<b>259,515</b>	

# Transportation/Recreation Equipment

---

## Debt Purpose

This lease-purchase agreement was used to acquire various pieces of equipment for both the Transportation and Recreation departments. To date, Transportation received three motor graders. The bid process is still underway to obtain other items for which this debt was intended.

## Debt Schedule

The original amount borrowed for this lease was \$1,206,733. This lease requires annual installments of principal and interest at a rate of 1.944%, beginning December 29, 2017 through December 29, 2021. The debt service payment this year equals \$250,729, of which \$241,257 is principal and \$9,471 is interest. Debt service requirements to maturity are as follows:

### Transportation/Recreation Debt Service Schedule

Fiscal Year	Principal Payment	Interest Payment	Total Payment	Balance at FY End
2021	241,257	9,471	250,728	245,947
2022	245,947	4,781	250,728	0
<b>Total</b>	<b>487,204</b>	<b>14,252</b>	<b>501,456</b>	

# Transportation Equipment

---

## Debt Purpose

This lease-purchase agreement will be used to acquire various pieces of equipment for the Transportation department. The equipment that may be purchased with the lease includes: three motorgraders, two backhoes, two culvert cleaning jets, one front end loader, two dump trucks, one tractor and one fuel truck.

## Debt Schedule

The original amount borrowed through this lease was \$1,565,000. This lease requires annual installments of principal and interest at a rate of 2.72%, which began April 15, 2019 and will mature on April 15, 2023. The debt service payment this year equals \$330,021, of which \$340,493 is principal and \$25,529 is interest. Debt service requirements to maturity are as follows:

### Transportation Debt Service Schedule

Fiscal Year	Principal Payment	Interest Payment	Total Payment	Balance at FY End
2021	304,493	25,529	330,021	634,057
2022	312,775	17,246	330,021	321,282

# Cost of Government Services

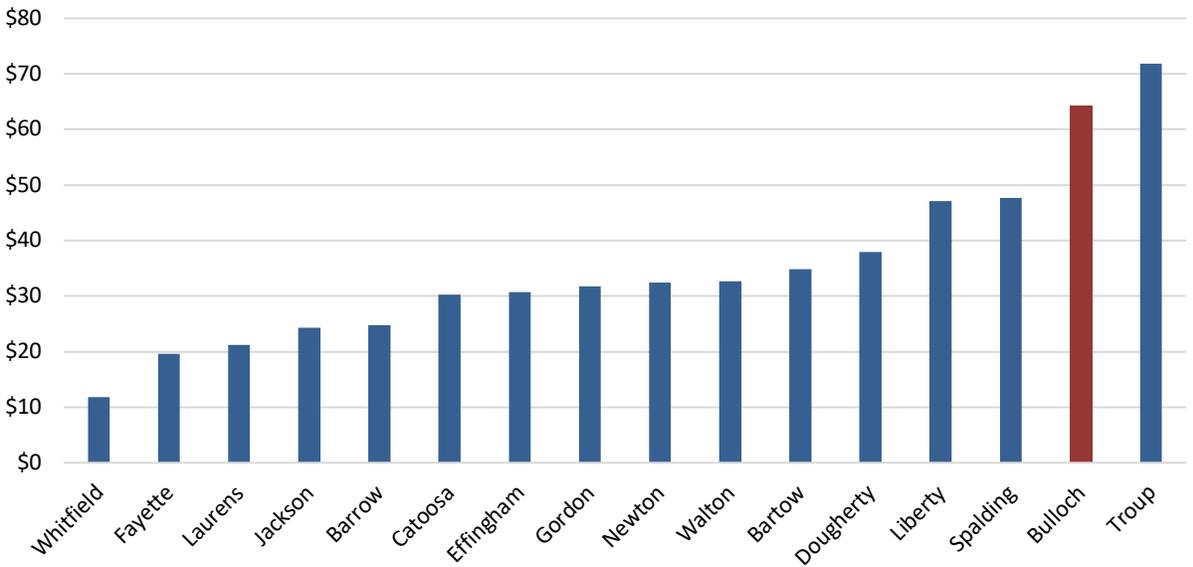

Excludes in order to accurately represent costs, Solid Waste for Bulloch, Liberty, Spalding and Whitfield counties. The other Counties account for these costs in an Enterprise Fund.

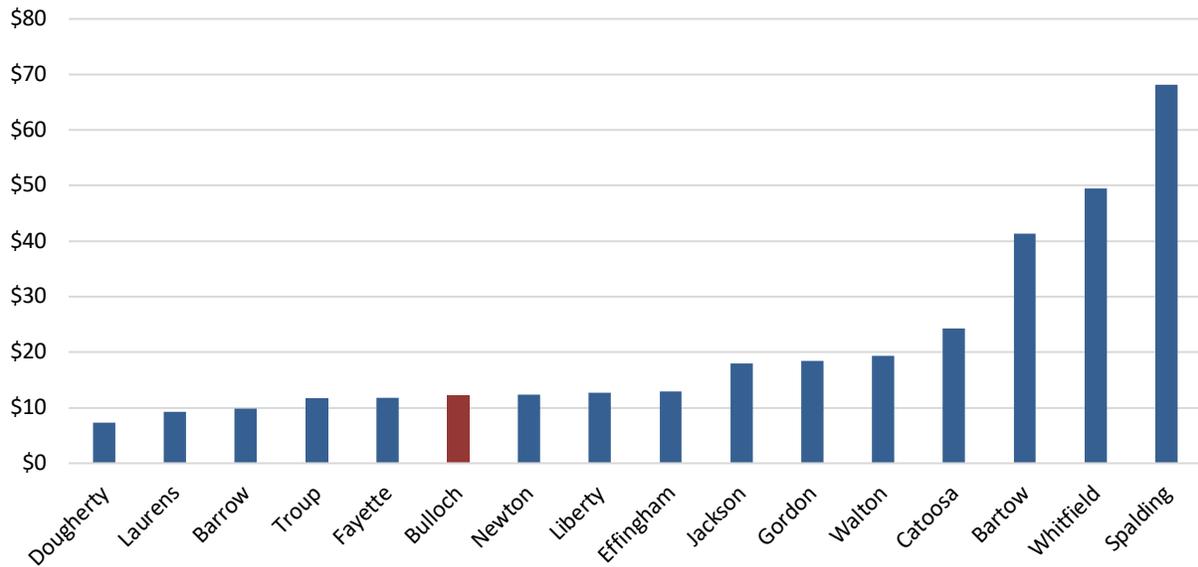

### Health and Welfare Expenditures - Per Capita

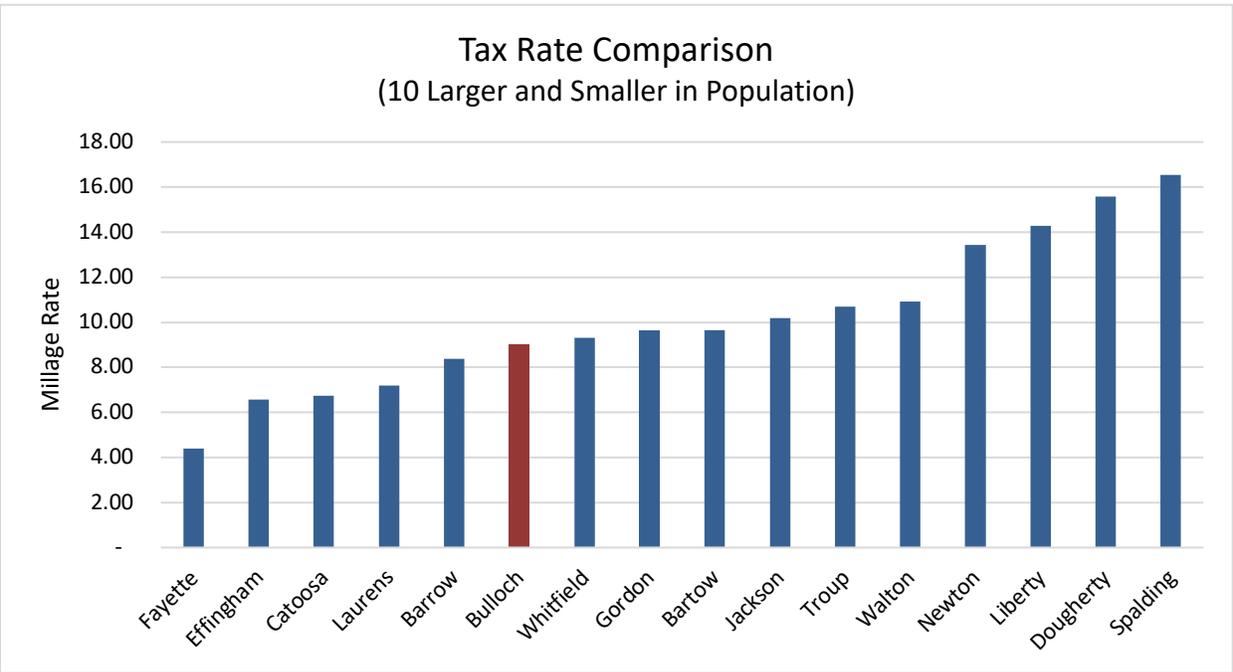

### Culture and Recreation Expenditures - Per Capita

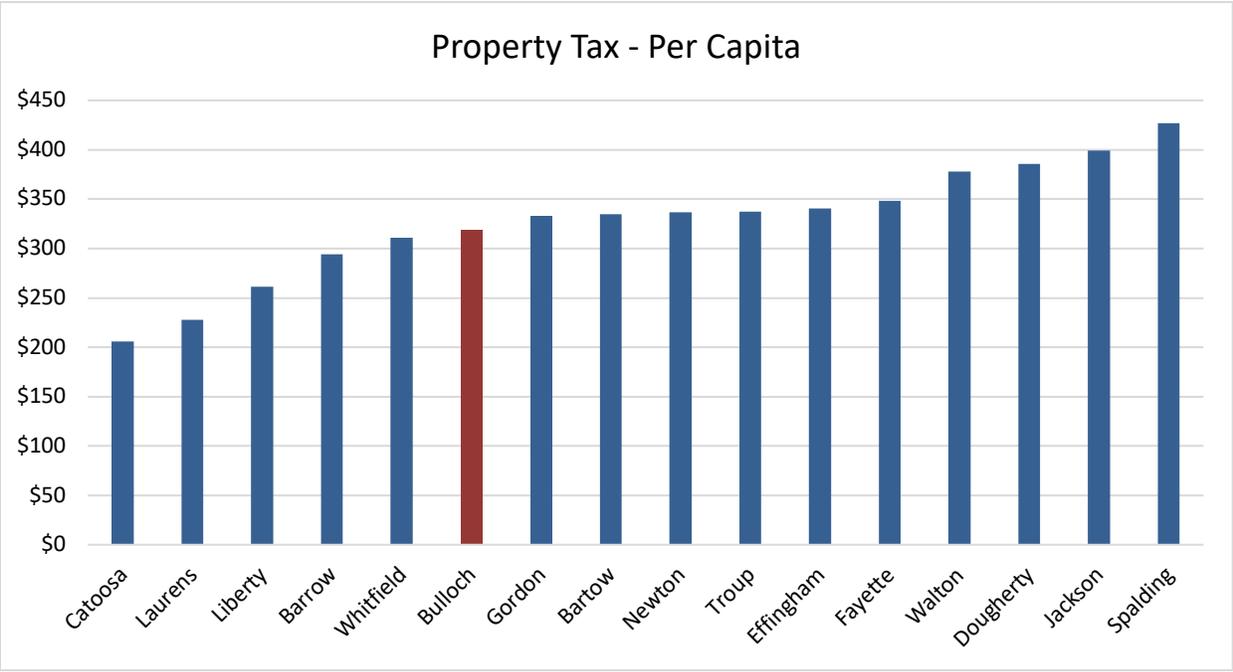

### Housing and Development Expenditures - Per Capita

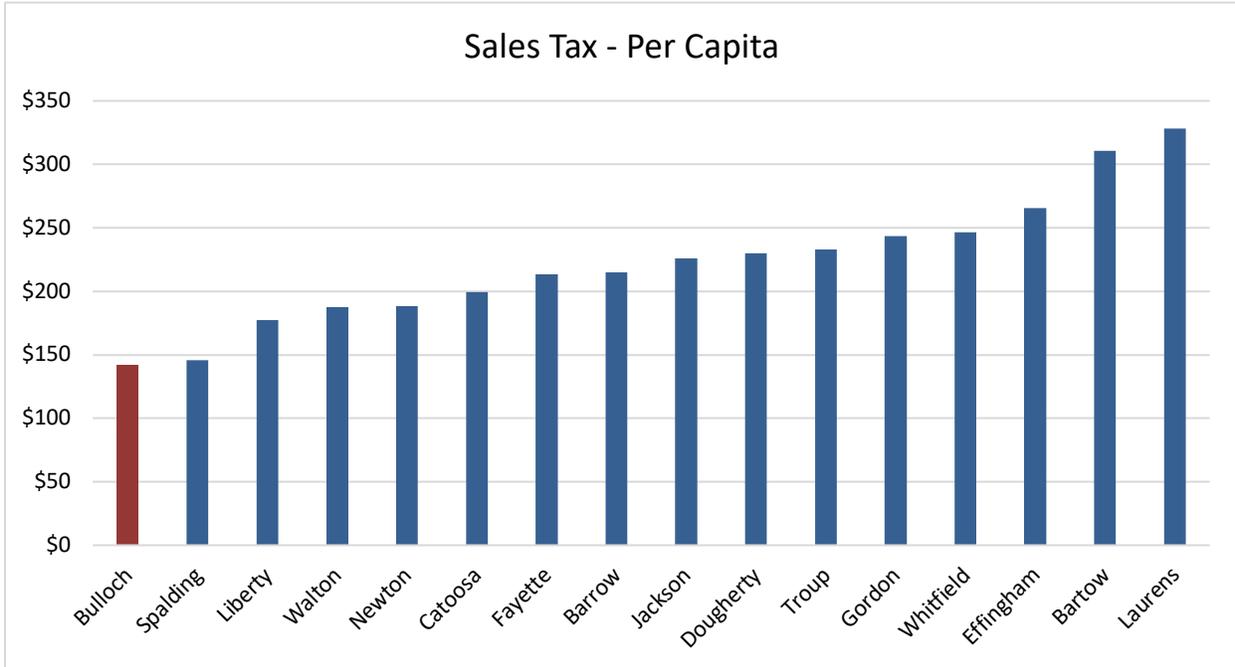

# Revenue Comparison

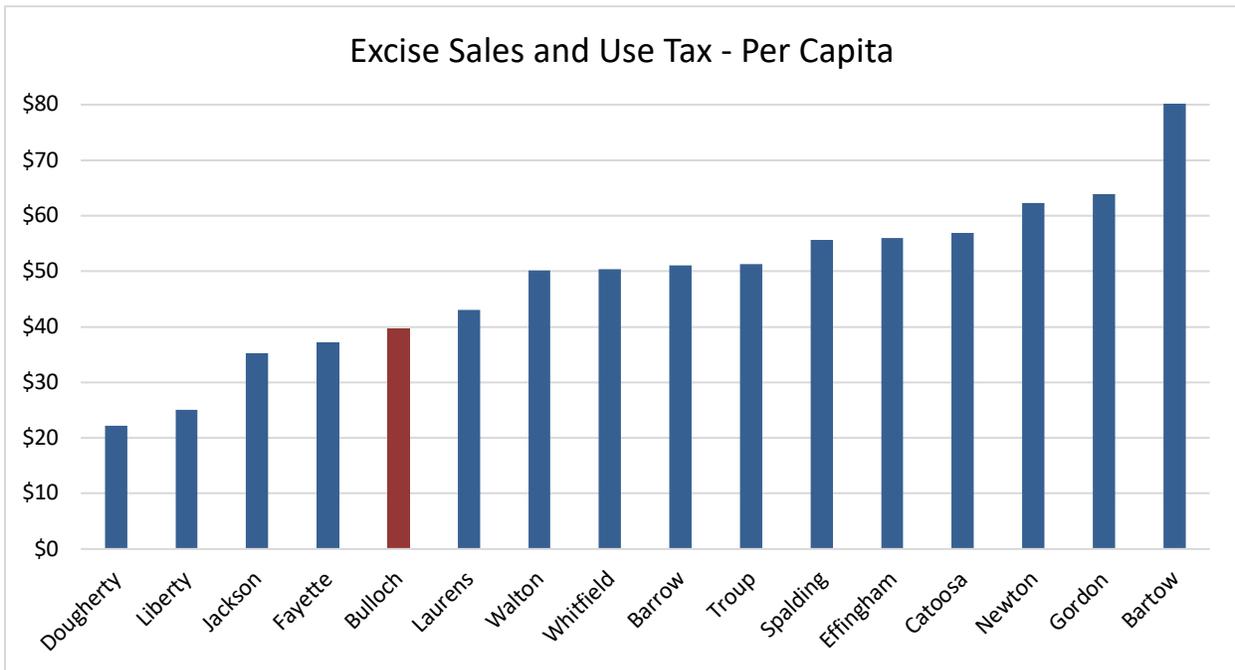

\* Bulloch County’s current Tax Rate is 12.34 mils. However, Bulloch is one of 7 counties that gives the Board of Education the 1% Local Option Sales Tax (LOST), which is used to offset property taxes. In order to make an accurate comparison, the table has been adjusted. If Bulloch County collected the LOST, the property tax rate would be reduced to 9.02 mils.

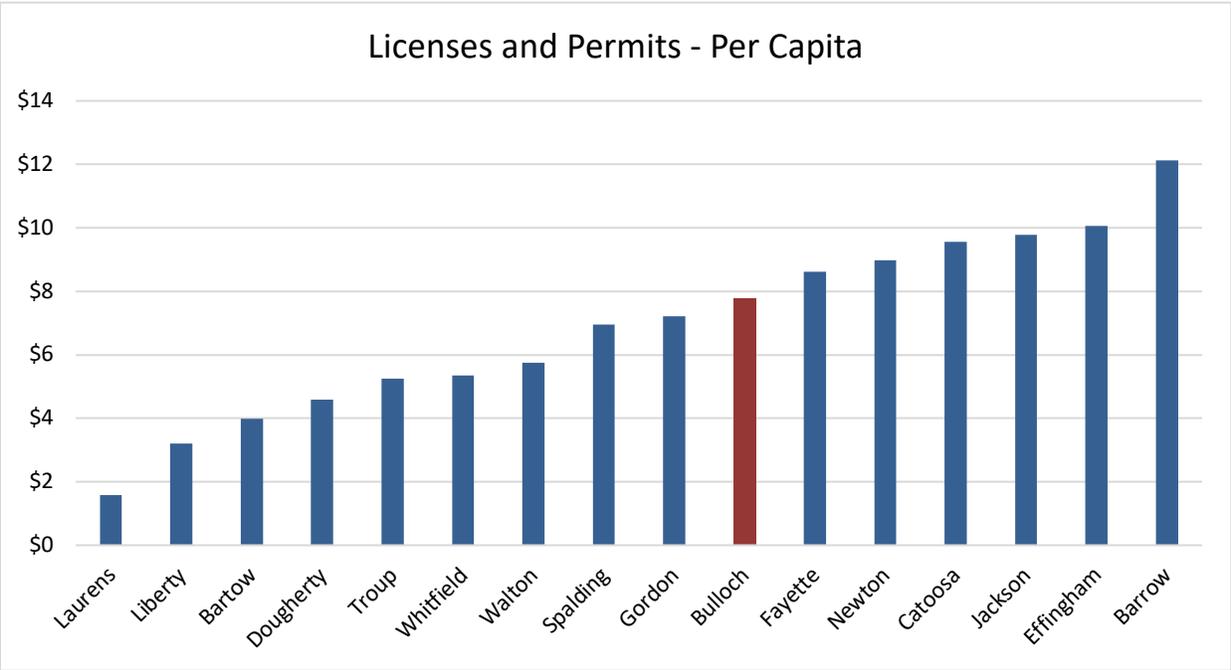

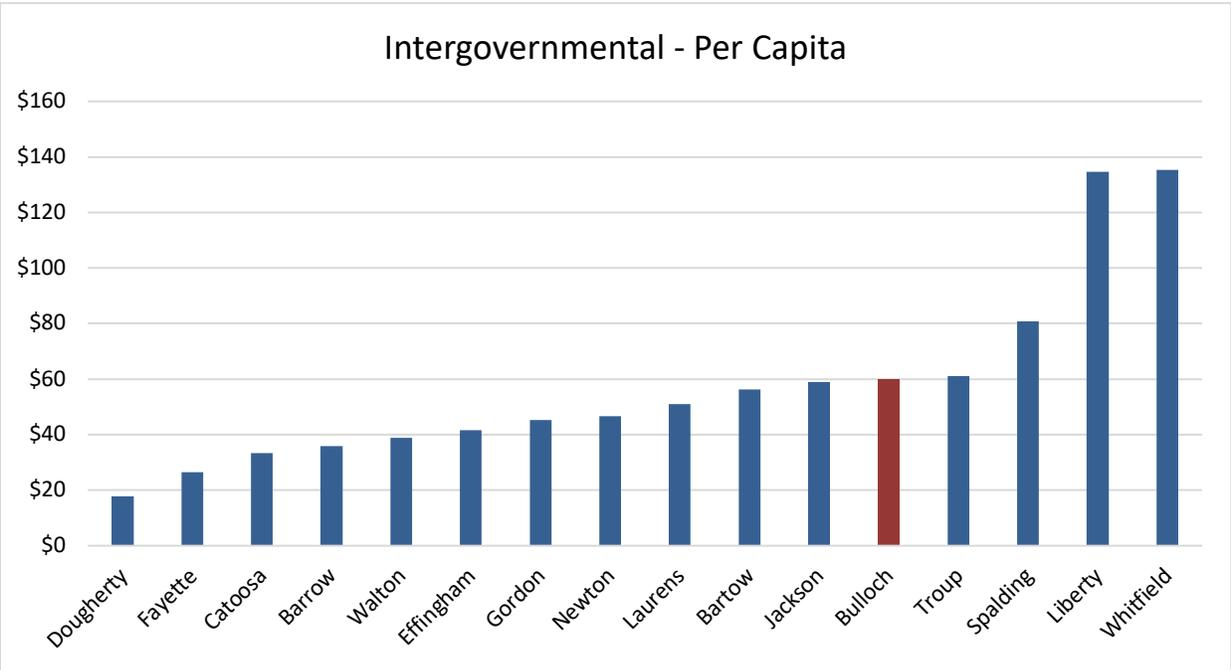

Includes Local Option Sales Tax and Special Purpose Local Option Sales Tax.

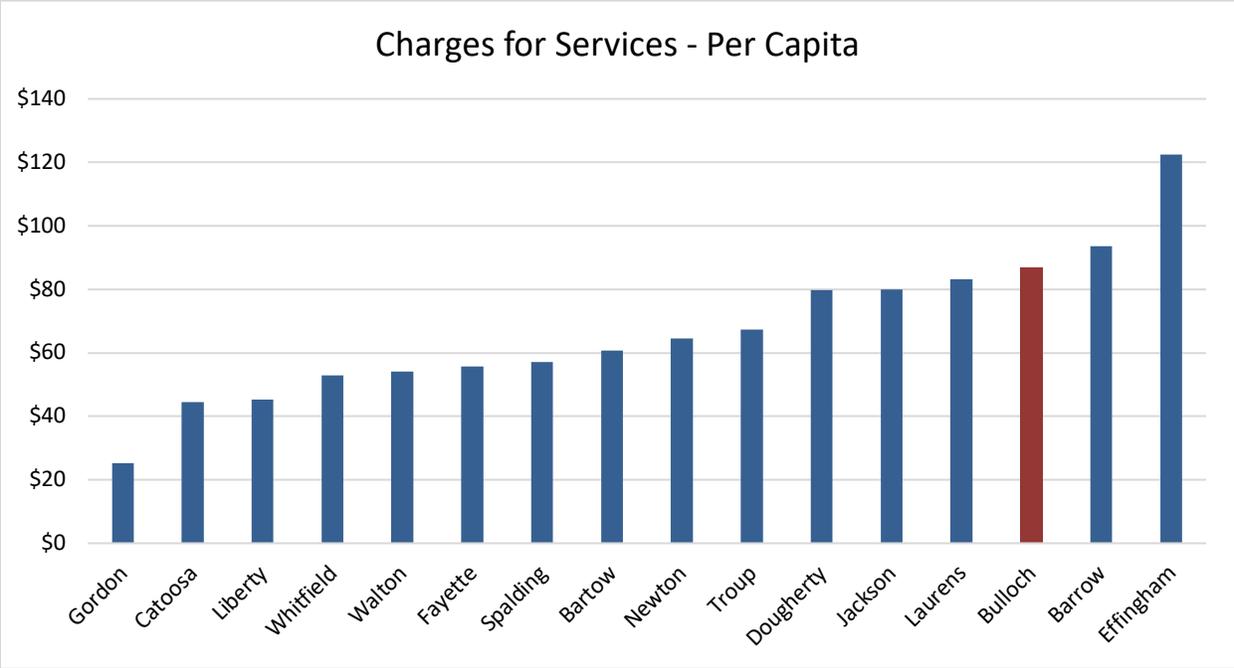

Includes Franchise, Hotel/Motel, Alcoholic Beverage, Occupation and Insurance Premium tax

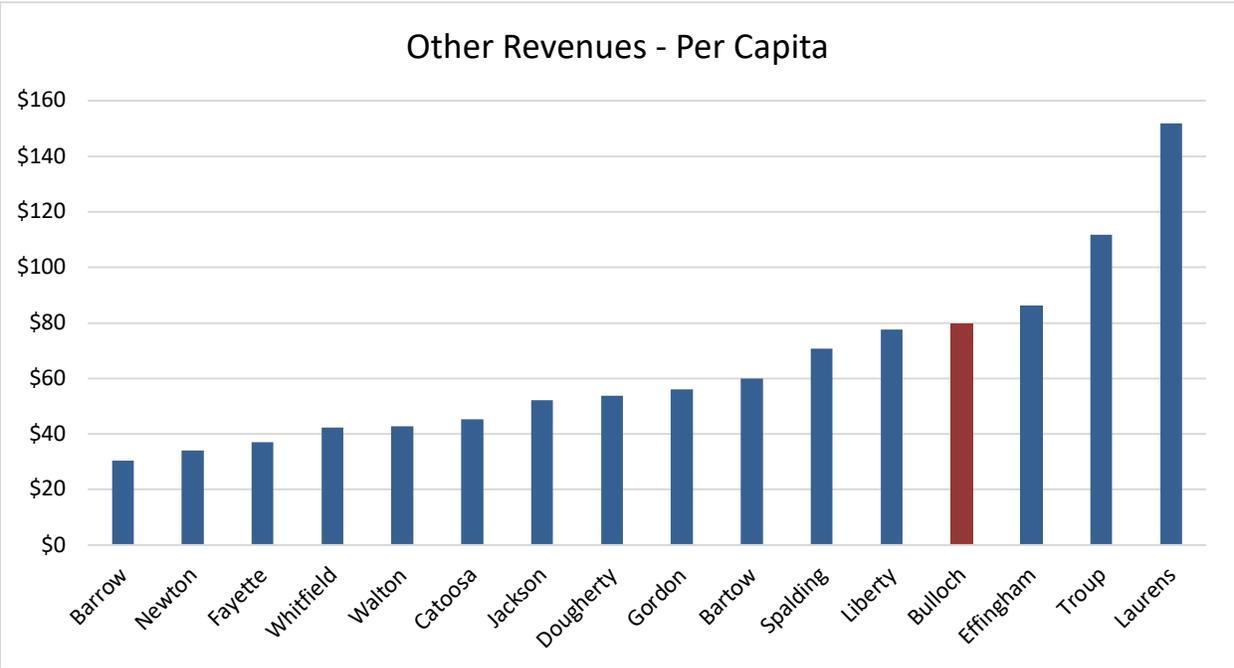

Includes Alcoholic Beverage, Non-Business, Building Permits, etc.

Includes State Grants.

Includes charges for Court, Fire Protection, E911, Ambulance fees, etc.

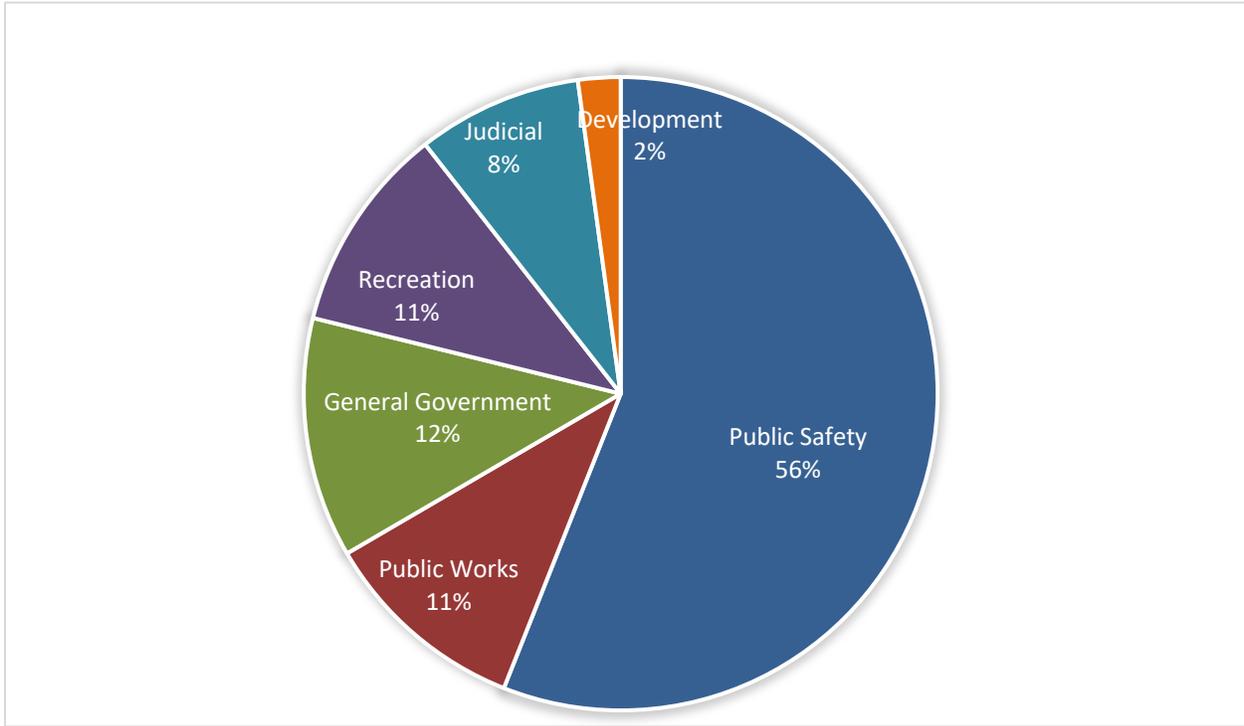

Includes Recreation fees, Fines and Forfeitures, Interest Revenue, Rents and Royalties, etc.

# Glossary

---

**ACCOUNTING PERIOD:** A period for which financial records are prepared, e.g., a month, quarter, or fiscal year.

**ACCOUNTING SYSTEM:** The total set of records and procedures which are used to record, classify, and report information on the financial status and operations of an entity.

**ACCRUAL BASIS:** The method of accounting under which revenues are recorded when they are earned (whether cash is received at that time) and expenditures are recorded when goods and services are received (whether cash disbursements are made at that time or not).

**ACCUMULATED DEPRECIATION:** A valuation account to record the accumulation of periodic credits made to record the expiration of the estimated service life of fixed assets.

**ACTUARIAL BASIS:** A basis used in computing the amount of contributions to be made periodically to a fund or account so that the total contributions plus the compounded earnings thereon will equal the required payments to be made from the fund. The factors considered in arriving at the amount of these contributions include the length of time over which each contribution is to be held and the rate of return compounded on such contribution over its life. A pension trust fund for a public employee retirement system is an example of a fund concerned with actuarial basis data.

**ADOPTION OF BUDGET:** The official enactment by the legislative body establishing the legal authority for officials to obligate and expend resources.

**ALLOCATION:** To set aside or designated funds for a specific purpose. An allocation does not authorize the expenditure of funds.

**ALLOT:** To divide an appropriation into amounts which may be encumbered or expended during an allotment period.

**AMORTIZATION:** To liquidate a debt by payments at regular intervals over a specified time period.

**APPROPRIATION:** An authorization made by the legislative body of a government which permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are usually made for fixed amounts and are typically granted for a one-year period.

**ASSESSED VALUE:** The fair market value of both real (land and building), and personal property as determined for the purpose of setting property taxes.

**ASSET:** Property owned by a government.

**ATTRITION:** A method of achieving a reduction in personnel by not refilling the positions vacated through resignation, retirement, transfer, or means, other than a layoff.

**AUDIT:** A systematic examination of resource utilization, concluding in a written report. It is a test of management's internal accounting controls and is intended to: ascertain whether financial statements fairly present financial positions and results of operations; test whether transactions have been legally performed; identify areas for possible improvements in accounting practices and procedures; ascertain whether transactions have been recorded accurately and consistently; and, ascertain the

stewardship of officials responsible for governmental resources.

**BALANCED BUDGET:** A budget in which estimated expenditures equal estimated revenues and surplus. At the end of the fiscal year, the actual expenditures must be equal to or less than the actual revenue and surplus.

**BALANCE SHEET:** A statement presenting the financial position of an entity by disclosing the value of its assets, liabilities, and equities at a specified date.

**BASIC FINANCIAL STATEMENTS:** Those financial statements, including notes thereto, which are necessary for a fair presentation of the financial position and results of operations of an entity in conformity with Generally Accepted Accounting Principles (GAAP). Under Statement 1, basic financial statements include a balance sheet, an “all-inclusive” operating statement. For proprietary funds, pension trust funds, and nonexpendable trust funds, a statement of changes in financial position is included.

**BONDS:** A written promise to pay (debt) a specified sum of money (called principal or face value) at a specified future date (called the maturity date(s)), along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are typically used for long-term debt.

**BOND ANTICIPATION NOTES (BANS):** Short-term interest-bearing notes issued in anticipation of bonds to be issued later. The notes are retired from proceeds of the bond issue to which they are related.

**BUDGET:** A plan of organizational operations embodying an estimate of proposed means of financing them. Used without a modifier, the term usually indicates a financial plan for a single fiscal year. The term “budget” is used in two senses in practice. Sometimes, it designates the financial plan presented to

the appropriating body for adoption, and sometimes it designates the plan finally approved by that body. It is usually necessary to specify whether the budget under consideration is preliminary and tentative or whether it has been approved by the appropriating body.

**BUDGET CALENDAR:** The schedule of key dates or milestones which a government follows in the preparation and adoption of the budget.

**BUDGET COMMITTEE:** The Budget Committee is made up of the County Manager, Assistant County Manager, Chief Financial Officer, Assistant Chief Financial Officer, and Special Projects Manager who prepares the draft budget document.

**BUDGET DOCUMENT:** The official written statement prepared by the budget office and supporting staff which presents the proposed budget to the legislative body.

**BUDGET MESSAGE:** A general discussion of the proposed budget presented in writing as a part of, or supplement, to the budget document. The budget message explains principal budget issues against the background of financial experience in recent years and presents recommendations made by the chief executive.

**BUDGETARY CONTROL:** The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

**BUDGETARY EXPENDITURES:** Expenses incurred that were budgeted.

**CAPITAL ASSETS:** Assets of significant value and having a useful life of several years.

**CAPITAL BUDGET:** A plan of proposed capital expenditures and the means of financing them. The capital budget is usually enacted as part of the complete annual budget,

which includes both operating and capital outlays. The capital budget should be based on a capital facility plan.

**CAPITAL IMPROVEMENT PLAN (CIP):** A plan for capital expenditures to be incurred each year over a fixed period of several future years setting forth each capital project, identifying the expected beginning and ending date for each project, the amount to be expended in each year, and the method of financing those expenditures.

**CAPITAL OUTLAYS:** Expenditures for the acquisition of capital assets.

**CAPITAL PROJECTS:** Projects which purchase or construct capital assets. Typically, a capital project encompasses a purchase of land and/or the construction of a building or facility.

**CASH:** An asset account reflecting currency, coin, checks, postal and express money orders, and banker's drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits. All cash must be accounted for as a part of the fund to which it belongs. Any restrictions or limitations as to its availability must be indicated in the records and statements.

**CASH BASIS:** A basis of accounting under which transactions are recognized.

**CERTIFICATE OF DEPOSIT:** A negotiable or non-negotiable receipt for monies deposited in a bank or other financial institution for a specified period for a specified rate of interest.

**COMBINED STATEMENTS-OVERVIEW:** The five basic financial statements, comprising the first of the financial reporting pyramid's three reporting levels containing GAAP basic financial statements, include: (1) Combined Balance Sheet – All Fund Types and Account Groups; (2) Combined Statement of Revenues, Expenditures, and Changes in Fund Types; (3) Combined Statement of

Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - General and Special Revenue Fund Types (and similar governmental fund types for which annual budgets have been legally adopted); (4) Combined Statement of Revenues, Expenses, and Changes in Retained Earnings (or Equity) – All Proprietary Fund Types; (5) Combined Statement of Changes in Financial Position – All Proprietary Fund Types; and (6) Notes to the Financial Statements. Trust Fund operation may be reported in (2), (4), and (5) above, as appropriate, or separately. The Combined Statements-Overview are also referred to as the "liftable" general purpose financial statements (GPFS).

**COST:** (1) The amount of money or other consideration exchanged for property or services. (2) An expense.

**COST ACCOUNTING:** A method of accounting which provides for assembling and recording of all the elements of cost.

**COST ANALYSIS:** The process of defining a service and establishing the cost of providing the service.

**COST-BENEFIT ANALYSIS:** Evaluation technique that compares a service's costs with its monetary effects and derives a "cost-benefit ratio." For example, a cost-benefit analysis of a burglary unit might compare its personnel and non-personnel costs with the monetary value of the stolen property recovered. If the analysis revealed that the unit had a 1:5 cost-benefit ratio, it would mean that for every \$1 that the unit cost to operation, \$5 in stolen property were recovered.

**COST-EFFECTIVENESS ANALYSIS:** Evaluation technique that compares a service's costs with its effects expressed in non-monetary terms. For example, a cost-effectiveness analysis of a homicide unit might compare its costs with the number of murders cleared by arrest or conviction. Such a comparison

would derive a UNIT COST per murder cleared by arrest or conviction.

**CURRENT ASSETS:** Those assets which are available, or can be made readily available, to finance current operations or to pay current liabilities; assets which will be used up or converted into cash within one year. Examples are cash, temporary investments, and taxes receivable, which will be collected within one year.

**DEBT SERVICE:** Payment of interest and repayment of principal to holders of a government's debt instruments.

**DEFICIT:** (1) The excess of an entity's liabilities over its assets. (2) The excess of expenditures or expenses over revenues during a single accounting period.

**DEMAND DEPOSIT:** A deposit of monies where the monies are payable by the bank upon demand.

**DEPRECIATION:** (1) Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy, or obsolescence. (2) That portion of the cost of a capital asset which is charged as an expense during a period.

**DIRECT EXPENSES:** Those expenses which can be charged directly as a part of the cost of a product or service, or of a department or operating unit, as distinguished from overhead and other indirect costs which must be prorated among several products or services, departments, or operating units.

**EFFECTIVENESS:** A measure of performance that assesses the extent to which an organization is achieving its stated objectives.

**EFFICIENCY MEASURES:** A measure of performance that relates the goods and services produced by an organization to the amount of resources used to produce them. Examples of efficiency measures include cost

per arrest, cost per building permits issued, and cost per vehicle mile.

**ENCUMBRANCE:** Obligations in the form of purchase orders, contracts, or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or when an actual liability is set up.

**ENTERPRISE FUND:** A fund established to account for operations (a) that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body had decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Examples of Enterprise Funds are those for water, sewer, gas, and electric utilities.

**ENTRY:** The act of recording a financial transaction in a JOURNAL or LEDGER.

**ESTIMATED USEFUL LIFE:** The amount of time (usually expressed in years) that a building, piece of equipment, or other FIXED ASSET is expected to be in active use.

**EXPENDITURES:** Decreases in net financial resources. Expenditures include current operating expenses, which require the current or future use of net current assets, debt service, and capital outlays.

**EXPENSES:** See EXPENDITURES.

**FIDUCIARY FUND:** Fund established to account for assets held by the County in the Capacity of a trustee or an agent.

**FISCAL YEAR:** A 12-month period designated as the operating year by an entity. For

Bulloch County, the fiscal year is from July 1<sup>st</sup> to June 30<sup>th</sup> of the following year.

**FIXED ASSETS:** Assets of a long-term character which are intended to continue to be held or used, such as land, buildings, and improvements other than buildings, machinery, and equipment.

**FIXED CHARGES:** Current operating expenditures, the amount of which is more or less fixed. Examples include interest, insurance, and contributions to retirement systems.

**FIXED COST:** A cost such as rent that does not change with increases or decreases in the amount of services provided.

**FLOAT:** The amount of money represented by checks outstanding and in the process of collection.

**FLOATING INTEREST RATE:** Any type of debt instrument, such as credit, bonds, loans, or mortgages, that do not have a fixed rate of interest over the life of the instrument. Rates are usually based on current market rates. Also known as a variable or adjustable rate.

**FULL FAITH AND CREDIT:** A pledge of the general taxing power of a government to repay debt obligations (typically used in reference to bonds).

**FULL-TIME EQUIVALENT (FTE):** The number of hours an employee is expected to work. Forty hours per week is full time or 1.0 FTE. Twenty hours per week is half time or .5 FTE.

**FUND:** An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves, and equities which are segregated for the purpose of carrying out specific activities or attaining certain objectives.

**FUND BALANCE (EQUITY):** The excess of an entity's assets over its liabilities. A negative fund balance is sometimes called a deficit.

**FUND MANAGER:** A person assigned a set of responsibilities for a given fund and its resources within the County.

**GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP):** Uniform minimum standards and guidelines to financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application but also detailed practices and procedures. GAAP provides a standard by which to measure financial presentations. The primary authoritative statement on the application of GAAP to state and local governments is the National Council on Governmental Accounting's Statement 1. Every government should prepare and publish financial statements in conformity with GAAP. The objectives of governmental GAAP financial reports are different from and much broader than, the objectives of business enterprise GAAP financial reports. (Note: Although this is a generally accepted definition, it comes from the accounting organization and does not necessarily reflect the best standard. An example of the problems these standards can create: under certain conditions, GAAP defines the purchase of some capital equipment as an "investment," but the training of human resources to run that equipment is called an "expense.")

**GENERALLY ACCEPTED AUDITING STANDARDS (GAAS):** Measures of the quality of the performance of auditing procedures and the objectives to be attained through their use. They are concerned with the auditor's professional qualities and with the judgment exercised in the performance of an audit. Generally accepted auditing standards have been prescribed by (1) the

American Institute of Certified Public Accountants (AICPA) and (2) the U.S. Government Accountability Office (GAO) in Standards for Audit of Governmental Organizations, Programs, Activities, & Functions.

**GENERAL AND OPERATIONS EXPENSE:** An element of INDIRECT COST necessary for the operations of the organization providing the service, e.g., operations cost of staff units like accounting or travel.

**GENERAL FUND:** The County's principal operating fund, which is supported by taxes, fees, and other revenues that may be used for any lawful purpose. The fund of the County that accounts for all activity not specifically accounted for in other funds. It includes such operations as sheriff, EMS, engineering, planning, finance, and administration.

**GENERAL GOVERNMENT:** When a schedule refers to the "General Government," it includes the General Fund, Recreation, etc., in addition to all County property tax revenues and the related direct allocations to funds outside of the General Government.

**GENERAL OBLIGATION BONDS:** When a government pledges its full faith and credit to the repayment of the bonds it issues, then those bonds are general obligation (GO) bonds. Sometimes the term is also used to refer to bonds which are to be repaid from taxes and other general revenues.

**GENERAL PURPOSE FINANCIAL STATEMENTS (GPFS):** Those basic financial statements which comprise the minimum acceptable fair presentation in conformity with GAAP. As such, they constitute the minimum acceptable scope of independent annual GAAP audits. Under 1968 GAAFR, the GPFS included financial statements for each individual fund and account group maintained by a government. In Statement 1, the NCGA redefined governmental GPFS

to consist of financial statements for each of the eight fund types in use and for both account groups presented in separate adjacent columns on the financial reporting pyramid's five Combined Statements Overview.

**GOVERNMENTAL ACCOUNTING:** The composite activity of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of governments.

**GOVERNMENTAL FUND TYPE:** Funds used to account for the acquisition, use, and balances of expendable financial resources and the related current liabilities, except those accounted for in proprietary and fiduciary funds. In Bulloch County, the General, Special Revenue, and Capital Project Funds are all Governmental Fund Types.

**GRANT:** A contribution of assets (usually cash) by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specified purposes.

**INDIRECT COST:** A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service. An indirect cost is incurred when a resource is shared by many services, and thus it becomes difficult to allocate to any one service a fair percentage of the costs of that resource, e.g., light, heat, supplies, building space, etc.

**INDIRECT COST RATE:** A rate established by a federal, state, or other authorized auditing agency to provide for all indirect costs.

**INFLATION:** A rise in the general price level caused by an increase in the volume of money and credit relative to available goods and services. Inflation not only increases the costs of services but also complicates the comparison of service costs derived over

several years. Differences in service costs may be due to inflation as well as to changes in productivity or the mode of service delivery.

**INFRASTRUCTURE:** The underlying foundation, especially the basic installations and facilities, on which the continuance and growth of a jurisdiction depends, i.e., road, sewer, and water systems. These systems are considered essential for the functioning of a community or society.

**INTERNAL CONTROL:** A plan of organization for purchasing, accounting, and other financial activities which, among other things, provides that the duties of employees are subdivided so that no single employee handles a financial action from beginning to end.

**INTERNAL SERVICE FUND:** Funds used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

**INVENTORY:** The quantity of materials and supplies in stock which is available for use in providing an organization's services; e.g., paper, or office supplies.

**INVESTMENT:** Securities and real estate purchased and held for the production of income in the form of interest, dividends, rentals, or base payments.

**INVESTMENT INSTRUMENT:** The specific type of security which a government purchases and holds.

**JOINT FINANCING:** The provision of funds for a project from two or more sources (such as other governmental agencies, authorities, or special districts).

**JOURNAL:** An accounting record which lists financial transactions chronologically as they occur. It usually organizes these transactions by the object for which they were incurred,

e.g., personnel salaries, materials, and supplies, or fixed assets.

**LEASE-PURCHASE FINANCING:** Local governments utilizing the lease/purchase method prepare specifications for a needed public works project and take steps to have it constructed by a private company or authority. The facility is then leased by the municipality at an annual or monthly rental. At the end of the lease period, the title to the facility can be conveyed to the municipality without any future payments. The rental over the years will have paid the total original cost-plus interest.

**LEDGER (ACCOUNTING):** An accounting record which lists financial transactions by the organization unit or service which incurred them.

**LIABILITY:** Debt or other legal obligations (not including encumbrances) arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date.

**LIFE-CYCLE COST:** The total of all costs associated with ownership of an item, including acquisition, operation, and maintenance, less the resale value (if any) over the life of the equipment.

**LIMITED LIABILITY BONDS:** When a government issues bonds which do not pledge the full faith and credit of the jurisdiction, it issues limited liability bonds. Typically, pledges are made to dedicate one specific revenue source to repay these bonds, or some other special repayment arrangements are made.

**LINE ITEM BUDGET:** A budget prepared along departmental lines that focuses on what is to be bought.

**LIQUIDITY:** The ability to convert an investment to cash promptly with minimal risk to the principal or accrued interest.

**MAJOR FUND:** Any fund whose revenues or expenditures, excluding other financing sources and uses, constitute more than 10% of the revenues or expenditures of the appropriated budget.

**MARGINAL COST:** The increase or decrease in the total cost of production for making one additional unit of a product (due to variable costs like labor and materials).

**MATURITIES:** The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

**MEASUREMENT FOCUS:** The accounting convention which determines (1) which assets and which liabilities are included on an entity's balance sheet and (2) whether its operating statement presents financial flow information (revenues and expenditures) or capital maintenance information (revenues and expenses).

**MODIFIED ACCRUAL BASIS:** The basis of accounting under which expenditures other than accrued and revenues are recorded when received in cash, except for material and/or available revenues, which should be accrued to reflect the taxes levied and revenue earned.

**MONTHLY EXPENDITURE PLAN:** The annual budget for a governmental activity can be subdivided into 12 sub-budgets, called monthly expenditure plans. They can be used to monitor actual expenditures more closely and to identify problems more quickly than can be done with the annual budget.

**NET INCOME:** Proprietary fund excess of operating revenues, non-operating revenues, and operating transfers-in over operating expenses, non-operating expenses, and operating transfer-out.

**NET REVENUES:** Revenues, less possible expenses

**NON-MAJOR FUND:** Any fund whose revenues or expenditures, excluding other financing sources and uses, constitute less than 10 percent of the revenues or expenditures of the appropriated budget should be considered a non-major fund.

**NON-PERSONNEL COST:** Costs that do not involve people.

**OBJECT OF EXPENDITURE:** Expenditure classifications based on the types or categories of goods and services purchased. Typical objects of expenditure include personal services (salaries and wages); contracted services (utilities, maintenance contracts, travel); supplies and materials; and capital outlays.

**OPERATING BUDGET:** Plans of current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing acquisition, spending, and service delivery activities of a government are controlled. Law usually requires the use of annual operating budgets. Even where not required by law, however, annual operating budgets are essential to sound financial management and should be adopted by every government. See BUDGET.

**OPERATING EXPENSES:** Proprietary fund expenses which are directly related to the fund's primary service activities.

**OPERATING TRANSFER-IN:** Transfer (payment) from other funds, which are not related to the rendering of services.

**ORGANIZATIONAL UNIT:** A responsibility center within a government.

**OVERHEAD:** Those elements of cost necessary in the production of an article or the performance of a service which are of such a nature that the amount applicable to the product or service cannot be determined accurately or readily. Usually, they relate to those objects of expenditure which do not

become an integral part of the finished product or service such as rent, heat, light, supplies, management, supervision, etc.

**PAY-AS-YOU-GO FINANCING:** Pay-as-you-go is the financing of improvement projects from current revenues. Such revenues may come from general taxation, fees, charges for services, special funds, or special assessments.

**PERFORMANCE BUDGET:** A budget wherein expenditures are based primarily upon the measurable performance of activities and work programs. A performance budget may also incorporate other bases of expenditure classification, such as character and object class, but these are given a subordinate status to activity performance.

**PERMANENT FUND:** A governmental fund type used to report resources legally restricted to earnings, not principal, to be used for purposes supporting the reporting government's programs.

**PERSONNEL COST:** The costs of salaries and wages, fringe benefits, pay differentials, and other labor charges attributable to the provision of a service. Personnel costs are classified as DIRECT COSTS if they can be readily identified with a service and are a significant cost element. If the personnel costs cannot be readily identified with a service or are an insignificant cost element, they are classified as INDIRECT COSTS.

**PERSONNEL SERVICES:** Includes total wages and benefits.

**POSTING:** The act of transferring to a LEDGER the data, either detailed or summarized, originally contained in a JOURNAL or other document of initial entry.

**PROGRAM:** A specific and distinguishable unit of work or service performed.

**PROGRAM ACTIVITY:** A specific and distinguishable unit of work or service performed.

**PROPRIETARY FUNDS:** Recipients of goods or services pay directly to these funds. Revenues are recorded at the time services are provided, and all expenses incurred in earning the revenues are recorded in the same period.

**PURCHASE ORDER:** A document issued to authorize a vendor or vendors to deliver specified merchandise or render a specified service for a stated estimated price. Outstanding purchase orders are called encumbrances.

**REPLACEMENT COST:** The cost, as of a certain date, of a property which can render similar service (but which need not be of the same structural form) as the property to be replaced.

**REQUISITION:** A written demand or request, usually from one department to another department, for specified articles or services.

**RESERVE:** An account used to indicate that a portion of fund equity is legally restricted for a specific purpose or not available for appropriation and subsequent spending.

**RESERVE FOR CONTINGENCIES:** A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted for.

**RESERVE FUND FINANCING:** A variation of the pay-as-you-go method. Under this procedure, funds are accumulated in advance for the construction of capital projects. The accumulation may result from surplus or "earmarked" operational revenues that are set aside, depreciation accounts, or from the sale of capital assets.

**RESOURCES:** The personnel and non-personnel assets of an organization which can be used to support its operations and activities. These assets include staff time, buildings, equipment, and cash.

**REVENUE:** The term designates an increase to a fund's assets which represents an increase in liabilities (e.g., proceeds from a loan); repayment of an expenditure already made; cancellation of certain liabilities; and increases in contributed capital.

**REVENUE BONDS:** Revenue bonds are frequently for projects like water and sewer systems. Such bonds are usually not backed by the full faith and credit of the local jurisdiction. For this same reason, interest rates are almost always higher than are general obligation bond interest rates, and voter approval is seldom required.

**REVENUE ESTIMATE:** A formal estimate of how much revenue will be earned from a specific revenue source for some future period, typically a future fiscal year.

**SERVICE:** A program or activity which does not produce a tangible commodity, but which nonetheless contributes to the welfare of others (e.g., mail escort, motorized surveillance of neighborhoods, investigation of burglaries, etc.).

**SERVICE OF OBJECTIVES:** The specific achievements which a government hopes to make through the provision of a service. The intended result of an activity.

**SERVICE PLAN:** The methods by which a government plans to achieve its service objectives. The service plan is the basis upon which the annual budget should be built.

**SOURCE OF REVENUE:** Revenues are classified according to their source or point of origin.

**SPECIAL ASSESSMENTS:** Public works programs financed most equitably by special assessments are those that benefit certain properties more than others. Local improvements often financed by this method include street paving, sanitary sewers, water mains, and sidewalks.

**SPECIAL ASSESSMENT BONDS:** Bonds payable from the proceeds of SPECIAL ASSESSMENTS. These bonds are payable only from the collection of SPECIAL ASSESSMENTS and occur in Special Improvement Districts (SIDs).

**SPECIAL DISTRICT:** Special districts are created in most cases to manage facilities that are supported by user charges. Toll roads and water and sewerage systems are examples of such facilities. Special districts with the power to tax are also created for the purpose of issuing bonds and constructing facilities that may not be self-supporting.

**SPECIAL REVENUE FUNDS:** General government funds where the source of revenue is dedicated and/or restricted to a specific purpose.

**STARTUP COST:** Cost of planning and organizing a service (or new approach to an existing service) and obtaining the human, financial, and physical resources required for its operation.

**SUPPLIES AND SERVICES:** All supplies and services such as: office supplies, professional services, and intergovernmental services.

**SUNK COST:** The cost that has already been incurred. For example, the cost of a previously purchased computer system.

**TAX ANTICIPATION NOTES:** Notes issued in anticipation of taxes which are usually retired from taxes collected.

**TAX RATE LIMIT:** The maximum legal rate at which a municipality may levy a tax. The limit may apply to taxes raised for a particular purpose or for general purposes.

**TAXES:** Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against persons or property for current or permanent benefits such as

special assessments. Neither does the term include charges for services rendered only to those paying for such services, such as sewer service.

**TOTAL COST:** The sum of all costs, direct and indirect, associated with the provision of a service.

**TRUST FUND:** A fund used to account for assets held by the County in a trustee capacity for individuals, private organizations, other governments, or other funds.

**UNIT COST:** The cost required to produce a specific product or unit of service (e.g., the cost to purify one thousand gallons of water).

**VARIABLE COST:** A cost that increases / decreases with increases / decreases in the

amount of service provided, such as the payment of a salary.

**VOUCHER:** A written document which is evidence of the propriety nature of a particular transaction and typically indicates the amounts to be affected by the transaction.

**WARRANT:** An order drawn by a municipal officer(s) directing the treasurer of the municipality to pay a specified amount to the bearer, either after the current or some future date.

**YIELD:** The rate earned on an investment, based on the price paid for the investment, the interest earned during the period held, and the selling price or redemption value of the investment.

# FY 2021 Budget Submission

---

**PREPARATION:** Pursuant to the Official Code of Georgia Annotated 36-81-1, as Chief Budget Officer for the Bulloch County Board of Commissioners (hereinafter referred to as the “governing authority”), I hereby announce that the proposed Fiscal Year 2021 General Appropriations Budget Resolution for Bulloch County, Georgia (hereinafter referred to as the “tentative budget”) has been prepared with the intent to provide the governing authority, other elected officials of the county, and the general public an opportunity and a mechanism to gain information concerning the purposes for which local revenues are proposed to be spent; with further intent to provide appropriate information to assist the governing authority and other elected officials of the County in carrying out their lawful responsibilities; and, with further intent to provide for the collection and reporting of information so as to assist local policymakers and taxpayers in understanding and evaluating county government service delivery and operations.

**SUBMISSION AND REVIEW:** Pursuant to the Official Code of Georgia Annotated 36-81-5, as Chief Budget Officer for the governing authority, I hereby announce that the tentative budget has been submitted to said governing authority for consideration of adoption, pending any changes so directed, and is available upon the date referenced below for public inspection beginning Thursday, June 11, 2020 from 8:00 A.M. until 5:00 P.M. and for each day until adoption, at the Board of Commissioners Office, Bulloch County North Main Annex, South Wing Lobby, 115 North Main Street, Statesboro, Georgia. The proposed budget may also be reviewed on the Bulloch County website, [www.bullochcounty.net](http://www.bullochcounty.net).

**PUBLIC HEARING:** Pursuant to the Official Code of Georgia Annotated 36-81-5, as Chief Budget Officer for the governing authority, I hereby announce that the tentative budget shall be represented and considered for public comment during a public hearing before the governing authority to be held at 5:30 P.M., Tuesday, June 23, 2020, at the Bulloch County North Main Annex, North Wing Community Room, 115 North Main Street, Statesboro, Georgia. All persons to be heard may attend.

**ADOPTION:** Pursuant to the Official Code of Georgia Annotated 36-81-6, as Chief Budget Officer for the governing authority, I hereby announce that said governing authority anticipates adopting the final budget resolution, subject to changes to the tentative budget made as a result of public comment and final adjustments, at a regular meeting of the governing authority at 5:30 P.M., Tuesday, June 30, 2020, at the Bulloch County North Main Annex, North Wing Community Room, 115 North Main Street, Statesboro, Georgia.

**REASONABLE ACCOMODATIONS:** It is County policy to provide reasonable accommodations for individuals with disabilities with advance notice of need. If an accommodation is needed, please contact Olympia F. Gaines, Clerk of the Board at 912.764.6245. If assistance is needed for individuals with auditory or visual disabilities, contact 7-1-1 for TDD services, Georgia Relay Services at 1-866-787-6710, or [www.georgiarelay.org](http://www.georgiarelay.org).

**DULY SUBMITTED TO THE LEGAL ORGAN OF THE COUNTY AS PRESCRIBED,  
THIS 16<sup>th</sup> DAY OF JUNE 2020  
THOMAS M. COUCH  
COUNTY MANAGER**

# Budget Resolution

---

## State of Georgia - County of Bulloch

### Resolution of the Bulloch County Board of Commissioners

#### Resolution #2020 –16

#### To Adopt the General Appropriations Budget and Work Program for Fiscal Year 2021 with Subject Provisions Herein

**WHEREAS**, the Official Code of Georgia Annotated, Title 36, Chapter 81, Section 3 requires that each local unit of government adopt a balanced budget for all required funds; and

**WHEREAS**, the Bulloch County Board of Commissioners has established a General Fund to serve as the primary financial reporting instrument for current governmental operations; and

**WHEREAS**, the Bulloch County Board of Commissioners has established Enterprise Funds that periodically account for revenues earned, expenditures incurred, and retain net income as earned for capital maintenance, public policy, management control, accountability, or other purposes to facilitate the operation of the Aquatic Center; and

**WHEREAS**, the Bulloch County Board of Commissioners has established Internal Service Funds to assign costs directly to functions, activities and departments benefitting from these costs for partially self-funded employee health insurance coverage and claims management, for correctional food services to provide inmate meals and services for other departments; for maintenance and operation of a multi-jurisdictional radio communication system; and

**WHEREAS**, the Bulloch County Board of Commissioners has established Special Revenue Funds for various purposes to account for the proceeds of specific transfers and revenue sources that are legally restricted to expenditure for express purposes; and

**WHEREAS**, the Bulloch County Board of Commissioners appropriates financial resources on an annual basis using a budget to identify revenues received, expenditures incurred, and transfers within, or, to and from, the General Fund and the aforesaid Internal Service Funds, Enterprise and Special Revenue Funds; and

**WHEREAS**, County Officers, County Courts, County Operating Departments, and eligible Externally Funded Agencies have submitted requests for a County Appropriation for the 2021 Fiscal Year to the County Manager as the appointed Budget Officer for review and recommendation; and

**WHEREAS**, the County Manager of the Bulloch County Board of Commissioners, as the appointed Budget Officer, has presented and recommended a General Appropriations Budget in the form

of a Work Program for functional activities for each fund and budget division to the Board of Commissioners; and

**WHEREAS**, the Bulloch County Board of Commissioners has met the requirements of Title 36, Chapter 81, Sections 4, 5 and 6 of the Official Code of Georgia Annotated regarding appointment of a budget officer, presentation of the budget to the governing authority, public notice and hearings, and other requirements; and

**WHEREAS**, the General Appropriations Budget will be based on current estimates of revenues and expenditures, and the Board of Commissioners may find it necessary to adjust budgeted revenues and expenditures from time to time during the year by amendment; and

**WHEREAS**, the Bulloch County Board of Commissioners has a responsibility to achieve maximum efficiency and effectiveness in its financial operations by maintaining a balanced budget where planned expenditures may not exceed revenues, according to State law; and

**WHEREAS**, the COVID-19 pandemic has created unusual circumstances for projected economic and financial performance for the upcoming fiscal year; and

**WHEREAS**, the Board of Commissioners constitutes the governing body of Bulloch County, Georgia;

**NOW THEREFORE, BE IT RESOLVED**, that the Fiscal Year 2021 Bulloch County General Appropriations Budget and Work Program be officially adopted on a basis consistent with Bulloch County’s Budget Policies and subject to all county policies regarding the expenditure of funds and the conditions set forth in such resolution, including all revenues, expenditures and operating transfers in amounts as attached, incorporated by reference herein; and

**BE IT FURTHER RESOLVED**, that it is assumed that the Insurance Premium Tax (“IPT”) will be collected at a rate of \$2,800,000 and, in accordance with the provisions of O.C.G.A. § 33-8-8.3, shall be separated from other county funds and shall be expended for the following authorized services provided for the primary benefit of the inhabitants of the unincorporated area of the county, and that other funds shall also be expended for such purposes as follows:

Service Provided	FY 21 Expenditures	FY 21 Revenues				Department Funding Source(s)
		Insurance Premium Tax	Department Revenues	General Fund	Total	
Solid Waste Disposal, Collection & Recycling Services	2,407,030	1,835,030	572,000		2,407,030	Dumpster Fees, Recyclables Sales
Animal Control	207,025	147,025	60,000		207,025	Municipal Service Contract
Planning and Zoning	186,690	167,690	19,000		186,690	Development Application and Permit Fees
Engineering	155,520	153,520	2,000		155,520	
Building Inspections	363,575	154,975	208,600		363,575	Development Application and Permit Fees
Regional Commission	59,630	59,630			59,630	

Dues						
Other Unincorporated Services Performed by Other Departments <sup>1</sup>	355,815	282,130		73,685	355,815	
<b>Total</b>	<b>3,735,285</b>	<b>2,800,000</b>	<b>861,600</b>	<b>73,685</b>	<b>3,735,285</b>	

<sup>1</sup> 2 - Work Detail Employees (Trash Pickup) – Correctional Institute - \$41,301; 1 – Work Detail Van - \$30,000; 1 – Fleet Maintenance Technician – Fleet Maintenance - \$51,393; 2 – Truck Driver (Backup Solid Waste) – Roads - \$42,408; 1 – Capital Projects Manager - \$82,005; Mowing Contract - \$25,000.

**BE IT FURTHER RESOLVED**, that county elected and appointed officials including the Board of Commissioners, the Probate Judge, the Magistrates, the Tax Commissioner, the Sheriff and the Superior Court Clerk, shall receive compensation adjustments this year as approved during the 2020 session of the Georgia General Assembly; and

**BE IT FURTHER RESOLVED**, that no county employees will receive any cost-of-living or performance compensation adjustments, nor any annual leave cash-outs for the fiscal year, unless the County Manager recommends an amendment to this General Appropriations Budget that is subsequently approved by the Board of Commissioners; and

**BE IT FURTHER RESOLVED**, that pending the availability of funding, the County Manager may approve legitimate compensation adjustments as the result of promotions for the filling of vacant positions, promotions proposed during the budget preparation process, and/or for reclassifications or special reviews of regular full-time or part-time employees, as provided for in the Bulloch County Personnel Policies, with all other compensation adjustments to be approved by the Board of Commissioners; and

**BE IT FURTHER RESOLVED**, that the adopted Position Allocation Schedule contained in such budget shall limit the number of regular full and part-time positions and employees who can be employed in all departments, offices, and the courts, and no funds are appropriated for any additional positions or employees or shall be approved without an amendment to the General Appropriations Budget by the Board of Commissioners; and

**BE IT FURTHER RESOLVED**, that the Board of Commissioners may, from time to time during the year, change the adopted Position Allocation Schedule upon a petition of amendment, and/or impose a hiring freeze as circumstances warrant, and that the same limitation will apply as to the number of employees who can be employed with a revised Position Allocation Schedule; and

**BE IT FURTHER RESOLVED**, that the Board of Commissioners authorize the County Manager to recommend a contingency plan for expenditure reductions including but not limited to reductions-in-force (under the operational jurisdiction of the Board of Commissioners), hiring freezes, furloughs, reduced work hours or services, or other reductions in non-personnel or capital expenditures, during the course of the fiscal year for consideration of by the Board as an amendment General Appropriations Budget; and

**BE IT FURTHER RESOLVED**, the County Manager is authorized to initiate a reduction-in-force for all part-time positions at Solid Waste Collection Centers effective on July 1, 2020; and

**BE IT FURTHER RESOLVED**, that certain positions contained in the Position Allocation Schedule

which are supported in some part by a grant, cost sharing, reimbursement, or some other source of outside funding are only adopted contingent upon the county receiving the budgeted revenues; and

**BE IT FURTHER RESOLVED**, that in the event that such anticipated outside funding is not received or the county is notified that it will not be received, said positions shall be considered not funded and removed from the adopted Position Allocation Schedule upon a reduction-in-force pursuant to the County Personnel Policies; and

**BE IT FURTHER RESOLVED**, that the Schedule of Fees as included is adopted for FY 2021 and until otherwise changed by resolution; and

**BE IT FURTHER RESOLVED**, that the Chairman of the Board of Commissioners, or the County Manager as his designee, upon the majority vote of the Board of Commissioners is authorized to sign agreements, contracts, and/or other documents related to the grant programs and other county appropriations which are contained in the adopted budget and provided in the county financial policies, subject to review by the County Attorney as to form and to verification by the County Manager that the total amount of revenues and expenditures and the net obligation to the County is not greater than what is budgeted, that there is no change in employee status and no additional employees other than as authorized in the adopted budget; and, that any grant adjustment shall be approved as an amendment to the General Appropriations Budget by the Board of Commissioners; and

**BE IT FURTHER RESOLVED**, that all transfers (including contingency accounts) and amendments shall only be made according to the financial policies of the Bulloch County Board of Commissioners as adopted, and as amended from time-to-time, subject to any internal procedures imposed by the County Manager to ensure proper controls.

**RESOLUTION APPROVED AND ADOPTED** this 30<sup>th</sup> day of June 2020.

**Board of Commissioners of  
Bulloch County, Georgia**
